Mother Emanuel Kevin Sack, 2025-06-03 A sweeping history of one of the nation's most important African American churches and a profound story of courage and grace amid the fight for racial justice Few people beyond South Carolina's Lowcountry knew of Emanuel African Methodist Episcopal Church in Charleston Mother Emanuel before the night of June 17 2015 when a twenty one year old white supremacist walked into Bible study and slaughtered the church's charismatic pastor and eight worshippers Although the shooter had targeted Mother Emanuel the first AME church in the South to agitate racial strife he could not have anticipated the aftermath an outpouring of forgiveness from victims families and a reckoning with the divisions of caste that have afflicted Charleston and the South since the earliest days of European settlement In Mother Emanuel Pulitzer Prize winning journalist Kevin Sack explores the inspiring history that brought the church to that moment and the depth of the desecration committed in its fellowship hall It reveals how African Methodism was cultivated from the harshest American soil and how Black suffering shaped forgiveness into both a religious practice and a survival tool Sack

who has written about race in his native South for more than four decades uses the church's history to trace the long arc of Black life in the city where nearly half of enslaved Africans disembarked in North America and where the Civil War began. Through the microcosm of one congregation he explores the development of a unique practice of Christianity from its daring breakaway from white churches in 1817 through the traumas of the Civil War and Reconstruction to its critical role in the Civil Rights Movement and beyond. At its core *Mother Emanuel* is an epic account of perseverance not just of a congregation but of a people who withstood enslavement, Jim Crow, and all manner of violence with an unbending faith. Low Country Gullah Culture, Special Resource Study, 2003. *Freedoms Gained and Lost* Adam H. Domby, Simon Lewis, 2021-12-07

Reconstruction is one of the most complex, overlooked, and misunderstood periods of American history. The thirteen essays in this volume address the multiple struggles to make good on President Abraham Lincoln's promise of a new birth of freedom in the years following the Civil War, as well as the counter efforts, including historiographical ones, to undermine those struggles. The forms these struggles took varied enormously, extended geographically beyond the former Confederacy, influenced political and racial thought internationally, and remain open to contestation even today. The fight to establish and maintain meaningful freedoms for America's Black population led to the apparently concrete and permanent legal form of the three key Reconstruction Amendments to the U.S. Constitution, as well as the revised state constitutions; but almost all of the latter were overturned by the end of the century, and even the former are not necessarily out of jeopardy. And it was not just the formerly enslaved who were gaining and losing freedoms. Struggles over freedom, citizenship, and rights can be seen in a variety of venues. At times, gaining one freedom might endanger another. How we remember Reconstruction and what we do with that memory continues to influence politics, especially the politics of race in the contemporary United States. Offering analysis of educational and professional expansion, legal history, armed resistance, the fate of Black soldiers, international diplomacy post 1865, and much more, the essays collected here draw attention to some of the vital achievements of the Reconstruction period while reminding us that freedoms can be won but they can also be lost. The story of Nicholas Kelly, an enslaved man who gave his life for liberty, leading the Charleston workhouse slave rebellion. *Race and Nation in the Age of Emancipations* Whitney Nell Stewart, John Garrison Marks, 2018-04-15

Over the long nineteenth century, African-descended peoples used the uncertainties and possibilities of emancipation to stake claims to freedom, equality, and citizenship. In the process, people of color transformed the contours of communities, nations, and the Atlantic World. Although emancipation was an Atlantic event, it has been studied most often in geographically isolated ways. The justification for such local investigations rests in the notion that imperial and national contexts are essential to understanding slaving regimes. Just as the experience of slavery differed throughout the Atlantic World, so too did the experience of emancipation, as enslaved people's paths to freedom varied depending on time and place. With the essays in this volume, historians contend that emancipation was not something that

simply happened to enslaved peoples but rather something in which they actively participated. By viewing local experiences through an Atlantic framework the contributors reveal how emancipation was both a shared experience across national lines and one shaped by the particularities of a specific nation. Their examination uncovers in detail the various techniques employed by people of African descent across the Atlantic World allowing a broader picture of their paths to freedom.

Charleston Syllabus Chad Williams, Kidada Williams, Keisha Blain, 2016-05-01. On June 17, 2015, a white supremacist entered Emanuel AME Church in Charleston, South Carolina, and sat with some of its parishioners during a Wednesday night Bible study session. An hour later he began expressing his hatred for African Americans and soon after he shot nine church members dead: the church's pastor and South Carolina state senator Rev. Clementa C. Pinckney among them. The ensuing manhunt for the shooter and investigation of his motives revealed his beliefs in white supremacy and reopened debates about racial conflict, southern identity, systemic racism, civil rights, and the African American church as an institution. In the aftermath of the massacre, Professors Chad Williams, Kidada Williams, and Keisha N. Blain sought a way to put the murder and the subsequent debates about it in the media in the context of America's tumultuous history of race relations and racial violence on a global scale. They created the Charleston Syllabus on June 19, starting it as a hashtag on Twitter linking to scholarly works on the myriad of issues related to the murder. The syllabus's popularity exploded and is already being used as a key resource in discussions of the event. Charleston Syllabus is a reader, a collection of new essays and columns published in the wake of the massacre along with selected excerpts from key existing scholarly books and general interest articles. The collection draws from a variety of disciplines: history, sociology, urban studies, law, critical race theory, and includes a selected and annotated bibliography for further reading, drawing from such texts as the Confederate constitution, South Carolina's secession declaration, songs, poetry, slave narratives, and literacy texts. As timely as it is necessary, the book will be a valuable resource for understanding the roots of American systemic racism, white privilege, the uses and abuses of the Confederate flag, and its ideals, the black church as a foundation for civil rights activity, and state violence against such activity, and critical whiteness studies.

Lineberry, 2017-06-20 Finalist for the Gilder Lehrman Lincoln Prize. Henry Louis Gates Jr. A stunning tale of a little known figure in history. Candice Millard. *Be Free or Die* makes you want to stand up and cheer. The astonishing true story of Robert Smalls' amazing journey from slave to Union hero and ultimately United States Congressman. It was a mild May morning in Charleston, South Carolina, in 1862, the second year of the Civil War, when a twenty-three-year-old slave named Robert Smalls did the unthinkable and boldly seized a Confederate steamer. With his wife and two young children hidden on board, Smalls and a small crew ran a gauntlet of heavily armed fortifications in Charleston Harbor and delivered the valuable vessel and the massive guns it carried to nearby Union forces. To be unsuccessful was a death sentence for all. Smalls' courageous and ingenious act freed him and his family from slavery and immediately made him a Union hero while simultaneously challenging much of the country's view of what African Americans were willing to do to gain their freedom. After his escape, Smalls served in numerous naval campaigns off Charleston as a civilian boat pilot and eventually became the first black captain of an Army ship. In a particularly poignant moment, Smalls even bought the home that he and his mother had once served in as house slaves. Cate Lineberry's *Be Free or Die* is a compelling narrative that illuminates Robert Smalls' amazing journey from slave to Union hero and ultimately United States Congressman. This captivating tale of a valuable figure in American history gives fascinating insight into the country's first efforts to help newly freed slaves while also illustrating the many struggles and achievements of African Americans during the Civil War. *Bound Labor in the Turpentine Belt* Thomas Aiello, 2024-11-19 In this book, Thomas Aiello takes a close look at the Deep South's dependence on systems of bound labor during the post-Reconstruction era through the story of a labor camp in Georgia, drawing attention to the injustices and abuses of misdemeanor convict leasing. **HSA Americana Auction Catalog #6035, Dallas, TX** Marsha Dixey, 2010-04

economic autonomy As slaveholders became more profit oriented in the nineteenth century they also sought to control enslaved people s economic behavior and capture the gains Despite enslaved people s aptitude for enterprise their market activities came to be one more part of the violent and exploitative regime that shaped their lives Drawing on wide ranging archival research to expand our understanding of racial capitalism *Unfree Markets* shows the limits of the connection between economic activity and freedom **Charleston** Martha A. Creolization and Transatlantic Blackness Charmaine A. Nelson, 2024-11-12 Departing from more conscribed definitions this book argues for an expansion of the concept of Creolization in terms of duration temporality population and importantly in regional scope which also impact climate and the practices of slavery that are typically included and excluded from consideration Eschewing the normative focus on language and music the authors instead center art and visual and material cultures as both outcomes and practices in their explorations to consider the ways that cultural production in the period of slavery and its aftermath was irrevocably impacted by the collision of races and cultures in the Americas The chapters probe how creolization unfolded for differently constituted individuals and populations as well as how it came to be articulated both

in the historical moments of its enactment and its retroactive cultural representations and production In so doing they seek to both expand the terrain literally and figuratively of the definition of creolization and to turn towards an examination of its relevance for art and visual and material cultures of the Transatlantic world The chapters in this book were originally published in African and Black Diaspora An International Journal
