The Autocritique Of Enlightenment Rousseau And The Philosophies:

The Autocritique of Enlightenment Mark Hulliung, 2014-07-10 Of all the critiques of the Enlightenment the most telling may be found in the life and writings of Jean Jacques Rousseau This searching long overlooked autocritique receives its first full treatment by Mark Hulliung Here he restores Rousseau to his historical context the world of the philosophes and shows how he employed the arsenal of Voltaire Diderot and others to launch a powerful attack on their version of the Enlightenment With great intellectual skill and rhetorical force Rousseau exposed the inconsistencies and shortcomings of the Enlightenment the psychology of Locke the genre of philosophical and conjectural history the latest applications of science to the study of society and politics and the growing interest in materialist modes of thought As the century moved on Hulliung shows the most advanced philosophes found themselves drawn to conclusions that paralleled Rousseau s an agreement that went unacknowledged at the time The Enlightenment that emerges here is richer more nuanced and more self critical than the one reflected in many interpretations By extracting Rousseau from personal entangle ments that stymied debate in his time and that mislead critics to this day Hulliung reveals the remarkable and remarkably unacknowledged force of Rousseau s accomplishment This edition includes a brilliant new introduction by the author *Autocritique of Enlightenment:*

Rousseau & the Philosophers Mark Hulliung, 1994 **The Political Philosophy of Jean-Jacques Rousseau** Matt Qvortrup, 2013-07-19 This electronic version has been made available under a Creative Commons BY NC ND open access license This exciting new text presents the first overview of Jean Jacques Rousseau s work from a political science perspective Was Rousseau the great theorist of the French Revolution really a conservative This original study argues that the he was a constitutionalist much closer to Madison Montesquieu and Locke than to revolutionaries Outlining his profound opposition to Godless materialism and revolutionary change this book finds parallels between Rousseau and Burke as well as showing how Rousseau developed the first modern theory of nationalism The book presents an integrated political analysis of Rousseau s educational ethical religious and political writings and will be essential reading for students of politics philosophy and the history of ideas *Educational Philosophy in the French Enlightenment* Natasha Gill, 2016-04-29 Though Emile is still considered the central pedagogical text of the French Enlightenment a myriad of lesser known thinkers paved the way for Rousseau s masterpiece Natasha Gill traces the arc of these thinkers as they sought to reveal the correlation between early childhood experiences and the success or failure of social and political relations and set the terms for the modern debate about the influence of nature and nurture in individual growth and collective life Gill offers a comprehensive analysis of the rich cross fertilization between educational and philosophical thought in the French Enlightenment She begins by showing how in *Some Thoughts Concerning Education* John Locke set the stage for the French debate by transposing key themes from his philosophy into an educational context Her treatment of the abb Claude Fleury the rector of the University of Paris Charles Rollin and Swiss educator Jean Pierre de Crousaz illustrates the extent to which early Enlightenment

theorists reevaluated childhood and learning methods on the basis of sensationist psychology Etienne Gabriel Morelly usually studied as a marginal thinker in the history of utopian thought is here revealed as the most important precursor to Rousseau and the first theorist to claim education as the vehicle through which individual liberation social harmony and political unity could be achieved Gill concludes with an analysis of the educational philosophical dispute between Helvetius and Rousseau and traces the influence of pedagogical theory on the political debate surrounding the expulsion of the Jesuits in 1762

Robert Spaemann's Philosophy of the Human Person Holger Zaborowski, 2010-02-04 An analysis of the most important features of Robert Spaemann's philosophy Holger Zaborowski demonstrates the importance of Spaemann's contribution to a number of contemporary debates in philosophy and theology and explains the unity of his thought

Redeeming the Enlightenment Bruce Ward, 2010-02-15 As we move further away from the historical period known as the Enlightenment it seems the debate about its impact becomes increasingly polarized Arguments focus on either rejecting or claiming its legacy In this book Bruce Ward contends that the concern should be neither to reject or claim but to see how it can be redeemed Ward sets up a three sided dialogic encounter among primary thinkers and critics of modernity philosophical theological and literary using Rousseau Nietzsche and Dostoevsky to focus the discussion Ward does not neglect other significant thinkers notably Kant Heidegger Tolstoy Charles Taylor Locke Kafka Ren Girard and Martha Nussbaum but uses them to illumine the questions at issue among the primary three Though each chapter of this book can be treated as a relatively independent reflection the book as a whole offers innovative redemption of the Enlightenment values of equality authenticity tolerance and compassion Fiction and the Philosophy of Happiness Brian Michael

Norton, 2012-09-28 Fiction and the Philosophy of Happiness explores the novel's participation in eighteenth century inquiries after happiness an ancient ethical project that acquired new urgency with the rise of subjective models of wellbeing in early modern and Enlightenment Europe Combining archival research on treatises on happiness with illuminating readings of Samuel Johnson Laurence Sterne Denis Diderot Jean Jacques Rousseau William Godwin and Mary Hays Brian Michael Norton's innovative study asks us to see the novel itself as a key instrument of Enlightenment ethics His central argument is that the novel form provided a uniquely valuable tool for thinking about the nature and challenges of modern happiness whereas treatises sought to theorize the conditions that made happiness possible in general eighteenth century fiction excelled at interrogating the problem on the level of the particular in the details of a single individual's psychology and unique circumstances Fiction and the Philosophy of Happiness demonstrates further that through their fine tuned attention to subjectivity and social context these writers called into question some cherished and time honored assumptions about the good life happiness is in one's power virtue is the exclusive path to happiness only vice can make us miserable This elegant and richly interdisciplinary book offers a new understanding of the cultural work the eighteenth century novel performed as well as an original interpretation of the Enlightenment's ethical legacy The Enlightenment Paul Hyland, Olga

Gomez, Francesca Greensides, 2003 This outstanding sourcebook brings together the work of major Enlightenment thinkers to illustrate the full importance and achievements of this great period of change

The Progressive Poetics of Confusion in the French Enlightenment John C. O'Neal, 2011-03-14 In *The Progressive Poetics of Confusion in the French Enlightenment* John C O Neal draws largely on the etymological meaning of the word confusion as the action of mixing or blending in order to trace the development of this project which he claims aimed to reject dogmatic thinking in all of its forms and recognized the need to embrace complexity Eighteenth century thinkers used the notion of confusion in a progressive way to reorganize social classes literary forms metaphysical substances scientific methods and cultural categories such as taste and gender In this new work O Neal explores some of the paradoxes of the Enlightenment's theories of knowledge Each of the chapters in this book attempts to address the questions raised by the eighteenth century's particular approach to confusion as a paradoxical reorganizing principle for the period's progressive agenda Perhaps the most paradoxical thinker of his times Diderot occupies a central place in this study of confusion Other authors include Marivaux Crillon Voltaire and Pinel among others Rousseau and Sade serve as counterexamples to this kind of enlightenment but ultimately do not so much oppose the period's poetics of confusion as they complement it The final chapter on Sade combines contemporary discussions of politics society culture philosophy and science in an encyclopedic way that at once reflects the entire period's tendencies and establishes important differences between Sade's thinking and that of the mainstream philosophies Ultimately confusion serves O Neal argues as an overarching positive notion for the Enlightenment and its progressive ideals

The Autocritique of Enlightenment Mark Hulliung, 1994 This text provides an analysis of the life and works of Jean Jacques Rousseau an area often overlooked in accounts of 18th century heritage Mark Hulliung restores Rousseau to his historical context the world of the philosophes and shows how he employed the arsenal of Voltaire Diderot and others to launch a powerful attack on their vision of the Enlightenment

[A History of Modern Political Thought](#) Gary Browning, 2016-10-13 How are we to understand past political thinkers Is it a matter simply of reading their texts again and again Do we have to relate past texts of political thought to the contexts in which ideas were composed and in which the aims of past thinkers were formulated Or should past political theories be deconstructed so as to uncover not what their authors maintain but what the texts reveal In this book theories of interpreting past political thinkers are examined and the interpretive methods of a range of theories are reviewed including those of Hegel Marx Oakeshott Collingwood the Cambridge School Foucault Derrida and Gadamer The application of these theories of interpretation to notable modern political theorists Machiavelli Hobbes Locke Rousseau Kant Hegel Marx Bentham Mill Nietzsche and Beauvoir is then used as a way of understanding modern political thought and of assessing interpretive theories of past political thought The result is a book which sees the history of modern political thought as more than a procession of political theories but rather as a reflection on the meaning of past political thought and its interpretation It provides a way of reading

the history of modern political thought in which the question of interpretation matters both for understanding how we interpret the past but also for considering what it means to undertake political thinking

Theology and the Enlightenment Paul Avis, 2022-11-17 Challenging the common assumption that the Enlightenment of the late seventeenth and the eighteenth centuries was an essentially secular irreligious and atheistic movement this book critiques this standard interpretation as based on a narrow view of Enlightenment sources Building on the work of revisionist historians this volume takes the argument squarely into the theological domain whether Anglican Dissenting Lutheran or deistic whilst also noting that the Enlightenment deeply affected Roman Catholic and Jewish theologies It challenges the stereotype of Enlightenment rationalism and the penultimate chapter brings out the biblical and ecclesial roots of the image of enlightenment and reclaims it for Christian faith

Experience Embodied Anik Waldow, 2020 By investigating conceptions of experience from Descartes to Kant this book shows that one of the central questions of the early modern period was how humans can instantiate in their actions the principles of rational moral agency while at the same time responding with their bodies to the causal play of nature Through the analysis of this question the book draws attention to the bodily underpinnings of the ability to experience thoughts and feelings It thus challenges overly subjectivist interpretations that concentrate on the inner realm of the experiencing mind and because of this fail to account for the worldly dimension of being experientially responsive to the affections of the body

Cooper, 2024-05-31 Secularism is usually thought to contain the project of self deification in which humans attack God's authority in order to take his place freed from all constraints Julie E Cooper overturns this conception through an incisive analysis of the early modern justifications for secular politics While she agrees that secularism is a means of empowerment she argues that we have misunderstood the sources of secular empowerment and the kinds of strength to which it aspires Contemporary understandings of secularism Cooper contends have been shaped by a limited understanding of it as a shift from vulnerability to power But the works of the foundational thinkers of secularism tell a different story Analyzing the writings of Hobbes Spinoza and Rousseau at the moment of secularity's inception she shows that all three understood that acknowledging one's limitations was a condition of successful self rule And while all three invited humans to collectively build and sustain a political world their invitations did not amount to self deification Cooper establishes that secular politics as originally conceived does not require a choice between power and vulnerability Rather it challenges us today as then to reconcile them both as essential components of our humanity *Events That Formed the Modern World* Frank W.
