**Medicine and Health Care in Early Christianity** Gary B. Ferngren, 2016-08 Drawing on New Testament studies and recent scholarship on the expansion of the Christian church Gary B Ferngren presents a comprehensive historical account of medicine and medical philanthropy in the first five centuries of the Christian era Ferngren first describes how early Christians understood disease He examines the relationship of early Christian medicine to the natural and supernatural modes of healing found in the Bible Despite biblical accounts of demonic possession and miraculous healing Ferngren argues that early Christians generally accepted naturalistic assumptions about disease and cared for the sick with medical knowledge gleaned from the Greeks and Romans Ferngren also explores the origins of medical philanthropy in the early Christian church Rather than viewing illness as punishment for sins early Christians believed that the sick deserved both medical assistance and compassion Even as they were being persecuted Christians cared for the sick within and outside of their community Their long experience in medical charity led to the creation of the first hospitals a singular Christian contribution to health care A succinct thoughtful well written and carefully argued assessment of Christian involvement with medical matters in the first five centuries of the common era It is to Ferngren's credit that he has opened questions and explored them so astutely This fine work looks forward as well as backward it invites fuller reflection of the many senses in which medicine and religion intersect and merits wide readership *Journal of the American Medical Association* In this superb

work of historical and conceptual scholarship Ferngren unfolds for the reader a cultural milieu of healing practices during the early centuries of Christianity Perspectives on Science and Christian Faith Readable and widely researched an important book for mission studies and American Catholic movements the book posits the question of what can take its place in today's challenging religious culture Missiology An International Review Gary B Ferngren is a professor of history at Oregon State University and a professor of the history of medicine at First Moscow State Medical University He is the author of *Medicine and Religion A Historical Introduction* and the editor of *Science and Religion A Historical Introduction* Religion beyond its Private Role in Modern Society Wim Hofstee, A. van der Kooij, 2013-09-12 The volume *Religion beyond its Private Role in Modern Society* aims at contributing to the debate on the distinction between public and private spheres with regard to the role of religion in modern societies This issue which is inherent to many conceptions regarding social order modernity freedom of conscience and the changing role and function of religion is discussed not only from a social scientific but also from a historical and philosophical point of view The articles dwell on several aspects of the role of religion in different societies in modern times and the overall theme is explored from the perspective of various religious traditions and groups both institutional and non institutional It turns out that the distinction made is difficult to maintain Contributors include Bart Labuschagne Linda Woodhead Niek Brunsveld Dick Douwes Mohammed Ghaly Heleen Murre van den Berg David Novak Alexandros Sakellariou Matthew Tennant Bruno Verbeek Ernestine G E van der Wall William Arfman Stef Aupers Jeroen Boekhoven Meerten B ter Borg and Kees de Groot **Religious Pamphlets**, 1898 Ferdinand Christian Baur and the History of Early Christianity Martin Bauspiess, Christof Landmesser, David Lincicum, 2017-02-10 Ferdinand Christian Baur 1792 1860 has been described as the greatest and at the same time the most controversial theologian in German Protestant theology since Schleiermacher The controversy was epitomized by a nineteenth century British critic who wrote that his theory makes of Christianity a thing of purely natural origin calls in question the authenticity of all but a few of the New Testament books and makes the whole collection contain not a harmonious system of divine truth but a confused mass of merely human and contradictory opinions as to the nature of the Christian religion The contributors to this volume however regard Baur as an epoch making New Testament scholar whose methods and conclusions though superseded have been mostly affirmed during the century and a half since his death This collection focuses on the history of early Christianity although as a historian of the church and theology Baur covered the entire field up to own time He combined the most exacting historical research with a theological interpretation of history influenced by Kant Schelling and Hegel The first three chapters discuss Baur's relation to Strauss Müller and Hegel Then a central core of chapters considers his historical and exegetical perspectives Judaism and Hellenism Gnosticism New Testament introduction and theology the Pauline epistles the Synoptic Gospels John the critique of miracle and the combination of absoluteness and relativity The final chapters view his influence by analyzing the reception of Baur in Britain Baur and Harnack and Baur and practical theology This work

offers a multi faceted picture of his thinking which will stimulate contemporary discussion
