INTRODUCTION THE value of suggestion is nowhere so clearly demonstrated as in the Magic Art and I have yet to see the  
book devoted to this subject that has not imparted at least a few good ideas well worth retaining I therefore present this little  
series of original experiments to the lovers of Magic not so much for its value as a collection of up to date tricks separate and  
distinct from each other but rather as a series of useful hints and ideas from which I trust both the amateur and professional  
may derive much food for thought I have not considered it necessary in a book of this size to devote any space to the  
definition of terms and phrases commonly used in conjuring circles for the tricks herein described would be of little practical  
use to one unfamiliar with the rudiments of Magic or current literature on the subject while to the advanced conjurer such  
information would only be superfluous In the near future I hope to publish a larger book devoted exclusively to the beginner  
a sort of A B C of Magic I might say brought right up to date in which I shall endeavor to confer upon the neophyte the  
mysteries of modern Magic in a clear concise manner and lead him step by step to the higher class of conjuring **Modern

imperfections such as missing or blurred pages poor pictures errant marks etc that were either part of the original artifact or  
were introduced by the scanning process We believe this work is culturally important and despite the imperfections have  
elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide We  
appreciate your understanding of the imperfections in the preservation process and hope you enjoy this valuable book The
