[Recent Advances in Management of Digestive Cancers](#) Toshio Takahashi,2012-12-06 Cancer is the leading cause of death

in many countries and digestive cancer is one of the most common types of neoplasms. Advances in research on the management of digestive cancer therefore represent an important contribution to the welfare of humankind throughout the world. The VICC Kyoto International Symposium on Recent Advances in the Management of Digestive Cancer was held in Kyoto from March 31 to April 2, 1993, under the presidency of Dr. T. Takahashi of the Kyoto Prefectural University of Medicine. At this event, leading researchers and clinicians presented new findings and the latest results of clinical trials concerning digestive cancers. The VICC President and other members of the Executive Committee of the VICC also gave speeches on their own fields, and more than 1000 participants from 28 countries were very well received. This book presents the proceedings of this symposium. In addition to 30 selected papers presented at special lectures and symposia by invited speakers, this book contains 230 free papers presented at poster sessions during this conference.

Herbs for Cancer Treatment Bhupendra Koul, 2020-01-07. This book provides detailed information on the various types of cancer etiology, effects, and challenges associated with current cancer treatment regimes. The present edition has been written to reflect recent developments, success rates, and lacunae in herbal and modern cancer therapies. It also describes the use of several herbal formulations to boost patients' immunity in order to prevent or help them cope with several cancers. The book highlights several herbs, shrubs, and trees that have been reported to possess anti-cancer properties, paving the way for in-depth research into the dose standardization and efficacy of plant-based bioactive molecules. It also focuses on the sustainable conservation of medicinal flora so that in the future, novel biomolecules can be extracted and made available for the treatment of various cancers. Given its highly relevant content, the book will benefit the entire cancer research community: students, scientists, pharmacists, herbalists, and lecturers at universities, research institutions, and industry in the areas of oncology.
