The Austro Marxists 1890 1918 A Psychobiographical Study:

The Austro-Marxists 1890-1918 Mark E. Blum, 2021-10-21 In the brilliant world of Vienna at the turn of the century four men Karl Renner Otto Bauer Max Adler and Friedrich Adler sought to develop political and economic resolutions to the racial and cultural tensions that were beginning to strain the bonds of the Austro Hungarian Empire In this highly original study of these Austro Marxists Mark E Blum uses the insights of depth psychology to trace the roots of their political philosophy in their family and social backgrounds The Austro Marxists 1890 1918 is the first book to offer a systematic examination of the thought and milieu of these four thinkers The only major work on the subject in English it is a significant contribution to the history of European socialism and in particular to the development of Marxist thought outside Russia

The Austro-Marxists 1890-1918. A psychobiographical study. [Mit Tab.] Mark E. Blum, 1985 **The Marxist Conception of the State** Max Adler, 2019-08-26 This translation of Max Adler s *Die Staatsauffassung des Marxismus* enables English readers to know a significant perspective on Marx s theory of the state which was central to the interwar period in which he was writing 1922 In an extended dialogue with democratic jurist Hans Kelsen Adler shows that the so called necessity of law as the neutral arbiter of a democratic society has been heretofore a flawed imposition of the authoritative understandings of the ruling classes Adler s brings to his argument the Kantian concept of sociation where every human judgment perforce sets its determinations within its view of the social whole demonstrating that an accurate comprehension of interdependent equality that realizes an objective sociation can only occur in a classless society

Nationalism and the International Labor Movement Michael Forman, 2007-06-05 The resurgence of nationalism accompanying the decline of Communism has been taken to indicate the failure of socialist theory to grasp the nature of this phenomenon Against both those who argue that the radical tradition has ignored and underestimated nationalism and those who accuse it of economic reductionism this careful analysis of the idea of the nation as it was developed in the work of the major thinkers of the international labor movement reveals evidence of how seriously they grappled with nationalism Each of the main sections of the book focuses on the most influential theorists of the international labor movement as it became organized and grew Bakunin Marx and Engels and the concern of the First International 1864 Lenin Luxemburg and Bauer and the preoccupation of the Second International 1889 1914 with socialism in ethnically plural societies Stalin and Gramsci in relation to the substitution by the Third International 1919 1943 of nation building and national liberation for the old class project In the conclusion the author examines the relationships among ethnic and civic nationality national self determination republican institutions and the process of globalization from the perspective of the post Soviet era and in the light of social theory and Kant s ideas about cosmopolitan right The Architecture of Red Vienna, 1919-1934 Eve Blau, 1999 Encyclopedic in its coverage this seminal work focuses on the architecture of Prague from the turn of the century to the end of the Second World War a rich matrix within which to place the figures who created the powerful innovative spirits of

modern Czech architecture The book documents the architects structures and theoretical underpinnings that helped to shape Prague s cultural heritage and present day artistic spirit **Modern Austria** Barbara Jelavich,1987-09-25 An overview of the Austria s recent history written for the general reader and the student Rudolf Hilferding Judith Dellheim,Frieder Otto Wolf,2022-12-07 This revised and expanded book focuses on Hilferding s major work *Finance Capital* In revisiting this influential book from a methodological point of view both historical and intellectual the authors affirm Hilferding s place in the Marxist tradition Hilferding s ideas are used to criticise incumbent approaches in economics and enrich existing discussions and debates about the nature of modern capitalism In doing so this book highlights the importance of Hilferding s work in analysing and understanding modern capitalism and corporate developments New material looking at Hilferding s economic journalism debates around his work in Poland and Eugene Varga s perspective on his work is also included The book aims to explore Hilferding s central ideas on the political economy as well as its historical context and relation to Marx It will be relevant to students and researchers interested in the political economy the history of economic thought and European politics Austro-Marxism: The Ideology of Unity Mark E. Blum,William T. Smaldone,2015-09-29 This volume offers the essential theoretical thought of the Austro Marxist thinkers Otto Bauer Max Adler Karl Renner Friedrich Adler Rudolf Hilferding and Otto Neurath over the span of their Austrian Social Democratic careers from the decades before World War I until the mid 1930s Austro Marxist theoretical perspectives were conceived as social scientific tools for the issues that faced the development of socialism in their time The relevance of their thought for the contemporary world inheres in this understanding *Confronting Hitler* William Smaldone,2010-02-03 The stories of the individual men and women who led German Social Democracy s failed efforts to fend off the Nazi onslaught in 1933 have largely been lost in the wake of the cataclysmic war the Holocaust and the division of Europe that followed Hitler s victory *Confronting Hitler* recovers their stories and places them at center stage In a series of biographical essays focusing on the experiences of ten leading Social Democratic activists Smaldone examines their defeat in 1933 from the perspective of individuals enmeshed in political struggle This study reveals what aspects of these activists lives were most important in shaping their political outlook during the republic s final crisis and it illustrates the key factors that guided their actions in the effort to keep the republic alive In addition the biographies raise the important issue of the degree to which the defeat of German Social Democracy in 1933 is comparable to the experiences of other democratic socialist movements in the twentieth century *Seedtime for Fascism* George V. Strong,2016-09-16 This study examines the political culture in Austria Hungary in the latter half of the 19th century It analyzes the centrifugal forces that arose from growing ethnic nationalism in the empire and that ultimately overpowered the centripetal forces which held the Austrian Hungarian state idea together The analysis is applied further to provide an historical explanation of analogous developments in post 1989 Europe Austro-Marxism: The Ideology of Unity. Volume II Mark E. Blum,William T. Smaldone,2020-02-25 During the first half of the twentieth century Austrian socialist

thinkers such as Otto Bauer Rudolf Hilferding Karl Renner and Max Adler emerged from and helped transform Austrian Social Democracy into one of Europe's best organized and most effective political and social movements Equipped with extensive introductions that outline the intellectual and political background within which the Austro Marxists worked these volumes represent the most thorough effort to date to provide a representative sampling in English of the Austro Marxists' key theoretical ideas and their approaches to political action Drawing on their writings from the early twentieth century until the collapse of Austrian Socialism in the 1930s these volumes illustrate the conceptual richness of Austro Marxist thought and the enduring challenge that socialists faced then and now in the realization of their hopes
