Socially Engaged Art after Socialism Izabel

Galliera, 2017-05-30 Reclaiming public life from the ideologies of both communist regimes and neoliberalism: their projects have harnessed the politically subversive potential of social relations based on trust, reciprocity and solidarity. Drawing on archival material and exclusive interviews, in this book Izabel Galliera traces the development of socially engaged art from the early 1990s to the present in Bulgaria, Hungary and Romania. She demonstrates that in the early 1990s projects were primarily created for exhibitions organized and funded by the Soros Centers for Contemporary Art. In the early 2000s, prior to Bulgaria, Hungary and Romania entering into the European Union, EU institutions likewise funded socially conscious public art in the region. Today socially engaged art is characterised by the proliferation of independent and often self-funded artists' initiatives in cities such as Sofia, Bucharest and Budapest. Focusing on the relationships between art, social capital and civil society, Galliera employs sociological and political theories to reveal that while social capital is generally considered a mechanism of exclusion in the West, in post-socialist contexts it has been leveraged by artists and curators as a vital means of communication and action.

The Glass State Annette Fierro, 2003 From the Gothic to the contemporary, glass has transformed the structural, formal and philosophical principles of architecture. In *The Glass State*, Annette Fierro views the many meanings of transparency in architecture. Specifically, she analyzes the transparent monumental buildings that were built in Paris between 1981 and 1988 as part of Francois Mitterand's program of Grands Projets. The Grands Projets provide a rare opportunity to study a finite set of buildings constructed of similar materials in the same time period in a specific urban landscape and with related ideological missions.

The Hero and the Historians Alan Gordon, 2010-07-01 Historians have

long engaged in passionate debate about collective memory and the building of national identities This book focuses on one national hero Jacques Cartier to explore how notions about the past have been created and passed on through the generations and used to present particular ideas about the world in English and French speaking Canada The cult of celebrity surrounding Cartier by the mid nineteenth century Gordon reveals reflected a particular understanding of history one which accompanied the arrival of modernity in North America This new sensibility in turn shaped the political and cultural currents of nation building in Canada Cartier may have been a point of contact between English and French Canadian nationalism but the nature of that contact as Gordon shows had profound limitations The Hero and the Historians is necessary reading for anyone interested in the underlying culture of national identity and national unity in Canada

The Quebec Conference of 1864 Eugénie Brouillet, Alain-G. Gagnon, Guy Laforest, 2018-12-30 Like all major events in Canadian history the Quebec Conference of 1864 an important step on Canada's road to Confederation deserves to be discussed and better understood Efforts to revitalize historical memory must take a multidisciplinary and multicultural approach The Quebec Conference of 1864 expresses a renewed historical interest over the last two decades in both the Quebec Canada constitutional trajectory and the study of federalism Contributors from a variety of disciplines argue that a more grounded understanding of the 72 Quebec Resolutions of 1864 is key to interpreting the internal architecture of the contemporary constitutional apparatus in Canada and a new interpretation is crucial to appraise the progress made over the 150 years since the institution of federalism The second volume in a series that began with *The Constitutions That Shaped Us A Historical Anthology of Pre 1867 Canadian Constitutions* this book reveals a society in constant transition as well as the presence of national projects that live in tension with the Canadian federation

Angels Beneath the Surface Mitja Cander, Tom Priestly, 2008-03-18 With a per capita publishing rate of more than three times that of the United States Slovenia has a long and storied literary history from the legendary 9th century Freising Manuscripts to postmodern masterpieces by Igor Bratoz Continuing that tradition *Angels Beneath the Surface* the first collection of Slovene fiction to be published in English outside of Slovenia since 1994 offers a rich sampling of Slovene short stories The thirteen tales here represent a wide array of voices and writing styles among the country's renowned and emergent writers Written between 1990 and 2005 the selections in *Angels Beneath the Surface* together comprise a vivid snapshot of Slovene literary consciousness at the turn of the millennium These authors mine their culture for often startling insights in stories that range from wicked variations on fairy tales to dour romances to skewerings of the bureaucratic state Recent articles in *The New Yorker* *The New York Times* *Book Review* and other prominent publications attest to renewed interest in European literature in translation and this collection is an incisive entry in the genre
