Adolescents In The Internet Age, 2nd Edition Paris S. Strom, Robert D. Strom, 2014-07-01 Teaching adolescents and learning from them is the paradigm elaborated throughout this second edition of *Adolescents in the Internet Age* The premise is based upon four assumptions 1 Adolescents have unique experiences that qualify them as the most credible source on what growing up is like in the current environment 2 Adolescents are more competent than many adults with tools of technology that will be needed for learning in the future 3 Adolescents and adults can support mutual development by adopting the concept of reciprocal learning and 4 The common quest of adolescents to gain adult identity could be attained before employment Expectations are the theme for every chapter The reason expectations are so important is because they influence goals determine priorities and are used to evaluate progress and achievements of individuals and institutions When teacher expectations correspond with the abilities and interests of students achievement and satisfaction are common outcomes In contrast if teachers expect too little student potential can be undermined There is also concern if expectations that students have for themselves surpass their abilities This occurs if teachers do not inform students about their deficits Multitasking doing too many things at the same time detracts from productivity Sharing accountability depends upon complimentary and attainable expectations that can be met by students teachers and parents To support appropriate expectations this book for secondary teachers and high school students seeking a broader understanding of their own generation is organized in four parts about aspects of learning and development 1 Identity expectations introduce traditional perspectives on adolescence changes related to sources of learning evolving emphasis of schools and ways to support motivation goal setting and formation of identity 2 Cognitive expectations examine mental abilities academic standards emergence of the Internet as a learning tool development of media literacy creative problem solving and encouragement of higher order thinking skills 3 Social expectations explore the need for giving greater attention to social development importance of teamwork skills involvement with social networking adoption of civil behavior school safety and values as a basis for ethical behavior and character 4 Health expectations center on decisions that influence physical health well being and lifestyle choice Consideration is given to stress management emotional intelligence and risk assessment strategies for individual teenagers and the schools that they attend

How to Keep Your Children Safe Yvonne Marie Vissing, 2006 Winner of the New England Sociological Association Sociologist of the Year 2008 Life in contemporary American society requires that children spend considerable time in the care of other people These people include teachers coaches babysitters camp counselors ministers neighbors friends and extended family While most people who work with children do a good job some caregivers fail to adequately care for kids while others actually put them in harm

s way Parents may assume that caregivers of all kinds are uniformly evaluated and approved but this is not always the case American society despite a superficial rhetoric of concern for children has not instituted strong national state or local safety nets to protect them And because there is no comprehensive commitment to ensure child safety there is no systematic or even partial oversight of adults charged with their care As a result parents are put in the difficult position of deciding whether caregivers of all kinds are sufficiently skilled and responsible to look after children How to Keep Your Children Safe is essential reading for any parent concerned about child safety It takes a hard look at the hidden side of children s lives the times when they re in contact with caregivers who aren t doing their jobs properly It provides detailed information on places where children are under the care of others including day care recreational settings religious and civic organizations schools and summer camps Vissing investigates the potential perils of each setting and enumerates ways in which parents can better monitor or take control of their child s safety By writing a realistic assessment of commonplace settings that every parent and child can relate to and offering a road map to child safety Vissing empowers parents to make critical decisions about their children s lives

Raising Gifted Kids Barbara Schave Klein,2007 Raising an extremely bright child quick curious sensitive and introspective is a daunting challenge Parents need insight into their own motivations as well as those of their children and the courage and ability to make tough decisions about their child s development Raising Gifted Kids will help parents understand and cope with the obstacles they face in raising a gifted child and help them make the best choices for their son s or daughter s growth and happiness

achieve success and have a little fun along the way Safer Vaccines, Safer Children Dr. Robert Caires DC
Esq.inactive,2018-12-23 How many vaccines that contain unnatural to human biology chemicals can be injected before your
children suffer autism or some other condition The answer is unclear which is why it is imperative to parents for the sake of
their children s health and very future to never inject chemicals that could do irreparable harm Dr Robert Caires DC Esq
inactive a doctor and lawyer explains why parents are placed in the uncomfortable position of refusing to vaccinate their
children with vaccines that have unhealthy chemicals Parents will consider SAFER vaccines This book is a detailed account
on how most vaccines are laced with harmful chemicals that can degenerate the health of children and even cause autism
Children deserve SAFER vaccines and parents need to protect children from CHEMICALIZATION He makes a compelling
argument that to assure SAFER vaccines vaccination should not be mandated and that vaccine producers need to be held
accountable and liable for injuries induced by vaccine chemicals The priority must be safety but for far too long it s been all
about profits Be safe not sorry only consider SAFER vaccines The autism epidemic rages on because the main etiology of
autism is the unnatural to human biology chemicals in vaccines that penetrate brain cells Empower yourself keep your
children safe and help change the system with the insights in Safer Vaccines Safer Children **Shielding the Future: A
