Spiritual Awakening Deborah Trent, 2021-04-30

The first modern and comprehensive resource on spiritual awakenings this clear and pragmatic guide covers everything from the first step of a spiritual journey to enlightenment and the different types of spiritual awakenings from mild to dramatic we can go through Below is a dialogue with a Nirankari I asked him what he understood about Nirakaar He said they took the five elements as destructible and therefore did not love them They worshiped the Formless Nirakaar I asked him what he meant by Nirakaar He pointed to the space between his hands This is Nirakaar I asked him what he meant by Sargun He said that all the things done by the five material elements were Sargun I asked him what the five elements meant He said that water earth air fire and sky are the five elements I said The earth element is understandable We walk on it The element of fire is also understandable We illuminate it The element of water is also understandable We use it for drinking etc Likewise the air element is also understandable We breathe it But tell me about the sky element Your answer was a laugh He said that the word itself is heaven I said that what he sees between his two hands is the element of heaven What is the word Two things are involved in our act of speaking These are air and earth When you close your teeth and fists you will hear the echo like sound It means that the musical sounds emanate because of the contraction of the nerves This is so to speak the process related to the movement of our body Nirankari has never described these sounds as God These are unreal imaginary and misleading I told the colleague that taking the sky element as a word was wrong Since heaven is the fifth element it means that you are worshipping the fifth element Those who indulge in the worship of outer objects are taking their own way of worshipping in relation to spiritualism So to speak idol worshipers as well as formless Nirakaar worshipers are calling their respective modes of worship as spiritual ones But these are certainly not related to spiritualism in any way What does our soul look like What activities does it do does it perform What is its

relationship with the body At what point has it connected to the mind How it started to take same as the body How can get rid of the body like as well as the mind Knowledge of all this is called how spiritualism Instructions on how to navigate through each of these layers and how to recognize where we are on our spiritual journey are included with every step of the way along with the common physical emotional and spiritual symptoms that can be experienced Coping with post awakening states unity dark nights of the soul ego death near death and severe illness psychic abilities addictions dietary changes the divine self personal and collective shadow and psychosis against the awakening we understand the experiences we can go through as we struggle with spiritual awakenings This hands on book opens up new insights into how to live in the world through the sky and focus while going through an awakening process to have a physical body with physical sensory and emotional experiences We must live in the world and also be a part of it as fully awakened people This guide offers a look at the possibility of leading a life of work family friends and other grounded and earthbound experiences in an awakened state
