range of locations via a series of contributed case studies Connecting theory to practice for readers in a way that emphasises possibility Working with Young Children in Museums should be essential reading for museum practitioners working in a range of institutions around the world It should be of equal interest to researchers and students engaged in the study of museum learning early childhood education and children s experiences in museums *Broadening Critical Boundaries in Children's and Young Adult Literature and Culture* Amie A. Treatise on Parents and Children Bernard Shaw,2022-11-24 A Treatise on Parents and Children is a classic family studies parenting guide by the great Irish writer George Bernard Shaw that examines the parent child relationship and contains the following excerpt Childhood is a stage in the process of that continual remanufacture of the Life Stuff by which the human race is perpetuated The Life Force either will not or cannot achieve immortality except in very low organisms indeed it is by no means ascertained that even the amoeba is immortal Human beings visibly wear out though they last longer than their friends the dogs Turtles parrots and elephants are believed to be capable of outliving the memory of the oldest human inhabitant But the fact that new ones are born conclusively proves that they are not immortal Do away with death and you do away with the need for birth in fact if you went on breeding you would finally have to kill old people to make room for young ones Amazon
