The Paradoxes of High Stakes Testing Michael Russell, George Madaus, Jennifer Higgins, 2009-02-01 As a nation we spend more than 1 billion a year on federally mandated educational tests that 30 million students must take each year The country spends an additional 1 2 billion on test preparation materials designed to help students pass these tests While test mandates were put in place with good intentions increasingly educational leaders and policy makers are questioning these test based reform efforts Some question whether these programs are doing more harm than good Others call for the development of more and better tests Given the vast amount of resources our nation pours into testing is it time we pay closer attention to these testing programs Is it time we hold the testing industry and policy makers accountable for the tests they make and use Is it time we invest resources to develop new ways of testing our students The Paradoxes of High Stakes Testing explores these and other questions as it helps parents teachers educational leaders and policy makers better understand the complexities of educational policies that use tests as a lever for improving the quality of education The book explores how testing is used to enable teachers and schools to be more effective and improve student learning why testing is so ingrained in the American psyche and why policy makers rely on testing policies to reform our educational system what we can learn from a long history of test based reform efforts that have occurred over centuries and across continents what effects testing has on teaching and learning in our schools when it is used to solve political social or economic problems Most importantly the book describes several ways in which testing can be

improved to provide more accurate and more useful measures of student learning Many of these improvements capitalize on technology to provide teachers with more detailed diagnostic information about student learning and measure skills that some leaders argue are essential for the 21st century work force Exploring what is within reach is critical because current testing policies are hindering these improvements Finally given that testing is and will continue to be an integral part of our educational system the book concludes that like other sectors of our society educational testing must be more closely monitored to ensure that high quality tests are used to measure student achievement and to minimize the negative effects that testing has on students schools and our society Given the opportunity our nation has to rethink and redesign its testing policies *The Paradoxes of High Stakes Testing* presents a clear strategy to maximize the positive effects of educational testing

When Treatment Fails David J. Bearison, 2006 The narratives in this book will illustrate how clinicians coming from different professional roles speak about the biological psychological spiritual and social dimensions of caring for terminally ill patients Bearison will analyze their ways of making sense and giving meaning to their difficult experiences unearthing common and distinct themes and issues across disciplines The book will also identify the ways their interdisciplinary teams facilitate or hinder each others work and to what extent greater reciprocity can be achieved in providing the highest quality palliative care

Night Vision Dominic Angeloch, 2025-04-10 All his life Wilfred Bion strove to find a narrative form for the traumatic experiences he went through as a tank commander in the First World War The body of his autobiographical and literary works documents his efforts to wrest a biography of his own from the most devastating processes of world history As a whole it is the result of a lifelong struggle to express something unspeakable to restore something destroyed What emerges is something like the prehistory of the psychical catastrophe from which Bion was unable to escape until his death As such however these autobiographical fragments also reflect the prehistory of the historical catastrophe under whose spell the world still stands today This book is the first comprehensive study of Bion s autobiographical and literary writings Drawing on the concepts of experience and thinking developed in his theoretical and clinical works with which they are genetically linked it discusses Bion s strategies of writing and cognition and for the first time systematically places a hitherto unexplored part of his work in the context of his entire oeuvre Following the chronological thread of his life from childhood in India through youth in England to his experience of the First World War in France and Belgium the book traces how Bion developed his unique method of writing Detailed narrative analyses reveal the painful work of coming to terms with the war experiences which had haunted him throughout his life a crippling trauma whose causes extended far beyond the individual and private The book thus provides deep insights into Bion s life his thinking and his writing and offers the reader a portrait of the primal catastrophe of the twentieth century and its devastating effects

Growing Up Queer in Australia Benjamin Law, 2019-08-06 No amount of YouTube videos and queer think pieces prepared me for this moment The mantle of queer migrant compelled me to keep going to go further I never

came out to my parents I felt I owed them no explanation All I heard from the pulpit were grim hints I became acutely aware of the parts of myself that were unpalatable to queers who grew up in the city My queerness was born in a hot dry land that was never ceded Even now I sometimes think that I don't know my own desire Compiled by celebrated author and journalist Benjamin Law *Growing Up Queer in Australia* assembles voices from across the spectrum of LGBTIQA identity Spanning diverse places eras ethnicities and experiences these are the stories of growing up queer in Australia For better or worse sooner or later life conspires to reveal you to yourself and this is growing up With contributions from David Marr Fiona Wright Nayuka Gorrie Steve Dow Holly Throsby Sally Rugg Tony Ayres Nic Holas Rebecca Shaw and many more
