# The Case For Character Education

**Deborah L. Rhode**

## **The Case For Character Education:**

*The Case for Character Education* Frank G. Goble, B. David Brooks, 1983      *The Case for Character Education* Alan L. Lockwood, 2015-04-18 In this dynamic look at the current state of character education Alan Lockwood assesses its strengths and weaknesses and finds fault with leading advocates for failing to respond to sound critiques of their work Lockwood argues that contemporary character education can be significantly improved by using key principles from established theories and research on developmental psychology He offers numerous examples to support his recommendations while inviting character education theorists and practitioners to generate their own implications from his presentation For anyone interested in improving the quality of values based education for children and adolescents this book Elaborates an alternative view of values education that is critical to pursuing a mission to promote good citizenship Explains what contemporary character education is identifying its strengths and addressing its major criticisms Offers recommendations for curriculum and instruction that systematically take into account developmental perspectives Alan L Lockwood is professor of Curriculum and Instruction at the University of Wisconsin Madison Brimming with fresh insights on almost every page Alan Lockwood challenges contemporary character education's fundamental assumptions and proposes a coherent perspective to guide more defensible and effective programs This is a significant addition to theory and practice in the field of character education James S Leming Carl A Gerstacker Chair in Education Saginaw Valley State University      *The Case for Character Education in Public Schools* Barbara E. Istas, 1995      *Character Education* Ivor Pritchard, 1988      **Character Education** Edward F. DeRoche, Mary M. Williams, 2001 Contemporary schools require far more than just the three R's Beyond the books and tests educational facilities are expected to produce members of society with integrity as well Character education is an abstract idea that many educators both teachers and administrators have a difficult time implementing and too often it gets left out of the curriculum How do school personnel then instill values of good character in students and as an administrator how do you spread these values to the entire school DeRoche and Williams provide school leaders with an effective road map touring schools that have achieved success The authors divide the reader's journey through reform efforts into several tour stops beginning with a review of the character education framework passing through subjects such as school climate core values training personnel forming relationships and concluding with guidelines for evaluation Each stop contains a list of helpful articles or books as well as valuable Internet resources The conclusion of the journey is ultimately the responsibility of school leaders but this book will give you a head start      **Handbook of Moral and Character Education** Larry Nucci, Tobias Krettenauer, 2014-04-24 There is widespread agreement that schools should contribute to the moral development and character formation of their students In fact 80% of US states currently have mandates regarding character education However the pervasiveness of the support for moral and character education masks a high degree of controversy surrounding its meaning and methods The purpose of this handbook is to supplant the prevalent ideological rhetoric of the

field with a comprehensive research oriented volume that both describes the extensive changes that have occurred over the last fifteen years and points forward to the future Now in its second edition this book includes the latest applications of developmental and cognitive psychology to moral and character education from preschool to college settings and much more

**Teaching Character and Virtue in Schools** James Arthur, Kristján Kristjánsson, Tom Harrison, Wouter Sanderse, Daniel Wright, 2016-07-15 Teaching Character and Virtue in Schools addresses the contemporary issues of quantification and measurement in educational settings The authors draw on the research of the Jubilee Centre at the University of Birmingham in order to investigate the concern that the conventional wisdom sound judgement and professional discretion of teachers is being diminished and control mistakenly given over to administrators policymakers and inspectors which in turn is negatively effecting pupils character development The books calls for subject competence to be complemented by practical wisdom and good character in teaching staff It posits that the constituent virtues of good character can be learned and taught that education is an intrinsically moral enterprise and that character education should be intentional organised and reflective The book draws on the Jubilee Centre s expertise in support of its claims and successfully integrates the fields of educational studies psychology sociology philosophy and theology in its examination of contemporary educational practices and their wider effect on society as a whole It offers sample lessons as well as a framework for character education in schools The book encourages the view that character education is about helping students grasp what is ethically important and how to act for the right reasons so that they can become more autonomous and reflective individuals within the framework of a democratic society Particularly interested readers will be educational leaders teachers those undertaking research in the field of education as well as policy analysts with a keen interest in developing the character and good sense of learners today

*Beyond Character Education* Mawi Asgedom, 2009      **Character Education** Wouter Sanderse, 2012 Many teachers want to contribute to children s moral development but this desire has not always resulted in a profound grasp of what moral education really means why it would be desirable and how it can best be achieved This book confronts these questions by examining what Aristotelian virtue ethics can illuminate about moral education At the same time it evaluates whether Aristotelian theory can still be useful for contemporary educational practice The argument culminates in a morally justified and psychologically realistic account of how virtue can best be taught in schools The approach called character education sees moral education not as enforcing rules or transferring values in separate subjects Instead it encourages teachers to be a morally exemplary teacher which is revealed through all kinds of small decisions and emotional reactions This philosophical essay takes a constructive but critical stance towards empirical research about the effectiveness of teaching methods and the realism of character traits      Understanding Character Education: Approaches, Applications and Issues Paul Watts, Michael Fullard, Andrew Peterson, 2021-08-31 Understanding Character Education introduces readers to the key ideas practices and concepts that are shaping character education in schools today The book explores the principles underpinning character

education and the pedagogical practices which ensure it comes alive in schools Each chapter includes a variety of features to help navigate through the ideas themes and practices examined These include Chapter objectives to help readers understand the core focus and intentions of each chapter Reflective activities to help readers to think more deeply about particular ideas and issues and to consider how practices described are or could be applied in their own contexts Case studies to help readers to understand how character education is approached and implemented by educators in and beyond schools Annotated further readings to help readers take a closer and more detailed look at the methods applications and issues covered This book is essential reading for all those involved in the teaching and learning of young people as well as those studying this vital topic on education studies teacher education and postgraduate level courses Highly recommended for all leaders and practitioners dedicated to enabling children and young people to flourish through the development of good character Tom Haigh CEO Association for Character Education I wish Chapter 2 The Character of the Teacher was made a compulsory read for every person working in a UK school that would be transformational Nat Parnell Regional Director United Learning A must read for all trainee teachers of any phase Catherine Carden Director of Learning and Teaching Faculty of Arts Humanities Education Canterbury Christ Church University UK Paul Watts is a Lecturer at the Jubilee Centre for Character and Virtues University of Birmingham UK He has worked closely with school leaders and teachers in the research and development of character education Michael Fullard is a Research Fellow at the Jubilee Centre for Character and Virtues University of Birmingham UK having previously been a primary school teacher in the UK for 9 years Andrew Peterson is Professor of Character and Citizenship Education at the Jubilee Centre for Character and Virtues University of Birmingham UK He has worked with a number of schools to develop their approaches to character education

*Character Education in America's Blue Ribbon Schools* Madonna M. Murphy, 2002 Character Education in America's Blue Ribbon Schools is based upon descriptive documentary and qualitative research conducted on the award winning school applications in the United States Department of Education's Elementary School Recognition Program i.e. the Blue Ribbon Schools The purpose of the program is to focus national attention on schools that are doing an exceptional job with all of their students Areas studied are developing a solid foundation of basic skills and knowledge of subject matter and fostering the development of character values and ethical judgement The first edition of this book reported on the first decade of this program from 1985 to 1994 The second edition adds the schools that have won the award from 1996-2001 Included are the Blue Ribbon schools that applied for Special Honors in Character Education and five that actually won that recognition in 1998-1999 This edition finds character education much stronger in American schools in recent years and is full of many promising practices It is a practical book that will guide school administrators teachers parents board members and concerned citizens interested in starting or strengthening the character education focus of their school

**Journal of Character Education** Jacques S. Benninga, Marvin W Berkowitz, 2021-04-01 Sample Chapters FOR THE BETTER Marvin W Berkowitz University of Missouri St

Louis THE OVERLOOKED INEQUITY Eric Schaps The Journal of Character Education is the only professional journal in education devoted to character education It is designed to cover the field from the latest research to applied best practices We include original research reports editorials and conceptual articles by the best minds in our field reviews of the latest books and other relevant strategies and manuscripts by educators that describe best practices in teaching and learning related to character education The Journal of Character Education has for over a decade been the sole scholarly journal focused on research theory measurement and practice of character education In this issue of the Journal of Character Education we return to something foundational and introduce something new The foundational element is a set of six independent scholarly manuscripts by a mix of emerging and established scholars We are pleased to introduce a new feature of the Journal of Character Education in this issue namely a section we are calling simply Opinion We began the JCE with an exclusive focus on publishing scholarship because there was no scholarly journal that focused on character education Over time we realized that we wanted to speak about practice and particularly to practitioners as well Hence we created a section we call Voices to present innovations and perspectives representing the voices of exemplary practitioners of character education Now we introduce the Opinion section that will allow us to publish perspectives from leading authorities in the field that might be more provocative We would love to hear responses to either or both opinion articles and are working on plans to share such responses perhaps on one of our related websites At this point we plan on publishing more opinion articles and for now by invitation However we are always willing to consider unsolicited articles for possible inclusion in the JCE

The Discourse of Character Education Peter Smagorinsky, Joel Taxel, 2005-05-06 In this book Peter Smagorinsky and Joel Taxel analyze the ways in which the perennial issue of character education has been articulated in the United States both historically and in the current character education movement that began in earnest in the 1990s The goal is to uncover the ideological nature of different conceptions of character education The authors show how the current discourses are a continuation of discourse streams through which character education and the national purpose have been debated for hundreds of years most recently in what are known as the Culture Wars the intense often passionate debates about morality culture and values carried out by politicians religious groups social policy foundations and a wide range of political commentators and citizens in which the various stakeholders have sought influence over a wide range of social and economic issues including education The centerpiece is a discourse analysis of proposals funded by the United States Department of Education's Office of Educational Research and Improvement OERI Discourse profiles from sets of states that exhibit two distinct conceptions of character are examined and the documents from particular states are placed in dialogue with the OERI Request for Proposals One profile reflects the dominant perspective promoted in the U S based on an authoritarian view in which young people are indoctrinated into the value system of presumably virtuous adults through didactic instruction The other reflects the well established yet currently marginal discourse emphasizing attention to the whole

environment in which character is developed and enacted and in which reflection on morality rather than didactic instruction in morality is the primary instructional approach By focusing on these two distinct regions and their conceptions of character the authors situate the character education movement at the turn of the twenty first century in the context of historical notions about the nature of character and regional conceptions regarding the nature of societal organization This enlightening volume is relevant to scholars practitioners policymakers and students across the field of education particularly those involved in character education moral development discourse analysis history and cultural foundations of education and related fields and to the wider public interested in character education Reel Character Education William B.

Russell, Stewart Waters, 2010-10-01 Values attitudes and beliefs have been depicted in movies since the beginning of the film industry Educators will find this book to be a valuable resource for helping explore character education with film This book includes an overview of the history of character education a discussion of how to effectively teach with film and a discussion about analyzing film for educational value This book offers educators an effective and relevant method for exploring character education with today's digital and media savvy students This book details how film can be utilized to explore character education and discusses relevant legal issues surrounding the use of film in the classroom Included in this book is a filmography of two hundred films pertaining to character education The filmography is divided into four chapters Each chapter details fifty films for a specific educational level elementary middle high school and postsecondary Complete bibliographic information summary and applicable character lesson topics are detailed for each film This book is clearly organized and expertly written for educators and scholars at the elementary middle high school and postsecondary levels

**Character** Deborah L. Rhode, 2019-08-02 Americans claim to care about character Over four fifths want it taught in public schools and 95 percent think that a president's character is important And historically philosophers educators politicians religious leaders judges and the general public have agreed that character should be valued and reinforced Yet in the United States the institutions charged with that mission have consistently fallen short Simply put too little effort has been made to understand the importance of character and the strategies that can best develop and support it After first exploring the history of the concept over time Deborah Rhode turns her focus to the institutions that have traditionally fostered good character families schools youth organizations civic groups and political organizations However as we have increasingly de-emphasized the subject a trend that is most evident in our politics our awareness of its shaping influence has waned Indeed we often focus on the wrong things when it comes to fostering good character For instance almost a third of the workforce is covered by licensing laws requiring good moral character even occupations where the need for screening is not self-evident florist fortune teller and frog farmers Character also plays a pivotal role in the criminal justice system in defining guilt punishment and eligibility for parole All too often these legal requirements are idiosyncratic inequitable and subject to race and class bias Millions of Americans who have convictions for minor offenses are excluded from a vast range of occupations

and benefits without evidence that such exclusion serves the public interest We can do better she stresses and outlines a powerful program for reform Rhode punctuates the book through a series of portraits of exemplary individuals whose good character made them who they were Ida B Wells Jane Addams Martin Luther King Mother Teresa Nelson Mandela Albert Schweitzer and Thurgood Marshall All of these individuals had flaws but through their commitments to both social justice and helping the less fortunate they all demonstrate the power and importance of strong character     **Leading Character Education in Schools** Matt Walker,2017     **Bringing in a New Era in Character Education** William Damon,2013-09-01

The educational system in the United States has ended its failed experiment with separating the intellectual from the moral Schools from K 12 to colleges and universities are increasingly paying attention to students values and character But how can we ensure this new era in character education makes the right kind of difference to young people What obstacles in our current educational system must we overcome and what new opportunities can we create This anthology offers unique perspectives on what is needed to make character education an effective lasting part of our educational agenda Each chapter points out the directions that character education must take today and offers strategies essential for progress The expert contributors reveal why relativism has threatened the moral development of young people in our time and how we can pass core values down to new generations of students in ways that will elevate their conduct and their life goals And they show the critical importance of reestablishing student morality and character as targets of higher education s central mission Perhaps most important they clarify the necessity of authority in any moral education endeavor and show how it is a powerful force for developing personal freedom and building character     Character Education Donald R. Glover, Leigh Ann Anderson,2003 Combines character education and physical education in forty three community building fitness activities that meet NASPE standards and includes reproducible forms for portfolio assessment     Educating Character Through Stories David Carr,Tom Harrison,2015-01-14 What could be the point of teaching such works of bygone cultural and literary inheritance as Cervantes Don Quixote and Shakespeare s The Merchant of Venice in schools today This book argues that the narratives and stories of such works are of neglected significance and value for contemporary understanding of human moral association and character However in addition to offering detailed analysis of the moral educational potential of these and other texts the present work reports on a pioneering project recently pursued by the Jubilee Centre for Character and Virtues concerned precisely with the use of these and other stories for moral and character education in schools The success of the Knightly Virtues project is an inspiring story in its own right and should therefore be of enormous interest to all schools teachers and parents rightly concerned with this all important aspect of their children s educational development

Handbook of Child Psychology, Child Psychology in Practice William Damon,Richard M. Lerner,K. Ann Renninger,Irving E. Sigel,2007-07-30 Part of the authoritative four volume reference that spans the entire field of child development and has set the standard against which all other scholarly references are compared Updated and revised to reflect the new

developments in the field the Handbook of Child Psychology Sixth Edition contains new chapters on such topics as spirituality social understanding and non verbal communication Volume 4 Child Psychology in Practice edited by K Ann Renninger Swarthmore College and Irving E Sigel Educational Testing Service covers child psychology in clinical and educational practice New topics addressed include educational assessment and evaluation character education learning disabilities mental retardation media and popular culture children s health and parenting
