Ringelberg,2017-07-05 Were late nineteenth century gender boundaries as restrictive as is generally held In Redefining Gender in American Impressionist Studio Paintings Work Place Domestic Space Kirstin Ringelberg argues that it is time to bring the current re evaluation of the notion of separate spheres to these images Focusing on studio paintings by American artists William Merritt Chase and Mary Fairchild MacMonnies Low she explores how the home based painting studio existed

outside of entrenched gendered divisions of public and private space and argues that representations of these studios are at odds with standard perceptions of the images their creators and the concept of gender in the nineteenth century Unlike most of their bourgeois contemporaries Gilded Age artists whether male or female often melded the worlds of work and home Through analysis of both paintings and literature of the time Ringelberg reveals how art history continues to support a false dichotomy that in fact paintings that show women negotiating a complex combination of professionalism and domesticity are still overlooked in favor of those that emphasize women as decorative objects *Redefining Gender in American Impressionist Studio Paintings* challenges the dominant interpretation of American and European Impressionism and considers both men and women artists as active performers of multivalent identities **Art Guide Texas** Rebecca S. about the problems and priorities of criticism and about the relations between interpretation and judgment **The Mediatization of the Artist** Rachel Esner, Sandra Kisters, 2018-01-31 This book offers trans historical and trans national perspectives on the image of the artist as a public figure in the popular discourse and imagination Since the rise of notions of artistic autonomy and the simultaneous demise of old systems of patronage from the late eighteenth century onwards artists have increasingly found themselves confronted with the necessity of developing a public persona In the same period new audiences for art discovered their fascination for the life and work of the artist The rise of new media such as the illustrated press photography and film meant that the needs of both parties could easily be satisfied in both words and images Thanks to these new media the artist was transformed from a simple producer of works of art into a public figure The aim of this volume is to reflect on this transformative process and to study the specific role of the media themselves Which visual media were deployed to what effect and with what kind of audiences in mind How did the artist critic photographer and filmmaker interact in the creation of these representations of the artist s image
