**Life Explained in 5 Easy Lessons:** Matthew L. Williams, 2024-12-03 This book makes understanding the Bible and God's ways in our life simple clear and logical How could this be Easy God is not arbitrary or capricious in his actions He always follows a few key spiritual laws in his interactions with us Understand God's laws and you will understand him These spiritual laws that embody God's character and guide his actions also show up in nature When God created our material world in anticipation of his creating mankind and all of life he designed it on the model of his own spiritual world The spiritual laws that represent God and his world all have their parallels in the scientific laws found in nature Since the parallels are so extensive we may say that God has given us a second Bible in a gospel of nature filled with all the same teachings we find in the original Bible Indeed you can find the Christian gospel wrapped up in Einstein's famous relativity formula  $E=MC^2$  This is not a shocking new proposition Biblical writers knew this and pointed it out St Paul in Romans 1:20 says Since the creation of the world God's invisible qualities his eternal power and divine nature have been clearly seen being understood from what has been made so that people are without excuse This book will deepen the faith of current believers and prompt non believers to become saved when they see the many proofs of God's existence and the truth of his teachings *You're Not as Crazy as I Thought (But You're Still Wrong)* Phil Neisser, Jacob Hess, 2012-04 A social conservative Provocative informative exchanges for any one who is weary of hyperpartisanship sparked by the likes of pick your favorite from either end of the spectrum this book provides a way forward during the 2012 election cycle Christ's Deity Anastasia Sylvia, 2011-11 Christ's Deity The Deity of the Lord Jesus Christ Truth Myth and Challenges discusses Christ's Deity an issue of life and death a challenging issue of ages that challenges the minds of men and women the mind of anyone who is mature the issue of truth and power and that has caused divisions among believers and among non believers What is the Truth Who holds the Truth Who knows the Truth Where can we find the Truth Christ says Destroy this temple and I will raise it again in three days John 2:19 Heavens and earth will pass away not God's Word Mathew 24:35 I and the Father are one John 10:30 The Lord Jesus says I am the way and the truth and the life No one comes to the Father except through me If you really knew me you would know b my Father as well From now on you do know him and have seen him John 14:6-7 God exists He is Our Creator God loves us God created us in His image Genesis 2:27 God Created Adam and Eve God gave Adam His commands but Adam failed to keep God's commands Adam and Eve disobeyed God they sinned and God punished them Genesis 3:1 Adam caused the Fall of Man God created away out to save Man God did God did But who is this God The LORD Jesus Christ came to earth to save the world He was called Immanuel God with us Matthew 1:23 His birth was predicted and He was Called Wonderful Counselor Mighty God Everlasting Father Prince of Peace Isaiah 9:6 Christ's Deity examines passages in the Scriptures that surround Christ's Deity to help the audience determine the truth about Christ's Deity Is the Lord Jesus Christ God Our Creator *Creation: "Behold, it was very good."* Richard Schaefer, 2019-10-28 Author Richard A Schaefer was a lifelong

communicator fascinated by stories and like any good journalist dug for the facts and verified sources exploring nagging questions such as Is creation or evolution more credible based on science and expert opinions This book truly represented a personal passion of looking at all sides of the CREATION vs EVOLUTION issue He called on many experts and theorists including Charles Darwin himself Surprisingly Darwin was far more skeptical of his own theories than are many PhDs today and admitted to significant holes in his logic Read for yourself as great thinkers explore the pros and cons of both theories and their variants **The Charles Colson Collection: The Good Life / How Now Shall We Live?** Charles

Colson,2017-01-10 This collection bundles two of popular author Chuck Colson s classics into one volume for a great value The Good Life What constitutes the good life Chuck Colson explores the ways in which people define and live the pursuit of happiness Colson uses fascinating real life stories to illustrate the philosophies and worldviews by which individuals seek the good life Colson speaks directly and revealingly about his Watergate years and he examines the beliefs and assumptions that make up the fabric of our lives The Good Life searches for answers to the questions we all ask Who am I Why am I here How can I make my life count How Now Shall We Live True Christianity goes far beyond John 3 16 beyond private faith and personal salvation It is nothing less than a framework for understanding all of reality It is a worldview In How Now Shall We Live the 2000 Gold Medallion winner for best book about Christianity and society Chuck Colson and Nancy Pearcey show that the great spiritual battle today is a cosmic struggle between competing worldviews Through inspiring true stories and compelling teaching they demonstrate how to Expose the false views and values of modern culture Live a more fulfilling life the way God created us to live Contend for the faith by understanding how nonbelievers think Build a society that reflects biblical principles In short How Now Shall We Live will give you the confidence you need to make a difference in the world today and most of all in the lives of people around you **The Case Against Darwin** James Perloff,2002 There is powerful

scientific evidence against Charles Darwin s theory of evolution And the implications are momentous because ever since publication of The Origin of Species in 1859 evolution has been contesting man s traditional ideas about the meaning of life Now however it s Darwin who s on the retreat as facts from diverse branches of science challenge the theory s validity Book jacket Creation Research Society Quarterly Creation Research Society,2003 Evolution Is Wrong Erich von

Däniken,2025-09-12 A Fascinating Exploration on Why the Darwinists Theory No Longer Explains Everything There was once a set of ideas called the theory of evolution conceived by clever people and confirmed by countless scientists Then people discovered the electron microscope This made it possible to make the molecules within the cell visible and suddenly questions about evolution arose that were not possible before Which force actually bundles the atoms in the right order What moves the molecular chains into the correct position How did the first living unit within the cell actually come about How does inheritance work how does information pass on to the next generation Did humans descend only and exclusively from primates as Charles Darwin and countless other great minds assumed or did additional engines intervene in evolution Today

it is clear countless questions can no longer be answered with the previous theory of evolution There is a form of life called Blob Physarum polycephalum The thing has neither eyes nor ears neither a mouth nor a nose or even a brain Nevertheless it takes in food overcomes obstacles by the shortest route and exchanges information with other blobs The blob contradicts any evolutionary thought that one develops from the other Or the gastric brooding frogs Rheobatrachus found in Australia They hatch their young in the stomach Impossible in a slow evolutionary process Everywhere there are characteristics of animals that do not want to fit into the theory of evolution anywhere And man Are we really the most adapted life form on this planet Today more and more scientists who contradict the previous theory of evolution speak out The theory fits the changes within the species but it can no longer be reconciled with the inner workings of the cell Some other influence that has so far escaped us is affecting evolution It is called Intelligent Design Intelligent planning is suspected behind this Anyone or anything a spirit of the universe Aliens could be behind this planning Erich von D niken uses countless examples to demonstrate the impossibility of the previous evolutionary idea He quotes scientists who argue against the previous teaching but also those who defend it Unfortunately established science still refuses to look at discrepancies and holes in the theory of evolution even though it is quite obvious that there is more going on with regard to the development of all species as well as human culture than could be explained by the theory of evolution alone

The Blind Watchmaker: Why the Evidence of Evolution Reveals a Universe without Design Richard Dawkins,2015-09-28 Richard Dawkins s classic remains the definitive argument for our modern understanding of evolution The Blind Watchmaker is the seminal text for understanding evolution today In the eighteenth century theologian William Paley developed a famous metaphor for creationism that of the skilled watchmaker In The Blind Watchmaker Richard Dawkins crafts an elegant riposte to show that the complex process of Darwinian natural selection is unconscious and automatic If natural selection can be said to play the role of a watchmaker in nature it is a blind one working without foresight or purpose In an eloquent uniquely persuasive account of the theory of natural selection Dawkins illustrates how simple organisms slowly change over time to create a world of enormous complexity diversity and beauty
