Short Stories of One Who Comes and Goes L.W. Coffee, 2020-12-03 ONE WHO COMES AND GOES is a collection of short stories based on real life events and written in that spirit When John Silver came home from Vietnam he was suffering from PTSD but he didn't know For 46 years he dealt with PTSD Yes there was something wrong with his life but no clues There was no one to talk to not even his wife Alcohol became his only friend He found no shortage of cohorts to comfort him In reality PTSD is a debilitating mental disorder and affects men returning from combat zones They are then thrown into a civilian population that is not aware of PTSD Not a good situation One Who Comes and Goes is a small effort to try and alert and or make aware a population who does not know what PTSD is

Demons of the Modern World Malcolm McGrath, 2010-10-05 probably the first thorough review of modern demonology superb Recommended Library Journal a terrifically contextualized debunking that is sure to generate debate among the faithful Publishers Weekly a fascinating book on the psychology of modern Western culture Science Spirit Magazine This fascinating discussion of modern demonology focuses on our ability to differentiate the physical world with its mechanical laws from the inherently less predictable psychological realm of thoughts and beliefs McGrath points out that this ability was a hard won historical development and today must be learned in childhood through education Because of this historical background and our rich fantasy life in childhood each of us unconsciously suspects or fears that supernatural forces may break through the borders of our everyday commonsense order at any time Indeed at times of personal stress or societal crisis the modern boundaries between fantasy and reality begin to slip and then a magical world of demons and other phantasms can come flooding back into our disenchanted reality Through this innovative thesis McGrath goes a long way toward explaining both our fascination with fantasy entertainment such as horror stories and films and bizarre crazes such as witch hunts Satanism scares and even

claims of alien abduction Despite our demystified culture the lure of childhood s magic kingdom with its monstrous shadow realm remains strong Malcolm McGrath Toronto Ontario Canada is a doctoral candidate in political philosophy at Oxford University *The Publishers Weekly* ,1923 **The American Educational Catalogue** ,1919 Embodied Entanglements: Gender, Identity, and the Corporeal in Asia Zawiszwá, Halina,Strafella, Giorgio,Lavička, Martin, Ideas on the human body gender and identity lie at the core of many socio political issues and cultural trends in Asia today while also inspiring innovative research on artistic expression from Asia s past By focusing on socio political as well as cultural issues from diverse geographical and historical contexts this book highlights complex links and interactions that bind these three interpretative axes How do bodies become conduits for the expression and negotiation of gender and other identities What do the lived experiences of women and LGBTQ people in Asia reveal about biopolitics normative expectations and value systems in different societies How does art reflect the representation and fashioning of gendered bodies and ambiguous identities Cutting across the quotidian and the avant garde activism and art violence and pleasure as well as the intimate and the political this book sheds new light on Asian cultures and societies spanning India Indonesia Japan mainland China Taiwan and Thailand affirming thus the region s significance in broader debates on biopolitics gender and human dignity A Matter of Time Galen Woodward,2020-10-22 Clocks and calendars rule our lives and while time is constant life is anything but linear The Greeks talked about time in two ways Chronos means measurable time Kairos means understanding the value of a moment As the clock ticks by it s vital you find meaningful moments to hug your toddler laugh with school aged child or have a deep conversation with your teenager Paul encourages us in Ephesians to make the most of our time being proactive with every minute we have The principles in this book will help you develop skills you need to build meaningful relationships with your children no matter where they are in life By building on foundational principles such as consistency and intentionality and modeling leadership values such as honor courage and vision you will position your children to ultimately change their world Remember time is free but it is precious Master your time and you will master your life **Indigenous Pacific Islander Eco-Literatures** Kathy Jetñil-Kijiner,Leora Kava,Craig Santos Perez,2022-08-31 In this anthology of contemporary eco literature the editors have gathered an ensemble of a hundred emerging mid career and established Indigenous writers from Polynesia Melanesia Micronesia and the global Pacific diaspora This book itself is an ecological form with rhizomatic roots and blossoming branches Within these pages the reader will encounter a wild garden of genres including poetry chant short fiction novel excerpts creative nonfiction visual texts and even a dramatic play all written in multilingual offerings of English Pacific languages pidgin and translation Seven main themes emerge Creation Stories and Genealogies Ocean and Waterscapes Land and Islands Flowers Plants and Trees Animals and More than Human Species Climate Change and Environmental Justice This aesthetic diversity embodies the beautiful bio diversity of the Pacific itself The urgent voices in this book call us to attention to action at a time of great need Pacific ecologies and the lives of Pacific

Islanders are currently under existential threat due to the legacy of environmental imperialism and the ongoing impacts of climate change. While Pacific writers celebrate the beauty and cultural symbolism of the ocean islands' trees and flowers, they also bravely address the frightening realities of rising sea levels, animal extinction, nuclear radiation, military contamination, and pandemics. Indigenous Pacific Islander Eco Literatures reminds us that we are not alone; we are always in relation and always ecological. Humans, other species, and nature are interrelated; land and water are central concepts of identity and genealogy, and Earth is the sacred source of all life and thus should be treated with love and care. With this book as a trusted companion, we are inspired and empowered to reconnect with the world as we navigate towards a precarious yet hopeful future.

Everyland, 1918 Understanding the Transnational Lives and Literacies of Immigrant Children Jungmin Kwon, 2022. This book provides targeted suggestions that educators can use to ensure successful teaching and learning with today's growing population of transnational multilingual students. The text offers insights based on the author's observations, interactions, and interviews with second-generation immigrant children, their families, and their teachers in the United States and South Korea. These collected stories give educators a better understanding of how elementary school children engage in language literacy and learning in and across spaces and countries, the forms of unique linguistic and cultural knowledge immigrant children build, expand, and mobilize as they move across contexts, the ways in which immigrant children position themselves and represent their identities, and how educators and researchers can honor these children's identities and unique talents. Featuring children's narratives, drawings, writings, maps, and photographs, this resource is a must-read for educators and researchers seeking to create more inclusive learning spaces and literacy practices. Book Features: Examples of students' literacy practices with insights for more effective teaching; Practical lessons gleaned from children engaging with language and literacy in flexible and dynamic ways in their everyday lives; Targeted suggestions to help educators better understand and utilize children's unique linguistic abilities and cultural understandings; Discussion questions and examples that challenge deficit perspectives of immigrant children and reposition them as multilingual and transnational experts; Implications for educators and researchers seeking ways to amplify young immigrant children's voices and leverage their knowledge.
