Slow Lightning Jack McDevitt, 2000 Classic sense of wonder sf from the author of THE ENGINES OF GOD **Scores** John Clute, 2016-11-24 For more than 50 years John Clute has been reviewing science fiction and fantasy As Scores demonstrates his devotion to the task of understanding the central literatures of our era has not slackened There are jokes in Scores and curses and tirades and apologies and riffs but every word of every review in the end is about how we understand the stories we tell about the world Following on from his two previous books of collected reviews Strokes and Look at the Evidence this book collects reviews from a wide variety of sources but mostly from Interzone the New York Review of Science Fiction and Science Fiction Weekly Where it has seemed possible to do so without distorting contemporary responses to books these reviews have been revised sometimes extensively 125 review articles over 200 books reviewed in more than 214 000 words *The Cry of the Senses* Ren Ellis Neyra, 2020-10-26 In *The Cry of the Senses* Ren Ellis Neyra examines the imaginative possibility for sound and poetics to foster new modes of sensorial solidarity in the Caribbean Americas Weaving together the black radical tradition with Caribbean and Latinx performance cinema music and literature Ellis Neyra highlights the ways Latinx and Caribbean sonic practices challenge antiblack colonial post Enlightenment and humanist epistemologies They locate and address the sonic in its myriad manifestations across genres and forms in a legal trial and in the art and writing of Xandra Ibarra the Fania All Stars Beatriz Santiago Muñoz Glissant and Eduardo Corral while demonstrating how it operates as a raucous form of diasporic dissent and connectivity Throughout Ellis Neyra emphasizes Caribbean and Latinx sensorial practices while attuning readers to the many forms of blackness and queerness Tracking the sonic through their method of multisensorial poetic listening Ellis Neyra shows how attending to the senses can inspire alternate ethical ways of collective listening and being **Planetary Atmospheric Electricity** François Leblanc, Karen Aplin, Yoav Yair, Giles Harrison, Jean Pierre Lebreton, M. Blanc, 2008-10-01 This book is a comprehensive discussion of all issues related to atmospheric electricity in our solar system It details atmospheric electricity on Earth and other planets and discusses the development of instruments used for observation **Weird Weather** David A. J. Seargent, 2012-03-02 This book is in a sense a sequel to David Seargent's first Springer book *Weird Astronomy* 2010 Whereas *Weird Astronomy* extended over a broad range of purely astronomical topics the present work concentrates on phenomena closer to home the atmospheric and shallow space events as opposed to deep space events The line between astronomy and meteorology is blurred a fact that is discussed in *Weird Weather* It is not primarily a book of wonders or of the unexplained although some of the topics covered remain mysteries It is primarily directed toward those who are fascinated by climate and weather and who are open minded when considering Earth's climate what drives it and what are the causes of climate change The author

David A J Seargent presents the facts with a balanced and scientific approach *Weird Weather Tales of Astronomical and Atmospheric Anomalies* is about strange unusual and apparently inexplicable observations of the air and sky Primarily these are in the Earth s atmosphere but there are corresponding phenomena in the atmospheres of other planets of the Solar System lightning on Venus Jupiter and Saturn whirlwinds and dust storms of Mars and auroras on Jupiter Topics include anomalous lights anomalous sounds spectacular effects of cloud illumination by the Sun or Moon lightning phenomena electrophonic sounds of lightning aurora and meteors tornado and whirlwind phenomena on Earth and Mars usual atmospheric effects mirages and the possible astronomical influences on cloud and climate **The California Ranger**

of Earth s rhythms part literary archive part post human novel *The Nature Book* collages descriptions of the natural world into a singular symphonic paean to the planet What does our nature writing say about us and more urgently what would it say without us Tom Comitta investigates these questions and more in *The Nature Book* a literary supercut that arranges writing about the natural world from three hundred works of fiction into a provocative re envisioning of the novel With fiction s traditional background of flora and fauna brought to the fore people and their structures disappear giving center stage to animals landforms and weather patterns honored in their own right rather than for their ambient role in human drama *The Nature Book* challenges the confines of anthropocentrism with sublime artistic vision traversing mountains forests oceans and space to shift our attention toward the magnificently complex and interconnected world around us *Earth Splits*

Rodriguez,2018-05-08 Since the 1990s there has been unparalleled growth in the literary output from an ever more diverse group of Latinx writers Extant criticism however has yet to catch up with the diversity of writers we label Latinx and the range of themes about which they write Little sustained scholarly attention has been paid moreover to the very category under which we group this literature *Latinx Literature Unbound* thus begins with a fundamental question What does it mean to label a work of literature or an entire corpus of literature Latinx From this question others emerge What does Latinx allow or predispose us to see and what does it preclude us from seeing If the grouping which brings together a heterogeneous collection of people under a seemingly homogeneous label tells us something meaningful is there a poetics we can develop that would facilitate our analysis of this literature In answering these questions *Latinx Literature Unbound* frees Latinx literature from taken for granted critical assumptions about identity and theme It argues that there may be more salubrious taxonomies than Latinx for organizing and analyzing this literature Privileging the act of reading as a temporal meaning making event Ralph E Rodriguez argues that genre may be a more durable category for analyzing this literature and suggests new ways we might proceed with future studies of the writing we have come to identify as Latinx *Latino/a Literature in the Classroom* Frederick Luis Aldama,2015-06-19 In one of the most rapidly growing areas of literary study this volume provides the first comprehensive guide to teaching Latino a literature in all variety of learning environments Essays by internationally renowned scholars offer an array of approaches and methods to the teaching of the novel short story plays poetry autobiography testimonial comic book children and young adult literature film performance art and multi media digital texts among others The essays provide conceptual vocabularies and tools to help teachers design courses that pay attention to Issues of form across a range of storytelling media Issues of content such as theme and character Issues of historical periods linguistic communities and regions Issues of institutional classroom settings The volume innovatively adds to and complicates the broader humanities curriculum by offering new possibilities for pedagogical practice *Imaginative Possibilities* Maceo Montoya,Javier O. Huerta,2024-11-05 Two decades

into the twenty first century contemporary Latinx writers have established themselves within an evolving literary tradition Imaginative Possibilities collects interviews with some of these authors to explores the writers processes aesthetics creative trajectories and places within the larger body of Latinx literature The interviews address artistic professional and cultural issues including the building of intellectual communities the writing and publication process and the practical economics of making a living US Latinx writers discuss how they navigate the overwhelmingly white publishing industry the academic book market higher education and MFA culture while exploring questions of representation hybridity and mestizaje Through these conversations a truth emerges Latinx literature speaks not with one voice but many

Pivotal Voices, Era of Transition Rigoberto Gonzalez,2017-09-14 Pivotal Voices Era of Transition gathers Rigoberto Gonz lez s most important essays and book reviews many of which consider the work of emerging poets whose identities and political positions are transforming what readers expect from contemporary poetry A number of these voices represent intersectional communities such as queer writers of color like Natalie D az Danez Smith Ocean Vuong and Eduardo C Corral and many writers such as Carmen Gim nez Smith and David Tom s Mart nez have deep connections to their Latino communities Collectively these writers are enriching American poetry to reflect a more diverse panoramic and socially conscious literary landscape Also featured are essays on the poets literary ancestors including Juan Felipe Herrera Alurista and Francisco X Alarc n and speeches that address the

need to leverage poetry as agency This book fills a glaring gap in existing poetry scholarship by focusing exclusively on writers of color and particularly on Latino poetry Gonz lez makes important observations about the relevance urgency and exquisite craft of the work coming from writers who represent marginalized communities His insightful connections between the Latino African American Asian American and Native American literatures persuasively position them as a collective movement critiquing challenging and reorienting the direction of American poetry with their nuanced and politicized verse Gonz lez s inclusive vision covers a wide landscape of writers opening literary doors for sexual and ethnic minorities
