The Vulnerable Empowered Woman Tasha N. Dubriwny, 2012-11-14 The feminist women's health movement of the 1960s and 1970s is credited with creating significant changes in the healthcare industry and bringing women's health issues to public attention Decades later women's health

issues are more visible than ever before but that visibility is made possible by a process of depoliticization The Vulnerable Empowered Woman assesses the state of women s healthcare today by analyzing popular media representations television print newspapers websites advertisements blogs and memoirs in order to understand the ways in which breast cancer postpartum depression and cervical cancer are discussed in American public life From narratives about prophylactic mastectomies to young girls receiving a vaccine for sexually transmitted disease the representations of women s health today form a single restrictive identity the vulnerable empowered woman This identity defuses feminist notions of collective empowerment and social change by drawing from both postfeminist and neoliberal ideologies The woman is vulnerable because of her very femininity and is empowered not to change the world but to choose from among a limited set of medical treatments The media s depiction of the vulnerable empowered woman s relationship with biomedicine promotes traditional gender roles and affirms women s unquestioning reliance on medical science for empowerment The book concludes with a call to repoliticize women s health through narratives that can help us imagine women and their relationship to medicine differently

mortality rates and cognitive decline Older adults with depression have 50 percent higher health care costs yet depression is accurately recognized in less than one half of older adults in primary care While older men are more likely to die by suicide older women are two to three times more likely to attempt suicide and depression is the best predictor of suicide in older adults Latina and African American women have lower rates of depression treatment compared to non minority women From issues of health care access to the stigma of depression older Latinas and African American women are at an increased risk for untreated depression This book seeks to address some of the significant gaps in our knowledge of late life depression in women especially in ethnic minorities ranging from detection and efficacy of depression treatment to informal influences e g family on formal depression care seeking *Feminist Narrative Research* Jo Woodiwiss, Kate Smith, Kelly

Modernism, Feminism and the Culture of Boredom Allison Pease, 2012-08-27 Bored women populate many of the most celebrated works of British modernist literature Whether in popular offerings such as Robert Hitchens s *The Garden of Allah* the esteemed middlebrow novels of May Sinclair or H G Wells or now canonized works such as Virginia Woolf s *The Voyage Out* women s boredom frequently serves as narrative impetus antagonist and climax In this book Allison Pease explains how the changing meaning of boredom reshapes our understanding of modernist narrative techniques feminism s struggle to define women as individuals and male modernists preoccupation with female sexuality To this end Pease characterizes boredom as an important category of critique against the constraints of women s lives arguing that such critique surfaces in modernist fiction in an undeniably gendered way Engaging with a wide variety of well and lesser known modernist writers Pease s study will appeal especially to researchers and graduates in modernist studies and British literature *The SAGE*
