name the symposium in his memory and devote an introductory paper to an attempt at an intellectual portrait of George Lichtheim as an historian of ideas The volume as published includes all papers delivered at the symposium with the exception of the papers of J L Talmon Jerusalem on Marxism and Nationalism and Gajo Petrovic Zagreb on Yugoslav Marxism Appended is also a short obituary written by me on Lichtheim for the journal Political Science published by the American Political Science Association      **Applied Measures for Promoting Technological Growth** Stanley A. Hetzler, 2025-11-21

**Applied Measures for Promoting Technological Growth** 1973 provides a comprehensive treatment of the whole range of developmental problems facing the technologically backward society and suggests clear cut approaches to the solution of these difficulties The author deals in detail with the areas of industrial development agricultural development the raising of finance and with methods for organising and staffing the national planning facilities required for effective development planning      **Proceedings, American Philosophical Society (vol. 106, no. 2, 1962)** ,      *Human Factors of a Global*

Contemporary HF is clearly shifting towards addressing the human centered design paradigm for much larger and complex societal systems the effectiveness of which is affected by recent advances in engineering science      **The Dance of Society**

William B. De Garmo, 1884      **The Dance of Society** Wm. B. De Garmo, 2023-11-18 Reprint of the original first published in 1875      **War and Change in World Politics** Robert Gilpin, 1981-10-30 War and Change in World Politics introduces the

reader to an important new theory of international political change Arguing that the fundamental nature of international relations has not changed over the millennia Professor Gilpin uses history sociology and economic theory to identify the forces causing change in the world order The discussion focuses on the differential growth of power in the international system and the result of this unevenness A shift in the balance of power economic or military weakens the foundations of the existing system because those gaining power see the increasing benefits and the decreasing cost of changing the system The result maintains Gilpin is that actors seek to alter the system through territorial political or economic expansion until the marginal costs of continuing change are greater than the marginal benefits When states develop the power to change the system according to their interests they will strive to do so either by increasing economic efficiency and maximizing mutual gain or by redistributing wealth and power in their own favour      The Equal Society George Hull, 2015-12-24 Equality is a

widely championed social ideal But what is equality And what action is required if present day societies are to root out their inequalities The Equal Society collects fourteen philosophical essays each with a fresh perspective on these questions The authors explore the demands of egalitarian justice addressing issues of distribution and rectification but equally investigating what it means for people to be equals as producers and communicators of knowledge or as members of subcultures and considering what it would take for a society to achieve gender and racial equality The essays collected here address not just

the theory but also the practice of equality arguing for concrete changes in institutions such as higher education the business corporation and national constitutions to bring about a more equal society The Equal Society offers original approaches to themes prominent in current social and political philosophy including relational equality epistemic injustice the capabilities approach African ethics gender equality and the philosophy of race It includes new work by respected social and political philosophers     Proceedings of the Engineers' Society of Western Pennsylvania Engineers' Society of Western
