The Assault On Peleliu:

The Assault on Peleliu United States. Marine Corps, Frank Olney Hough, 1950 **The Assault On Peleliu** Major Frank O. Hough, 1950 *Marines In World War II - The Assault On Peleliu [Illustrated Edition]* Major F. O. Hough
USMC, 2014-08-15 As the Marines ran into the shore of the coral reefed island of Peleliu in their landing craft the Japanese artillery that wreathed the landing beach of Peleliu gave them little confidence in the words of their commander General Rupertus that the operation would be hard but short with minimal casualties what lay ahead would be what was known as the bitterest battle of the war for the Marines Contains 70 photos and 23 maps and charts Many factors combined to make the assault on Peleliu one of the least understood operations of World War II Yet it was one of the most vicious and stubbornly contested and nowhere was the fighting efficiency of the U S Marine more convincingly demonstrated At Peleliu the enemy proved that he had profited from his bitter experiences of earlier operations He applied intelligently the lessons we had taught him in the Solomons Gilberts Marshalls and Marianas At Peleliu the enemy made no suicidal banzai charges to hasten the decision he carefully concealed his plans and dispositions He nursed from his inferior strength the last ounce of resistance and delay to extract the maximum cost from his conquerors In these respects Peleliu differed significantly from previous campaigns and set the pattern for things to come Iwo Jima and Okinawa Because the operation protracted itself over a period of nearly two and a half months it is easy to lose sight of the fact that the strategic objective was accomplished within the first week neutralization of the entire Palaus group and with this securing of the Philippines approaches C B CATES GENERAL U S MARINE CORPS COMMANDANT OF THE MARINE CORPS **The Devil's Anvil** James H. Hallas, 1994-02-28 On September 15 1944 General William Rupertus and the 16 000 Marines of the U S 1st Marine Division moved confidently toward Peleliu an obscure speck of coral island 500 miles east of the Philippines Though he knew a tough fight awaited him Rupertus anticipated a quick two day crush to victory strengthening Gen Douglas MacArthur s flank in his drive on the Philippines Instead as *The Devil s Anvil* reveals American forces struggled desperately for more than two months against 10 000 deeply entrenched Japanese soldiers who had spent six months preparing for the battle By the time the weary Americans could claim a victory the fight had become one of the war s most costly successes Even more tragic Peleliu was later deemed a more or less unnecessary seizure For those who survived Peleliu remains a bitter emotionally exhausting chapter of their lives In *The Devil s Anvil* Hallas reports on the personal combat experience of scores of officers and enlisted men who were at Peleliu These men describe the heartbreaking loss of friends the pain of wounds and the heat dirt and exhaustion of a fight that never seemed to end The Assault on Peleliu , 1948 **The assault on Peleliu** United States. Marine Corps, 1950 **U.S. Naval Gunfire Support in the Pacific War** Donald K. Mitchener, 2021-07-28 On November 20 1943 the U S military invaded the Tarawa Atoll of the Gilbert Islands as part of the first American offensive in the Central Pacific region during World War II This invasion marked more than one first as it was also the introductory test of a doctrine

developed during the interwar years to address problems inherent in situations in which amphibious assaults required support by naval gunfire rather than land based artillery In this detailed study Donald K Mitchener documents and analyzes the prewar development of this doctrine as well as its application and evolution between the years 1943 1945 The historical consensus is that the test at Tawara was successful and increased the efficiency with which U S forces were able to apply the doctrine in the Pacific theater for the remainder of the Second World War Mitchener challenges this view arguing that the reality was much more complex He reveals that strategic concerns often took precedence over the lessons learned in the initial engagement and that naval planners failure to stay up to date with the latest doctrinal developments and applications sometimes led them to ignore these lessons altogether U S Naval Gunfire Support in the Pacific War presents an important analysis that highlights the human cost of misinterpreting strategic and tactical realities **The Approach to the**

the Pacific - the Approach to the Philippines Robert Ross Smith,2014-08-15 Includes 2 tables 33 maps and 56 illustrations Jungle warfare in the Southwest Pacific provided a unique experience for an army only lately thrust into global war but as The Approach to the Philippines graphically demonstrates the rules of war the problems of leadership and the opportunities for military success pertain in the steaming hills of New Guinea as well as on the broad plains of Normandy This volume describes the operations of Allied forces in the Pacific theaters during the approach to the Philippines April through October 1944 While this is essentially the story of U S Army ground combat operations during the approach the activities of all ground air and naval forces are covered where necessary for the understanding of the Army ground narrative Eight major and separate operations all susceptible of subdivision into distinct phases are described Seven of these operations took place in the Southwest Pacific Area while one the Palau Islands operation occurred in the Central Pacific Area This series of actions is exceptional in that the operations were executed in such rapid succession that while one was being planned the height of combat was being reached in another and still others had entered the mopping up stage Because of the nature of the combat the level of treatment in this volume is generally that of the regimental combat team the infantry regiment with its supporting artillery engineer tank medical and other units The majority of the actions described involved a series of separate operations by infantry regiments or regimental combat teams since divisions seldom fought as integral units during the approach to the Philippines Division headquarters often assuming the role of a ground task force headquarters co ordinated and administered the oft times widely separated actions of the division s component parts

American Amphibious Gunboats in World War II Robin L. Rielly,2013-05-13 As the United States began its campaign against numerous Japanese held islands in the Pacific Japanese tactics required them to develop new weapons and strategies

One of the most crucial to the island assaults was a new group of amphibious gunboats that could deliver heavy fire close in to shore as American forces landed. These gunboats were also to prove important in the interdiction of inter island barge traffic and late in the war the kamikaze threat. Several variations of these gunboats were developed based on the troop carrying LCI L. They included three conversions of the LCI L with various combinations of guns, rockets and mortars and a fourth gunboat the LCS L based on the same hull but designed as a weapons platform from the beginning. By the end of the war the amphibious gunboats had proven their worth. *United States Army in World War II*, 1953 Battle of Peleliu, 1944 Jim Moran, 2021-10-30. After the Allies had defeated the Japanese in the Solomons and the Dutch East Indies the capture of the Philippines became General MacArthur's next objective. For this offensive to succeed MacArthur felt compelled to secure his eastern flank by seizing control of the Palau Islands one of which was Peleliu. The task of capturing this island and the enemy airfield on it was initially handed to Admiral Nimitz. The Palau Islands however formed part of Japan's second defensive line and Peleliu's garrison amounted to more than 10 000 men. Consequently when the US preliminary bombardment began on 12 September 1944 it was devastating. For two days the island was pounded relentlessly. Such was the scale of the destruction that the commander of the 1st Marine Division Major General William H Rupertus told his men 'We're going to have some casualties but let me assure you this is going to be a fast one rough but fast. We'll be through in three days it may only take two.' At 08 32 hours on 15 September 1944 the Marines went ashore. Despite bitter fighting and a ferocious Japanese defence by the end of the day the Marines had a firm hold on Peleliu. But rather than Japanese resistance crumbling during the following days as had been expected it stiffened as they withdrew to their prepared defensive positions. The woods, swamps, caves and mountains inland had been turned into a veritable fortress it was there where the real battle for possession of Peleliu was fought. Day after day the Americans battled forward gradually wresting control of Peleliu from the Japanese. Despite Major General Rupertus' prediction it was not until 27 November after two months one week and five days of appalling fighting and a final futile last sacrificial charge by the remaining enemy troops that the Battle of Peleliu came to an end. **the battle for two jima**, *The Transportation Corps* Joseph Bykofsky, Harold Larson, 1957 **United States Army in World War II: The Technical Services: pt.3 The Ordnance Dept.: on beachhead and battlefield, by Lida Mayo** United States.
