The Astrakhan Cloak offers poems selected and translated by Paul Muldoon. Ní Dhomhnaill's skillful negotiations between the forms, fables and idioms of an older Ireland and the commodity culture, depth psychology and Euro-speak of modern Ireland are disclosed by the playful, accurate language of Muldoon who has been called the most charismatic poet of the British Isles. Born in 1952, Nuala Ní Dhomhnaill grew up in the Irish speaking areas of Kerry and Tipperary. She has published three collections of poems in Irish. This book provides a unique introduction to major figures such as Seamus Heaney but also introduces the reader to significant precursors like Louis MacNeice or Patrick Kavanagh and vital contemporaries and successors among others Thomas Kinsella, Paul Muldoon and Nuala Ní Dhomhnaill. Readers will find discussions of Irish poetry from the traditional to the modernist, written in Irish as well as English from both North and South. This Companion, the only book of its kind on the market, provides cultural and historical background to contemporary Irish poetry in the contexts of modern Ireland but also in the broad currents of modern world literature. It includes a chronology and guide to further reading and will prove invaluable to students and teachers alike. **The Oxford Handbook of Modern Irish Poetry** Fran Brearton, Alan Gillis, 2012-10-25 The Oxford Handbook of Modern Irish Poetry consists of 40 essays by leading scholars and new researchers in the field. Beginning with W.B. Yeats, the figure who towers over the century's poetry, it includes chapters on the major poets to have emerged in Ireland over the last 100 years. *The Delineator*, 1884 **New Peterson Magazine**, 1887 **Peterson's Magazine**, 1889 **The Oxford Guide to Literature in English Translation** Peter France, 2000 This guide highlights the place of translation in our culture, encouraging awareness of the process of translating and the choices involved, making the translator more visible. Concentrating on major writers and works, it covers translations out of many languages from Greek to Hungarian, Korean to Turkish. For some works, e.g. Virgil's Aeneid, which have been much translated, the discussion is historical and critical, showing how translation has evolved over the centuries and bringing out the differences between versions. Elsewhere, with less familiar literatures, the Guide examines the extent to which translation has done justice to the range of work available.
