The Life of the Red Sea Dhow Dionisius A. Agius, 2019-04-04 Few images are as evocative as the silhouette of the Arab dhow as under full sail it tacks to windward on glittering waters of Red Sea before moving across the face of the rising or setting sun In this authoritative new book Dionisius A Agius one of the foremost scholars of Islamic material culture offers a lucid and wide ranging history of the iconic dhow from medieval to modern times Traversing the

Arabian and African coasts he shows that the dhow was central not just to commerce but to the vital transmission and exchange of ideas. Discussing trade and salt routes, shoals and wind patterns, spice harvest seasons and the deep and resonant connection between language, memory and oral tradition, this is the first book to place the dhow in its full and remarkable cultural contexts.

I Am Mary Farran Vernon "Hank" Helmick, 2011-08-31 *I Am Mary* is a fictionalized autobiography of Mother Mary based on the dialogue attributed to Mary by various Saints and visionaries. Her own words are used in most instances, starting with the second chapter. The author, of course, had to take poetic license, especially in Chapter Twelve's summary of her appearances. This book fills in much of the blank periods of the lives of Jesus and Mary. It reveals much of their mystical lives as related by Saint Mary of Agreda, Venerable Anne Catherine Emmerich, Saint Bridget of Sweden, Saint Maria Faustina Kawalska, the Holy Bible, the Gospel of Mary, and a myriad of other sources. It is an ideal book for meditation on the lives and works of Mother Mary and her Divine Son, Jesus Christ. I tried to edit some of the archaic terminology of the early writers to offer smoother reading and ready comprehension. The original texts were highly recommended reading by several different Popes in the periods in which the original books were written.

Stormchasers: The Hurricane Hunters and Their Fateful Flight into Hurricane Janet David Toomey, 2003-06-17 Fifty years after Isaac's Storm, a riveting story of the first Hurricane Hunters and the one crew who paid the ultimate price. In a virtual age when tempests are monitored by global positioning and The Weather Channel, *Stormchasers* reminds us that our first understanding of hurricanes was directly built on the risks and sacrifices of living, breathing heroes. Writes Hampton Sides, author of *Ghost Soldiers*: In September 1955, Navy Lieutenant Commander Grover B. Windham and a crew of eight flew out of Guantánamo Bay into the eye of Hurricane Janet, swirling in the Caribbean, on a routine weather reconnaissance mission from which they never returned. In the wake of World War II, the Air Force and the Navy had discovered a new civilian arena where daring pilots could test their courage and skill. These Hurricane Hunters flew into raging storms to gauge their strength and predict their paths. Without computer, global positioning, or satellite support, they relied on rudimentary radar systems to locate the hurricane's eye and estimated the drift of their aircraft by looking at wind-blown waves below. Drawing from Navy documents and interviews with members of the squadron and relatives of the crew, *Stormchasers* reconstructs the ill-fated mission of Windham's crew from preflight checks to the chilling moment of their final transmission.
