**Do Good Fences Make Good Neighbors?** Brent L. Sterling, 2009-10-30 A number of nations conspicuously Israel and the United States have been increasingly attracted to the use of strategic barriers to promote national defense In *Do Good Fences Make Good Neighbors* defense analyst Brent Sterling examines the historical use of strategic defenses such as walls or fortifications to evaluate their effectiveness and consider their implications for modern security Sterling studies six famous defenses spanning 2 500

years representing both democratic and authoritarian regimes the Long Walls of Athens Hadrian's Wall in Roman Britain the Ming Great Wall of China Louis XIV's Pr Carr France's Maginot Line and Israel's Bar Lev Line Although many of these barriers were effective in the short term they also affected the states that created them in terms of cost strategic outlook military readiness and relations with neighbors Sterling assesses how modern barriers against ground and air threats could influence threat perceptions alter the military balance and influence the builder's subsequent policy choices Advocates and critics of strategic defenses often bolster their arguments by selectively distorting history Sterling emphasizes the need for an impartial examination of what past experience can teach us His study yields nuanced lessons about strategic barriers and international security and yields findings that are relevant for security scholars and compelling to general readers

**Defending Rome: The Masters of the Soldiers** Julian Reynolds, 2011-06-25 For its last eighty years the Western Roman Empire was ruled by emperors who were unable to provide the leadership demanded by the crisis the Empire faced throughout this period Power was exercised instead by the commanders of the Western armies the *magisteri militum* or Masters of the Soldiers four of whom stood out Stilicho Constantius Aetius and Ricimer Challenged by barbarian invasions constantly diminishing resources and indifference and sometimes hostility from the imperial court the Senate and the Roman people these men prolonged the existence of the Empire in the West beyond what would otherwise have been its natural span This book tells the story of the collapse of the Western Empire as seen through the lives of these individuals a collapse that ended more than political and military structures that encompassed the end of an ancient pagan culture and the inception of the age of Christianity

known that the United States has been the wealthiest most powerful and most influential Gentile nation It is also a giant ethnic melting pot and hosts a proto world government in the form of the United Nations Two total solar eclipses spaced seven years apart crossing the entirety of the United States that form an X over the largest and main Gentile nation on earth should not be ignored it should at least be thought provoking No one can manipulate an eclipse or its narrow path of totality Nobody can change the orbital mechanics of the planets only God The writing is on the wall with a timeline of events see for yourself You will find yourself asking What are the odds

**AD69** Nic Fields,2014-03-31 The author of God's Viking brings to life a period in Roman history that provides many twists and turns as Rome emerged from the period of rule by Nero Firetrench With the death of Nero by his own shaky hand the ill sorted ill starred Julio Claudian dynasty came to an ignominious end and Rome was up for the taking This was 9 June AD 68 The following year commonly known as the Year of the Four Emperors was probably one of Rome's worst In all previous successions the new emperor had some relation to his predecessor but the psychotic and paranoid Nero had done away with any eligible relatives The new emperor had to secure his legal position and authority with regards to the Senate and to the army as well as to those who had a vested interest in the system the Praetorian Guard Because imperial authority was ultimately based on control of the military a player in the game of thrones had to gain an unshakable command over the legions Of course this in turn meant that the soldiers themselves could impose their own choice It was to take a tumultuous year of civil war and the death of three imperial candidates before a fourth candidate could come out on top remain there and establish for himself a new dynasty Nic Fields narrates the twists and turns and the military events of this short but bloody period of Roman history We appear to meet more people than the cast of Game of Thrones with about the same mortality rate but with the added bonus of this being history not fiction hugely entertaining
