included Mark's Gospel John Painter, 2005-06-20 Mark's biography of Jesus is the earliest of the four gospels and influenced them all. The distinctive feature of this biography is the quality of good news which presupposes a world dominated by the forces of evil. John Painter shows how the rhetorical and dramatic shaping of the book emphasises the conflict of good and evil at many levels between Jesus and the Jewish authorities, Jesus and the Roman authorities, and the conflict of values within the disciples themselves. These matters of content are integral to this original approach to Mark's theodicy while the stylistic issue raises the question of Mark's intended readership. John Painter's succinct yet thorough treatment of Mark's gospel opens up not only these rhetorical issues but the social context of the gospel which Painter argues to be that of the Pauline mission to the nations.

The Date of Mark's Gospel James G. Crossley, 2004-06-15 This book argues that Mark's gospel was not written as late as c. 65-75 CE but dates from sometime between the late 30s and early 40s CE. It challenges the use of the external evidence such as Irenaeus and Clement of Alexandria often used for dating Mark, relying instead on internal evidence from the gospel itself. James Crossley also questions the view that Mark 13 reflects the Jewish war, arguing that there are other plausible historical settings. Crossley argues that Mark's gospel takes for granted that Jesus fully observed biblical law and that Mark could only make such an assumption at a time when Christianity was largely law observant and this could not have been later than the mid 40s from which point on certain Jewish and gentile Christians were no longer observing some biblical laws e.g. food Sabbath.

Mark's Other Gospel Scott G. Brown, 2006-01-01 Did the evangelist Mark write two versions of his gospel? According to a letter ascribed to Clement of Alexandria, Mark created a second, more spiritual edition of his gospel for theologically advanced Christians in Alexandria. Clement's letter contains two excerpts from this lost gospel, including a remarkably different account of the raising of Lazarus. Forty-five years of cursory investigation have yielded five mutually exclusive paradigms: abundant confusion and rumours of forgery. Strangely, one of the few things upon which most investigators agree is that the letter's own explanation of the origin and purpose of this longer gospel need not be taken seriously. Mark's Other Gospel: Rethinking Morton Smith's Controversial Discovery calls this pervasive bias into question. After thoroughly critiquing the five main paradigms, Scott G. Brown demonstrates that the gospel excerpts not only sound like Mark but also employ Mark's distinctive literary techniques, deepening this gospel's theology and elucidating puzzling aspects of its narrative. This mystic gospel represents Mark's own response to the Alexandrian predilection to discover the essential truths of a philosophy beneath the literal level of revered texts.

Mark's Gospel: An Actological Reading Malcolm Torry, 2022-05-19 This might look like an ordinary commentary on Mark's Gospel, but it isn't one. It understands reality as Action: actions change diversity, movement and the dynamic rather than as Being: beings, the unchanging, the unitary, rest and the static. It reads Mark's Gospel in the light of that distinctive understanding of reality. It is all about action, change and diversity, and it understands God, Jesus, and ourselves as action, change and diversity. The initial chapter introduces the action

based understanding of reality as action in changing patterns an actology rather than an ontology Then follows a section by section close study of the Gospel The result is a unique and somewhat unexpected reading of the text and a distinctive theology to match
