By Rev. George E. Soroka and Mary Beth Stone

*The search for the truth ends with George Soroka. Many surmise the God-essence, but he has truly tapped into the Energy of the Ages like none before. His easy-to-understand approach is a gentle mix of profound insights into the human condition and exploration into Everlasting Life. Many talk the talk, but George walks and breathes it. To live life fully and have all you desire, read this book, do the exercises and fully engage the Energy. I know it works because it has for me. Shake up the Energy and go for life's gusto!*

## **Stoneforce Life:**

**Life's Ponderous Adventure** Ed Grover, 2022-08-03 The author hopes this book will bring to the reader's attention and focus the value in reflecting on various often differing perspectives of our world. It seems many people live out their lifetime rather unthinkingly without ever considering seriously any purpose for their life beyond immediate personal pleasures and satisfactions. Then they die so they seem to think a little intuition and insight soon reveals there is much more to our world than what we can see and that each of us has a real purpose for our existence. A basic truth the author points to is that human purpose is unattainable in isolation. Our thoughts no matter how lofty are worthless unless they are communicated and shared with others in love. And so he says he writes. This book brings forth numerous ideas and inventions, discoveries and talents revealed in literary, mathematical and art forms, all manifestations of God's handiworks revealed through our humanness. The book also points to the humble efforts, the drudgeries of routines, even the poverty of so many humans and how God values and honors every individual who sincerely lives to please our Creator God no matter their station in life. God's creativity didn't end the sixth creation day. Yes, God rested on the seventh day and He instructed us to do the same. God's creative time marches forward, never static but rather dynamic, energetic, ever changing, evolving with ever emerging newness and promise. Amazingly, God endorses and promotes our own human creativity with an important caveat. It is difficult to find a place on our earth's surface not rearranged to suit our human generational whims. In so many situations we have failed to clean up our messes. God gave us humans dominion over the whole earth. What we've collectively failed to understand or live up to is that dominion involves responsibility, conservation and ownership. Ever since the reformation and its associated human upheavals, technology has with continuing acceleration produced marvelous time saving creative accomplishments. That is for the minority of us humans fortunate enough to access them. But what about the majority, the masses of forgotten humans worldwide living in deep poverty, often homeless, their own resources confiscated by greedy entrepreneurs. And what about earth's surface so deeply wounded and scarred by human mining interests. Sad to say, if the tables were reversed and the presently forsaken masses of humanity were somehow to become the privileged, it would be no different. We humans are all selfish sinners. So who's responsible? Don't blame Satan and his demons. All they do is suggest to us, mindful humans. Every evil ever manifested could be traced back to human sins. And is there any possible solution to the messes we've made? Of course there is, but few find it. The whole creation, life and humanity, Satan and his demons, the beauties and the sufferings all come into focus in Jesus. It's all about Jesus and his love for us humans. The author's writing style is suggestive of an ascending vortex cyclone of information that first focuses on some primary aspects of us and our world, written for the early childhood reader. It then spirals upward to give the reader deeper perspectives on similar topics, now written in format readable by primary students. Continuing to spiral upward, it is now addressed to intermediate level students utilizing still greater depth of reasoning and language used. Finally, the book looks deeper into advanced studies of

some chosen topics Bless us all dear Lord in our efforts to better know your creation and You     The Stoneforce Life Book George E.
