surroundings is more precise than ever before Brotton argues that maps today are no more definitive or objective than they have ever been Readers of this beautifully illustrated and masterfully argued book will never look at a map in quite the same way again A fascinating and panoramic new history of the cartographer s art The Guardian The intellectual background to these images is conveyed with beguiling erudition There is nothing more subversive than a map The Spectator A mesmerizing and beautifully illustrated book The Telegraph *Pictorial History of the World's Greatest War and New International Atlas of the World* ,1919 Meeting the Challenges of Global Terrorism Dilip K.
