**Sand In Our Souls** Leone Huntsman,2013-05-09 Images of the beach pervade Australian popular culture However the deeper significance of the experience of the beach and its influence on Australian culture generally have not yet been seriously explored How why and when did the beach become part of the Australian way of life In Sand in our Souls Leone Huntsman describes the forces and pressures that encouraged or impeded Australians enjoyment of sand and surf from early enjoyment of bathing through nearly a century of repressive restrictions to freedom won in the face of drawn out opposition The ways in which artists writers film makers and the advertising industry have depicted the beach are examined for the light they throw on the beach s significance She traces the development of a distinctively Australian way of being at the beach suggesting that the beach experience has been absorbed into our emerging culture and continues to shape it in subtle ways Huntsman s provocative arguments will stimulate debate on the concept of national identity appropriate for a new Australian century and promote a deeper understanding of an aspect of life in Australia that is cherished by many of those who live here

**Brown Pelican** Rien Fertel,2022-09-07 In this compelling book Rien Fertel tells the story of humanity s complicated and often brutal relationship with the brown pelican over the past century This beloved bird with the mythically bottomless belly to say nothing of its prodigious pouch has been deemed a living fossil

and the most dinosaur like of creatures The pelican adorns the Louisiana state flag serves as a religious icon of sacrifice and stars in the famous parting shot of Jurassic Park but most significantly spotlights our tenuous connection with the environment in which it flies feeds and roosts the coastal United States In 1903 Theodore Roosevelt inaugurated the first national wildlife refuge at Pelican Island Florida in order to rescue the brown pelican among other species from the plume trade Despite such protections the ubiquity of synthetic agents of death most notably DDT in the mid twentieth century sent the brown pelican to the list of endangered species By the mid 1960s not one viable pelican nest remained in all of Louisiana Authorities declared the state bird locally extinct Conservation efforts including an outlandish but well planned birdnapping saved the brown pelican generating one of the great success stories in animal preservation However the brown pelican is once again under threat particularly along Louisiana s coast due to land loss and rising seas For centuries artists and writers have portrayed the pelican as a bird that pierces its breast to feed its young symbolizing saintly piety Today the brown pelican gives itself in other ways sacrificed both by and for the environment as a bellwether bird an indicator species portending potential disasters that await Brown Pelican combines history and first person narrative to complicate deconstruct and reassemble our vision of the bird the natural world and ourselves

Cultural Encounters in Translated Children's Literature Helen Frank, 2014-04-08 Cultural Encounters in Translated Children s Literature offers a detailed and innovative model of analysis for examining the complexities of translating children s literature and sheds light on the interpretive choices at work in moving texts from one culture to another The core of the study addresses the issue of how images of a nation locale or country are constructed in translated children s literature with the translation of Australian children s fiction into French serving as a case study Issues examined include the selection of books for translation the relationship between children s books and the national and international publishing industry the packaging of translations and the importance of titles blurbs and covers the linguistic and stylistic features specific to translating for children intertextual references the function of the translation in the target culture didactic and pedagogical aims euphemistic language and explicitation and literariness in translated texts The findings of the case study suggest that the most common constructs of Australia in French translations reveal a preponderance of traditional Eurocentric signifiers that identify Australia with the outback the antipodes the exotic the wild the unknown the void the end of the world the young and innocent nation and the Far West Contemporary signifiers that construct Australia as urban multicultural Aboriginal worldly and inharmonious are seriously under represented The study also shows that French translations are conventional conservative and didactic showing preference for an exotic rather than local specificity with systematic manipulation of Australian referents betraying a perception of Australia as antipodean rural exoticism The significance of the study lies in underscoring the manner in which a given culture is constructed in another cultural milieu especially through translated children s literature
