## Stokers Mess:

**Stokers' Mess** Arne Skouen, 1948      *Stokers' Mess; Tr. from the Norwegian by Joran Birkeland* Arne Skouen, 1948

A Hard Fought Ship John A Rodgaard, 2024-06-30 Here is the exhaustive and exhilarating story of HMS Venomous one of sixty seven V W destroyers built at the end of the Great War that were to play a key role in the struggle to keep the sea lanes open in the Atlantic Home Waters and the Mediterranean during the following war Her story was perhaps the most memorable of all her class When war broke out she was to find herself in the front line as the German blitzkrieg swept across Europe in 1940 and the V Ws made high speed dashes across the Channel to bring troops and civilians back from Calais Boulogne and Dunkirk and prepared for the expected invasion Later that year she and her sister ships escorted the Atlantic convoys which supplied our Russian allies with the weapons to halt the German advance She returned to the Mediterranean and took part in Operation Pedestal to save Malta and as the allies prepared for the landings in North Africa she was ordered to escort the destroyer depot ship HMS Hecla to the invasion beaches When Hecla was torpedoed off the coast off Morocco Venomous fought the attacking U boat and rescued 500 survivors She escorted convoys along the coast of North Africa including the first through convoy from Gibraltar to Alexandria and she joined the invasion force to Sicily during Operation Husky In October 1943 she returned to Britain for a major refit at Falmouth when she was converted to an air target ship for training Barracuda torpedo bombers based at Douglas Isle of Man and then after being transferred to the east coast she was nearly lost in a hurricane before being sent to Kristiansand to accept the surrender of German naval forces Venomous and her sister ships were all scrapped after the War but her extraordinary career during which she fought without cessation is brought to life in this rousing and beautifully told ship biography a fitting memorial to the V Ws and the men who served in them I would rate this as being in the same class as *The Cruel Sea* for a picture of small ship life in World War Two The Naval Review A portrayal of life on a wartime destroyer with a depth and insight that is possible unequalled by any previously published work Warship Annual This book is outstanding for its detailed insight into the life on not just a single destroyer but by extension life at sea aboard and Royal Navy destroyer The Northern Mariner A Hard Fought Ship is a vivid portrait of a fighting vessel and the men who operated her Warships International Fleet Review Highly recommended to both naval historians and the general public Mariner's Mirror It is an exemplary ship biography where a detailed narrative of the destroyer's exploits are brought to life by a wealth of first hand accounts Navy News This book is a detailed and thrilling account of the life of a typical V W class destroyer Sea Breezes      *For the Money and the Fun* Jacob D. Deorksen, Leona M Deorksen, 2022-04-13 This is life below decks as far below decks as one can go in a corvette During the height of WWII Ike walks into HMCS Chippawa Winnipeg to enlist in the Royal Canadian Naval Volunteer Reserve He joins up with romantic notions of rising through the ranks and seeing the world while rising to heroic heights fighting Canada's enemies and impressing his girl back home Ike's dreams are soon replaced by the soggy realities of ever imminent danger Serving in the

bowels of a corvette tasked with maintaining critical Allied supply lines in the submarine infested North Atlantic the threat of torpedoes is constant While Ike's ship navigates the Battle of the Atlantic Ike himself has to navigate the treacherous currents of life aboard ship Going ashore at ports of call he tries to remain true to the promises he made to the girl he left behind His adventures teach him that endurance is the better part of valor and survival is his only reward **Journal of the American Society of Naval Engineers, Inc** American Society of Naval Engineers,1894 **Journal of the American Society of Naval Engineers** ,1894 Commander's order book for a Mediterranean battleship sir Robert Keith Arbuthnot (bart.),1900 *Seamanship* George Strong Nares,1897 *British Medical Journal* ,1910 *Journal of the Royal Army Medical Corps* Great Britain. Royal Army Medical Corps,1914 **Who Killed Kitchener?** David Laws,2019-03-20 In June 1916 Field Marshal Lord Kitchener set sail from Orkney on a secret mission to bolster the Russian war effort Just a mile off land and in the teeth of a force 9 gale HMS Hampshire suffered a huge explosion sinking in little more than fifteen minutes Crew and passengers numbered 749 only twelve survived Kitchener's body was never found Remembered today as the face of the famous First World War recruitment drive at the height of his career Kitchener was famed as Britain's greatest military hero since Wellington By 1916 however his star was in its descent A controversial figure who did not make friends easily in Cabinet he was considered by many to be arrogant secretive and high handed From the moment his death was announced rumours of a conspiracy began to flourish with the finger pointed variously at the Bolsheviks Irish nationalist saboteurs and even the British government Using newly released files kept secret for almost 100 years former Cabinet minister David Laws unravels the true story behind the demise of this complex figure debunking the conspiracy theories and revealing the crucial blunders that the government and military sought to cover up The result is the definitive account of an event that shook the country and which has been shrouded in mystery ever since **Seamanship** Alfred Henry Alston,1893

**Captain Alston's Seamanship** Alfred Henry Alston,1894 HMS Bermuda Days Peter Broadbent,2013-10-02 In 1961 the Royal Navy came up with a brilliant idea why not take all its rogues thugs and malcontents and place them on board its flagship HMS Bermuda where hard work and continuous exercising would keep them out of trouble Joining this colourful crew was sixteen year old Peter Broadbent fresh out of his year's training at HMS Ganges and drafted to Bermadoo to make up the ship's quota of Junior Seamen Initially he lived a cocooned existence in the Juniors mess with a community of cockroaches as his closest companions but his life changed dramatically the day he transferred to the notorious For d Seamen's Mess There he grew up In the course of his 34 000 nautical miles with Bermuda he learned how to ammunition the ship avoid Pompey Lil sing the Oggie song survive a storm throw a perfect heaving line and count himself proud to be a sharp end seaman On his eighteenth birthday the entire population of Hamilton Bermuda along with a uniformed band and full ceremonial enthusiastically welcomed Peter and his ship in Newcastle upon Tyne he was given the job of preventing women wearing skirts from descending a long open backed ladder in Stockholm he had a memorable dalliance with a local girl called

Gunnel and in Amsterdam a professional businesswoman at work in Canal Street was so impressed with his performance that as he took his leave she shook his hand warmly and gave him some of her business cards "Our Gallant Doctor" James Goodwin, 2007-04-30 During the Battle of the Atlantic Dr George Hendry had just finished performing two major surgical operations on board the destroyer HMCS Ottawa when his ship was ambushed by 13 German U boats Canadian warships like Ottawa had inadequate radar sets that were incapable of detecting submarines approaching in the dark On September 13 1942 U 91 stole in and torpedoed Ottawa sinking her in 20 minutes utterly exhausted Dr Hendry was lost along with 113 of his shipmates George Hendry was a much loved man a great university athlete and a very good doctor Unfortunately he was also naive and too trusting One night in January 1941 he committed a very foolish indiscretion He would spend the rest of his tragically short life making amends for this mistake Storm Below Hugh Garner, 2010-01-18 Published in 1949 Storm Below tells the story of a fictional Royal Canadian Navy ship HMCS Riverford which is a composite of the vessels Hugh Garner served on during his time in the Canadian navy The adventure unfolds over six days of an escort run across the Atlantic Ocean to Newfoundland during World War II **Down to the Sea in Submarines** Dan Conley, 2024-08-20 This unique memoir charts the career of the author in the Royal Navy Submarine Service during the period 1967 to 1997 and in doing so details many of the Silent Service's remarkable achievements since the end of the Second World War And it provides a dramatic first hand account of the underwater confrontation during the Cold War between submarines of the West and the huge submarine force of the Soviet Union Dan Conley narrates the successive stages from his basic submarine training to taking command of two nuclear attack submarines but he does not demur from describing the personal and professional difficulties he encountered in this journey He sets out in detail what life was like serving onboard both diesel and nuclear submarines and in particular the book describes the British submariner's remarkable transformation from the somewhat buccaneering free spirit serving on a clapped out WW2 boat during the sunset of the British Empire to the highly professional individual who spends prolonged periods under the sea in a platform which matches the complexity of a space craft The book describes the long and difficult challenges encountered in developing effective weapon systems for the British submarine force and discusses the difficulties and shortcomings in the UK's defense procurement system a situation which still exists today Ultimately however Western technological superiority and crew proficiency enabled the submarines of the Royal and United States Navies to match those of the Soviet Union and he describes vividly the suspense and tension of underwater confrontations which might so easily have escalated to another dimension of warfare And the book sets out hitherto undisclosed details of submarine activities during the 1962 Cuban Missile Crisis when the world confronted the real possibility of a massive nuclear exchange But it is not all serious content and he also offers a glimpse for the reader of many humorous situations and events of animals that found themselves under the sea in a submarine in one case during a war patrol and other moments of levity that broke the tension of serving in a highly complex and sophisticated fighting machine

The Cold War era is now long past However it is evident that as the West now confronts an aggressive recidivist Russia and a more aggressive China Britain s submarine force once again will be key to the security of all its citizens This fine memoir captures vividly the key events and history of the Cold War and in doing so will open the reader s eyes to the significance and importance today of the Royal Navy Submarine Service Praise for the author s previous work Cold War Command A wonderful book full of information momentum excitement and humanity Highly recommended The Mariner s Mirror

**Fish & Ships** Alfred Pickup, 2011 A not quite sixteen year old Alfred Pickup is declared healthy and after a simple written exam joins the Royal Navy as a Junior Electrical Mechanic 2nd class in 1961 Pickup would serve on numerous ships from the HMS Wakeful a decaying WW II era Destroyer to the HMS Cardiff a brand new destroyer in 1979 Before joining any ship a sixteen year old must learn many new skills From minor obstacles of embroidering his name on his uniforms to learning to use a rifle Pickup is readied for duty in strict Navy tradition He puts together a string of first round knockouts as a member of the boxing team before seemingly meeting his match in a local ranked amateur He would see incredible storms on board fires mechanical breakdowns and the threat of war when the Falklands conflict began in 1982 Different ports of call would offer a range of shore leave possibilities Strict navy regulations would not deter some crew from overindulging nor would it protect them from unscrupulous individuals looking to separate them from their pay While in foreign ports Pickup would meet a remarkable number of Navy friendly locals happy to show him the sights or take him into their homes for a home cooked meal Raising a family of four on a meager Navy pay would see Pickup and his wife running a bed breakfast and later a fish and chips shop Pickup worked odd jobs ashore and during a lengthy station in Gibraltar operated a booming automotive repair and paint shop Fish and Ships chronicles with humour and fine detail a twenty five year career in the RN that would see Pickup rise to the rank of Chief Petty Officer and retire from service in his early forties to life as a restaurateur
