Rappoport,2023 *Imagining Women's Property in Victorian Fiction* reframes how we think about Victorian women's changing economic rights and their representation in nineteenth century novels The reform of married women's property law between 1856 and 1882 constituted one of the largest economic transformations England had ever seen as well as one of its most significant challenges to family traditions By the end of this period women who had once lost their common law property rights to their husbands reclaimed their own assets regained economic agency and forever altered the legal and theoretical nature of wedlock by doing so Yet in literary accounts reforms were neither as decisive as the law implied nor limited to marriage Legal rights frequently clashed with other family claims and the reallocation of wealth affected far more than spouses or the marital state Competition between wives and children is just one of many ways in which Victorian fiction suggests the perceived benefits and threats of property reform In nineteenth century fiction portrayals of women's claims to ownership provide insight into the social networks forged through property transactions and also offer a lens to examine a wide range of other social matters including testamentary practices wills and copyright law economic and evolutionary models of mutuality the twin dangers of greed and generosity inheritance and custody rights the economic ramifications of loyalty and family obligation and the legacy of nineteenth century economic practices for women today Understanding the reform of married women's property as both an ideologically and materially substantial redistribution of the nation's wealth as well as one complicated by competing cultural traditions this book explores the widespread ways in which women's financial agency was imagined by fiction that engages with but also diverges from the law in accounts of economic choices and transactions Repeatedly narratives by Austen Dickens Gaskell Trollope Eliot and Oliphant suggest both that the law is inadequate to account for the way that property enables and disrupts relationships and that the form of the Victorian novel in its ability to track intimate and intricate exchanges across generations is better suited to such tasks *The Sexual Politics of Meat - 25th Anniversary Edition* Carol J. Alessandra Cecchi is not quite fifteen when her father, a prosperous cloth merchant, brings a young painter back from northern Europe to decorate the chapel walls in the family's Florence palazzo. A child of the Renaissance with a precocious mind and a talent for drawing, Alessandra is intoxicated by the artist's abilities. But Alessandra's parents have made plans for their daughter, and she is soon married off to a wealthy, much older man. Meanwhile, the reign of the Medicis, with their love of luxury, learning, and dazzling art, is being threatened by the hellfire preaching and increasing brutality of the fundamentalist monk Savonarola and his reactionary followers. As the city shudders with violence and change, Alessandra must find her own way and finally explore the passions she's kept so long at bay. Simply amazing, so brilliantly written, almost intolerably exciting at times and at others equally poignant.
