lockdowns and an economic downturn convulsed America police shootings of George Floyd and other African Americans touched off the largest protest movement in U S history At the same time mass shootings soared many states saw unprecedented increases in gun related incidents Churning in the background were a bitter presidential election campaign and counterprotests opposing public health measures and the election result itself Mayors of cities big and small struggled with some of these challenges but Dennis McBride the new mayor of a mid sized mostly White suburb bordered by the majority minority City of Milwaukee called the heartland of the heartland faced them all His city a microcosm of a troubled America teetered on the verge of anarchy while playing a crucial role in the presidential election A City on the Edge is the gripping story of how he and other mayors have steered America s hometowns through a storm of personal and political divisions Though the chaos of 2020 has gradually subsided it is still reverberating in the nation s economy politics and psyche The changes sparked by the events of that historic year continue to vex mayors and their communities Americans and their leaders are searching for a new equilibrium That balance will be found first in our hometowns A City on the Edge offers a path forward

design and development process **Cinematic Imaginaries of the African City** Danai S. Mupotsa, Polo B. Moji, Natasha Himmelman, 2023-08-30 This volume addresses questions at the intersections of cinematic form and the African city. It examines the contribution of cinema and audiovisual media to our understanding and experience of contemporary cities from an African perspective. Reading the African city as form, this volume problematizes the circulation of terms such as Afropolitanism, Afro polis, Afro modernity and Afro urbanity which often define the kinds of sentiments invested in or associated with the African city. Situated within an interdisciplinary matrix that reads the urban African cinematic form through affect theory and the city as a matrix of feeling, critical black geography and the racialized construction of city spaces, the urban as a temporal consciousness and representations of social inequalities and urban geographies of exclusion, this edited volume frames the city and screenscapes as co constitutive, foregrounding the diegetic and extra diegetic elements that inform the African urban. Chapters engage thematic areas such as aesthetics and African cinematic urban form, visuality and the infrastructures of the African city, audiovisual narratives, social inequality and urban geographies of exclusion. *Cinematic Imaginaries of the African City* is a significant new contribution to African Studies and will be a great resource for academics, researchers and advanced students of African Studies, Media and Cultural Studies, Visual Studies and Sociology. The chapters included in this book were originally published as a special issue of *Social Dynamics: A Journal of African Studies*.

Rather than merely posing questions and providing answers, you'll get details behind each story that bring to life the history of the Kansas City Royals. Also, you'll learn more about the great players and names in Royals history, both past and present, from George Brett to Eric Hosmer, Amos Otis and Willie Wilson to Lorenzo Cain, Dan Quisenberry, Jeff Montgomery, Frank White, Mike Sweeney, Mike Moustakas, Bret Saberhagen, Paul Splittorff, Dennis Leonard, Whitey Herzog, Dick Howser, Ned Yost, Denny Matthews, Alex Gordon, and so many more, even Bo Jackson, of course. The many questions this book answers include: Who was the first player inducted into the National Baseball Hall of Fame with the Royals listed on his plaque? What special first in World Series history was the 2015 match up between the Mets and Royals? Which two Royals players worked on crews that helped build Royals Stadium? Who
