The Atomic Bomb The Great Decision:

The Atomic Bomb Paul R. Baker, 1976 **The Great Decision: the Secret History of the Atomic Bomb** Michael Amrine, 1959 An informative account of some of the events surrounding President Truman's decision to use the atom bomb against the Japanese **The Decision to Use the Atomic Bomb** Gar Alperovitz, 1996-08-06 With a new preface by the author Controversial in nature this book demonstrates that the United States did not need to use the atomic bomb against Japan Alperovitz criticizes one of the most hotly debated precursory events to the Cold War an event that was largely responsible for the evolution of post World War II American politics and culture **Bulletin of the Atomic Scientists**, 1959-05 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world **The Secret of the Manhattan Project** Doreen Gonzales, 2012-01-01 Describes the events and people surrounding the creation of the atomic bomb and examines the effects of its use during World War II **The Great Decision** Michael Amrine, 1959 **Reminiscences of Los Alamos 1943-1945** Lawrence Badash, J.O. Hirschfelder, H.P. Broida, 2012-12-06 Although the World War II efforts to develop nuclear weapons have inspired a very large literature it struck us as noteworthy that virtually nothing existed in the form of firsthand accounts Now It Can Be Told by General Leslie Groves the Manhattan Project's military commander is probably the most prominent exception but the scientists themselves seem to have shown little interest in publishing their reminiscences Believing that it would be not only worthwhile for posterity but extremely interesting for the present generation to hear about the aspirations fears and activities of those who participated in this watershed of science and government collaboration we arranged the public lecture series represented by this book We chose to focus upon Los Alamos since the project's efforts culminated there The isolated laboratory in New Mexico was created to design and construct the first atomic bombs More scientific brainpower was accumulated there than at any time since Isaac Newton dined alone and the interactions with this community are of sociological interest as the results of their work are of political import *Conflict in the Modern World* Dean Smart, 2000 A resource pack providing coverage of the modern world GCSE history syllabus requirements for AQA NEAB schools and students One of a series it contains units of work key issues analysis key issues question and answer model answer and answer constructor It covers the following core content areas the lead up to World War I World War II The Home Front 1939 1945 the lead up to the Cold War the Nuclear Age 1945 1963 **The Decision to Use the Atomic Bomb** Louis G. Morton, 1960 **Five Days in August** Michael D. Gordin, 2015-08-18 Most Americans believe that the Second World War ended because the two atomic bombs dropped on Japan forced it to surrender Five Days in August boldly presents a different interpretation that the military did not clearly understand the atomic bomb's revolutionary strategic potential that the Allies were almost as stunned by the surrender as

the Japanese were by the attack and that not only had experts planned and fully anticipated the need for a third bomb they were skeptical about whether the atomic bomb would work at all With these ideas Michael Gordin reorients the historical and contemporary conversation about the A bomb and World War II Five Days in August explores these and countless other legacies of the atomic bomb in a glaring new light Daring and iconoclastic it will result in far reaching discussions about the significance of the A bomb about World War II and about the moral issues they have spawned *Morality's Muddy Waters* George Cotkin,2010 George Cotkin looks at diverse yet central issues such as the problem of evil moral responsibility racial identity and capital punishment juxtaposed against events such as the bombing of civilians during World War II the My Lai Massacre and the invasion of Iraq to demonstrate that moral complexity and confusion can be productive **A Guide to the Study and Use of Military History** John E. Jessup (Jr.),John E. Jessup,Robert W. Coakley,1979 This Guide to the Study and Use of Military History is designed to foster an appreciation of the value of military history and explain its uses and the resources available for its study It is not a work to be read and lightly tossed aside but one the career soldier should read again or use as a reference at those times during his career when necessity or leisure turns him to the contemplation of the military past **A Guide to the Study and Use of Military History** John E. Jessup,1979 **Key Themes of the Twentieth Century** Philip Sauvain,1996 Key History for GCSE offers a cost effective approach to resourcing the new GCSE syllabuses as one core book covers all the Modern World syllabus requirements The series is practical and flexible the core book is supplemented by topic books providing resurces for Modern World and Schools History project Depth Studies Teachers will enjoy a comprehensive support package Each Pupils Book is supported by a fully integrated Teacher s Resource Guide providing worksheets for mixed abilities homework resources and guidelines on assessment Suitable for all ability levels Extra help is given for lower ability pupils The series makes an ideal core resource for GCSE suitable for use either as a stand alone course or as a follow on to Key History for Key Stage 3 providing progression in learning style and presentation [Secret Service in the Cold War](#) John B. Sanderson,Myles Sanderson,2020-04-17 The action packed biography of a British intelligence officer who took part in major political events of the 20th Century before and during the Cold War World War II had been won but relationships between the Western Allies and the Soviet Union were weakening as the nuclear arms race made world peace precarious Britain needed to know the Soviets intentions and military capabilities A Secret Intelligence Service officer Lieutenant Colonel John Sanderson had the job of finding out This is his story Based on Sanderson s letters and personal accounts of his time with MI4 and MI6 this biography details his handling of secret agents behind the Iron Curtain at the height of the Cold War and organization of hidden arms depots He observed the Paris UNO Security Council in 1948 and recruited migr s for infiltration into Communist Bulgaria He also reported on the Communist show trials in Sofia in 1949 Twelve years later London tasked him to photograph the latest MIG fighter with the help of a CIA colleague His getaway wasn t easy Sanderson s early service life was equally challenging from defending Britain s coastline

these techniques allows the gpu accelerated parallel fdtd code to execute 20xfaster than basic serial fdtd code

2 d acoustic fdtd simulation demo for matlab github - Oct 06 2022

web 2 d acoustic fdtd simulation demo for matlab outline this is a truly physical simulation program of the sound wave propagation in a two dimensional field filled with fluid media surrounded by total reflecting walls this program solves the equations of the 2d acoustic fdtd finite difference time domain method

fdtd github topics github - Jan 09 2023

web jun 23 2022 fdtd star here are 17 public repositories matching this topic language matlab sort most stars ovcharenko waveprop in matlab star 72 code issues pull requests single file implementations of 2d and 3d acoustic and elastic wave propagation in time domain using finite differences fdtd simple formulation and implementation

1d finite difference time domain simulation fdtd with - Apr 12 2023

web oct 9 2015 1d finite difference time domain simulation fdtd with perfectly matched layer pml fdtd is illustrated with pml absorbing boundary condition at both ends of 1d space grid gaussian envelop modulated with sinusoidal signal is the source the units are in nm fs ev

finite difference time domain fdtd matlab codes for - Mar 11 2023

web a matlab based 1d fdtd simulation of plane wave propagation in time domain through single double or three layer media em parameters are supplied by the user 12

accelerating the fdtd algorithm on cpus with matlab s - Nov 07 2022

web abstract investigating the improvement of matlab based finite difference time domain fdtd simulations using central processing units cpus is the goal of this paper the matlab parallel toolbox along with modern multi core cpus are used with no external dependencies or libraries and no expensive or complicated hardware acceleration units

2211 05647 application of gpu accelerated fdtd method to - Dec 08 2022

web nov 10 2022 in this paper some techniques in using matlab parallel computing toolbox are studied to improve the performance of solving complex electromagnetic problems by the finite difference time domain fdtd method implementing these techniques allows the gpu accelerated parallel fdtd code to execute 20x faster than basic serial fdtd code

1d finite difference time domain using matlab empossible - Jan 29 2022

web this course is meant for the complete beginner create and implement your own finite difference time domain fdtd code to simulate and design your own electromagnetic and photonic devices course includes clear lectures stunning graphics and animations and even matlab coding sessions

rf fdtd simulation for beginners using matlab electrical - May 01 2022
