Jack London: Novels and Stories (LOA #6) Jack London, 1982-11-01 This Library of America volume of Jack London's best known work is filled with thrilling action an intuitive feeling for animal life and a sense of justice that often works itself out through violence London enjoyed phenomenal popularity in his own time which included the depressions of the 1890s and the beginnings of World War One and he remains one of the most widely read of all American writers The Call of the Wild 1903 perhaps the best novel ever written about animals traces a dog's sudden entry into the wild and the education necessary for his survival in the ways of the wolf pack Like many of London's stories this one is inspired by the early deprivations of his own pathetically short life the primitive conditions of life as an oyster pirate in San Francisco the restless existence of a hobo the isolation of a prison inmate the exertion of a laborer in the Oakland slums and the frustration of a failed prospector for gold in the Alaskan Klondike White Fang 1906 in which a wolf dog becomes domesticated out of love for a man is apparently the reverse side of the process found in The Call of the Wild yet for many readers its moments of greatest authenticity are those which suggest that in actual practice civilization is pretty much a dog's life for everyone of hunting and being hunted eating and being eaten all in blindness and confusion with violence and disorder a chaos of gluttony Though London was a reader of Marx and Nietzsche and an avowed socialist he doubted that socialism could ever be put into practice and was convinced of the necessity for a brutal individualism He thought of The Sea Wolf 1904 the story of Wolf Larsen and his crew of outcasts on the lawless Alaskan seas as an attack upon the superman philosophy but the Captain is far more memorable than any of the book's civilized characters London is an immensely exciting writer partly because the conflicts in his thinking tend to enhance rather than hinder the romantic and thrilling turns of his plots The stories of the Klondike which are based on his personal experiences and the stories of California Mexico and the South Seas span the whole of London's career as a writer He is one of the great storytellers in American literature and his politics with all their passion and contradiction come to life through the vigor and red blooded energy of his prose
