**The Art of Teaching Art** Deborah A. Rockman, 2000-11-09 Often the finest artists do not make the best teachers Many frustrated college students of art know this all too well as they suffer through unstructured classes with inexperienced teachers or graduate student instructors In these situations it is easy to blame the teachers But the problem is largely institutional most students graduating with MFAs from art schools receive little if any instruction in teaching art If you find yourself in this predicament as teacher or student this book is for you The first book to provide a comprehensive guide for teaching college level art The Art of Teaching Art is the culmination of respected artist and instructor Deborah Rockman s two decades of teaching experience Believing that drawing is the backbone of all of the visual arts she begins with a complete explanation of drawing concepts that apply to any subject matter e g composition sighting processes scaling techniques and methods for linear and tonal development She then illustrates these concepts with step by step methods that easily translate to classroom exercises Next she applies the drawing principles to every artist s most important and challenging subject the human figure After an extended section on understanding and teaching perspective that explores illusionistic form and space the focus of the book shifts to the studio classroom itself and the essential elements that go into making an effective learning environment and curriculum From preparing materials lists and syllabi to setting up still lifes handling difficult classroom situations critiquing and grading student artworks and shooting slides of student artworks she leaves no stone unturned

**Improvement in the Art of Teaching** Sir Joshua Girling Fitch, 1887 *The Art of Teaching (Classic Reprint)* David Salmon, 2015-09-27 Excerpt from The Art of Teaching Similarly in the all important matter of the formation Of Character the teacher is only one of the factors He ought 2 In moral by setting an example of respect for self and education respect for law by fostering love of all that is great and good and hatred Of all that is base and mean by insisting on prompt and encouraging Cheerful obedience by seeing that every obligation is performed punctually and dili gently till punctuality and diligence become habits and by direct lessons on life and conduct to be able to train his pupils to the efficient and faithful discharge of every duty Of the home the business and the State But his in uence may be weakened or destroyed by inborn predispositions by impulses given before school life began or by companions and surroundings without his cognisance and beyond his control About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

**The Art of Teaching** Gilbert Highet, 1955 The Art of Teaching Science Jack Hassard, Michael Dias, 2013-07-04 The Art of Teaching Science emphasizes a humanistic experiential and constructivist approach to teaching and learning and integrates a wide variety of pedagogical learning tools These tools involve inquiry and experimentation reflection through writing and discussion as well as experiences with students science curriculum and pedagogy Becoming a science teacher is a creative process and this innovative textbook encourages students to construct ideas about science teaching through their interactions with peers

professionals and instructors and through hands on minds on activities designed to foster a collaborative thoughtful learning environment     *The Art of Teaching* Gilbert Hight,1990     *The Art of Teaching Children* Phillip Done,2023-07-18 An essential guide for teachers and parents that s destined to become a classic *The Art of Teaching Children* is one of those rare and masterful books that not only defines a craft but offers a magical reading experience After more than thirty years in the classroom award winning teacher Phillip Done decided that it was time to retire But a teacher s job is never truly finished and he set out to write the greatest lesson of his career a book for educators and parents that would pass along everything he learned about working with kids From the first day of school jitters to the last day s tears Done writes about the teacher s craft classrooms and curriculums the challenges of the profession and the reason all teachers do it the children Drawing upon decades of experience Done shares time tested tips and sage advice Real learning is messy not linear Greeting kids in the morning as they enter the classroom is an important part of the school day If a student is having trouble look at what you can do differently before pointing the finger at the child Ask yourself Would I want to be a student in my class When children watch you they are learning how to be people and one of the most important things we can do for our students is to model the kind of people we would like them to be Done tackles topics you won t find in any other teaching book including Back to School Night nerves teacher pride the Sunday Blues Pinterest envy teacher guilt and the things they never warn you about in teacher school but should like how to survive recess duty field trips and lunch supervision Done also addresses some of the most important issues schools face today bullying excessive screen time the system s obsession with testing teacher burnout and the ever increasing demands of meeting the diverse learning needs of students But *The Art of Teaching Children* is more than a guide to educating today s young learners These pages are alive with inspiration humor and tales of humanity Done welcomes us like visitors at Open House Night to the world of elementary school where we witness lessons that go well and others that flop periods that run smoothly and ones that go haywire when a bee flies into the room We meet master teachers and new ones librarians and lunch supervisors principals and parents some with too much time on their hands We get to know kids who want to hold a ball and those who d rather hold a marker students with difficult home lives and children with disabilities youngsters who need drawing out and those who happily announce in the middle of a math lesson that they have a loose tooth With great wit and wisdom irresistible storytelling and boundless compassion *The Art of Teaching Children* is the new educator s bible for teachers parents and all who work with kids and care about their learning and success

*Researching the Art of Teaching* Peter Woods,2013-09-27 This book is a follow up to *Inside Schools* It reviews the position of ethnography in educational research in the light of current issues and of the author s own research over the past ten years Starting from an analysis of teaching as science and as art Peter Woods goes on to review the general interactionist framework in which his own work is situated and how this relates to postmodernist trends in qualitative research The approach is illustrated through reference to the author s own personal history and research career and his recent research

on creative teaching critical events and his teachers reactions to school inspections How to represent such research is a central feature and includes a consideration of the tools used in that task and how they relate to the ethnographer s self whatever forms of representation are selected however the audiences own concerns will guide them in their interpretation of the work Prominent themes include the person of the ethnographer in research the art of teaching and new ways of representing it while not forgetting the science of teaching and of research research for educational use and the uses of educational research collaborative work between researchers and teachers The issues covered include such matters as research purposes research design research careers access data collection data analysis truth criteria the relationship between theory and research methods writing up and dissemination
