Newberg, 2020-02-03 This book codifies describes and contextualizes group rituals and individual practices from world religious traditions At the interface of religious studies psychology and medicine it elucidates the cultural richness of practices and rituals from numerous world religions The book begins by discussing the role that religious rituals and practices may play in the well being of humans and the multi dimensional cultural and psychological complexity of religious rituals and practices It then discusses rituals and practices within a number of religions including Christian Islamic Jewish Buddhist Taoist Sikh Hindu Confucian and other traditions

There is a need for a more inclusive collection of religious rituals and practices as some practices are making headlines in contemporary society Mindfulness is one of the fastest growing psychological interventions in healthcare and Yoga is now practiced by tens of millions of people in the U S A These practices have been examined in thousands of academic publications spanning neuroscience psychology medicine sociology and religious studies While Mindfulness and Yoga have recently received widespread scientific and cultural attention many rituals and practices from world religious traditions have remained underexplored in scholarly scientific and clinical contexts This book brings more diverse rituals and practices into this academic discourse while providing a reference guide for clinicians and students of the topic

Conflict and the Practice of the Christian Faith Bruce N Kaye, 2011-07-28 Anglicans around the world have responded to the gospel in many different cultural contexts This has produced different customs and different ways of thinking about church issues In the process of enculturation Anglicans have found themselves encountering social and political realities as malign forces against which they have had to struggle As a consequence the personal and local dynamic in Anglicanism has created not just diversity of custom and mental habits but it has done so at points that have been vital to the way Anglicans have been committed to the gospel Conflict and the Practice of Christian Faith looks at the process by which local traditions developed in Christianity and how these traditions have related to other sub traditions of the universal church It assesses some specifics of the Anglican experience and argues for a significant re casting of some prominent elements of that tradition at the same time clarifying some of the distinctive elements in the Anglican tradition This leads to a more nuanced appreciation of the force of the social and political framework within which Anglicans have had to work out their salvation and of the different forms of secular society and different understandings of plurality and diversity It also entails showing how the imperial route to catholicity took no firm root in Anglicanism Going global has been a significant experiment in Anglican ecclesiology that is by no means over yet The terms of that experiment lie at the heart of the current Anglican debates The book will be of interest to Christians generally who belong to faith traditions spread across different cultures It is also a case study of the issues of global reach and local tradition

Leading the Congregation Norman Shawchuck, Roger Heuser, 2010-10-01 Leading the Congregation is a complete and definitive guide to the practice of church leadership The book describes essential paradigms for the leader that integrate spiritual integrity and service within a systems view of the congregation and its ministry This revised and updated version focuses on the challenges of congregational leadership in a culture that has fewer ties to Christian faith The authors lay out the dual contexts in which church leaders must function within the congregation and as the congregation's representative to the community and they explain the very different skill sets required to flourish in each Underlying the revised edition is an insistence on the congregational leader's call from God and cultivation of her or his relationship with God Leadership is not the same thing as charisma they explain it is rather a set of attitudes and practices that each of us can and must master if we are to be worthy servants of Christ
