Global Markets is the definitive report for the Islamic finance industry. Written by the industry's leading practitioners, the book provides a country by country breakdown of the current state of the Islamic market including league tables by region and by country. Relevant case studies are used throughout to illustrate the practical aspect of the information presented. Organized for easy navigation, each chapter features sub-sections that allow instant comparison between countries in a specific area of interest. The Islamic finance industry is the world's fastest growing sector, valued at over US\$1.3 trillion by the UK Islamic Finance Secretariat, with an annual growth of 24% for the past five years. To compete globally, practitioners need a true understanding of key markets within the industry. The Islamic Finance Handbook paints a clear picture of where each country stands in its development and role within the market and provides a straightforward comparison between markets. Features include: Current macroeconomic and microeconomic conditions; Regulatory and political situations; Recent transactions; Key participants and the investor climate; Real world cases as opposed to speculative scenarios. The book places a clear focus on current conditions versus past performance and on practical applications versus theoretical speculation. Each chapter is authored by a leading practitioner from within each country, allowing a true glimpse inside the day-to-day workings of the Islamic markets. For finance professionals who need to get up to speed on this rapidly growing sector, *The Islamic Finance Handbook: A Practitioner's Guide to the Global Markets* is a clear, comprehensive guide.

The Oxford Handbook of Banking Allen N. Berger, Philip Molyneux, John O. S. Wilson, 2009-12-24. The Oxford Handbook of Banking provides an overview and analysis of the state-of-the-art research in banking, written by leading researchers in the field. This handbook will appeal to graduate students of economics, banking and finance academics, practitioners and policy makers. Consequently, the book strikes a balance between abstract theory, empirical analysis and practitioner and policy-related material. The handbook is split into five parts. Part I, *The Theory of Banking*, examines the role of banks in the wider financial system, why banks exist, how they function and their legal and governance structures. Part II, entitled *Regulatory and Policy Perspectives*, discusses monetary policy, prudential regulation and supervision and antitrust policy. Part III deals with *Bank Performance*. A number of issues are assessed, including efficiency, financial innovation and technological change, globalization and ability to deliver small business, consumer and mortgage lending services. Part IV of the book provides an overview of *Macroeconomic Perspectives in Banking*. This part includes a discussion of the determinants of bank failures and crises and the impact on financial stability, institutional development and economic growth. Part V examines *International Differences in Banking Structures and Environments*. This part of the handbook examines banking systems in the United States, Western Europe, Transition countries, Latin America, Japan and the developing nations of Asia.
