Sir Samuel Morland Diplomat Inventor:

Sir Samuel Morland: Diplomat and Inventor, 1625-1695 Henry Winram Dickinson, 1970-01-01 *The Orders of Knighthood and the Formation of the British Honours System, 1660-1760* Antti Matikkala, 2008 Sheds considerable new light on the nature development and functions of the orders in a key phase of their history and goes a long way to explaining how such archaic institutions could flourish in a culture that is commonly thought anti traditional and especially hostile to the middle ages Professor JONATHAN BOULTON University of Notre Dame This is the first comprehensive study to set the British orders of knighthood properly into the context of the honours system by analysing their political social and cultural functions from the Restoration of the monarchy to the end of George II s reign It examines the revival of the Order of the Garter and the proposals to establish the Orders of the Royal Oak and the Esquires of the Martyred King at the Restoration the foundation 1687 and the revival 1703 4 of the Order of the Thistle as well as the foundation of the Order of the Bath 1725 It establishes just how central a part the orders played in the British high political life and its comprehensive and multidimensional approach carefully contrasts the idealistic discourse of virtue and honour to the real workings of the honours system it also makes the case for the Chivalric Enlightenment The orders over the water the Garter and the Thistle conferred by the Jacobite claimants are discussed for the first time in the context of the established British honours system Overall the comparison between the socially very restricted British and the increasingly meritocratic Continental orders highlights the isolation of the British honours system from the European tendencies **Intelligence and Espionage in the Reign of Charles II, 1660-1685** Alan Marshall, 2003-11-13 A balanced portrait of the dark byways of Restoration politics

influenced by some of the most significant developments in early modernity such as the Christian humanist recovery of ancient religion confessional polemics Deist and libertine challenges to religion antiquarianism and early archaeology Romantic historiography and spiritualism Ossa Richardson examines the different views of the oracles since the Renaissance that they were the work of the devil or natural causes or the fraud of priests or finally an organic element of ancient Greek society The range of discussion on the subject as he demonstrates is considerably more complex than has been realized before hundreds of scholars theologians and critics commented on the oracles drawing on a huge variety of intellectual contexts to frame their beliefs In a central chapter Ossa Richardson interrogates the landmark dispute on the oracles between Bernard de Fontenelle and Jean Fran ois Baltus challenging Whiggish assumptions about the mechanics of debate on the cusp of the Enlightenment With erudition and an eye for detail he argues that on both sides of the controversy to speak of the ancient oracles in early modernity was to speak of one s own historical identity as a Christian
