joined forces against their common aggressors the Spanish inmates Chancer's gang became invincible in this cauldron of hate and fear their numbers were few but their strength lay in the loyalty and respect they had for each other combined with their courage and fighting skills Chance highlights the fact that much international crime is planned in prison and strong business friendships are forged which last for years This harrowing tale is prison writing in the raw The action remains unremittingly confined to the brutal ugly and corrupt environment of the Carabanchel and rubs the noses of the politically correct brigade in the filth of the real world

Transeurasian Verbal Morphology in a Comparative Perspective Lars Johanson, Martine Irma Robbeets, 2010 The term Transeurasian refers to a large group of geographically adjacent languages stretching from the Pacific in the East to the Mediterranean in the West They share a significant amount of linguistic properties and include five linguistic families Japanese Korean Tungusic Mongolic and Turkic There is disagreement among scholars on the question whether these languages are genealogically related in the sense of an Altaic family Many linguists however seem to agree on at least one point namely that investigations into the striking correspondences in the domain of verbal morphology could substantially help unravelling the question The present volume brings together prominent specialists in the field who explore potentially

shared features of verbal morphology among the Transeurasian languages and search for the best way to explain them Important issues dealt with include the following How useful is verbal morphology really in establishing genealogical relations among languages Is there concrete evidence for cognate verbal morphology across the Transeurasian languages Is it possible to draw wider connections with Indo European and Uralic How to distinguish between genealogical retention and copying of verbal morphology In which ways can typological similarities be significant in this context **Sensuous**
