Cultural Methods in Psychology Kate C. McLean, 2022 As I sat down to write this chapter about the use of life story methods for capturing cultural historical aspects of LGBTQ identity development I was transported back in time It was a hot summer day in 2004 I had travelled back from the big city where I was attending university to visit my family This was my first summer away from home At that moment my family and I sat in the parking lot of a diner having just finished breakfast at a local greasy spoon a ritualistic send off before I started my four hour return drive In those moments our car felt unusually cramped My dad was in the back seat with me my mom and brother in the front I didn't have much of an appetite that morning knowing that in mere minutes I would come out to my family as gay On our way out of the restaurant walking to our separate cars I somehow managed to muster up the courage to tell my family there was something important I wanted them to know So there I was in the backseat of the car with a message for my family Looking back on it the message was more like an ultimatum They could learn to love this new version of me as I had done or our routine see you later might be a goodbye This is the beginning of my story both my coming out story and in some ways my life story Thankfully my family is still an important part of this story **Spoken into Being** Søren Lorenzen, 2022-10-26 How are names related to the self in the Hebrew Bible Are names simply ornamental or are they tied to the essence of the embodied bearer To answer these questions Søren Lorenzen traces various functions of proper names and explores how the lexeme name is conceptualized as an object to be perceived by the senses With Paul Ricoeur as a dialogical partner the author brings a new perspective on how the self is formed in the intentional relation between persons and names
