The Caste And Class Controversy:

The Caste and Class Controversy Charles Vert Willie, 1979 **An Introduction to Classical and Contemporary Social Theory** Berch Berberoglu, 2005-07-14 This book provides a much needed critical perspective for an analysis of the works of some of the major classical and contemporary social theorists of the late nineteenth and twentieth centuries Designed to stimulate interest in the beginning sociology student to examine the critical issues raised by these theorists the book is intended as a text in introductory sociology and social theory courses to further familiarize students with the perspectives of some of the most prominent social theorists of our time The twenty one chapters that make up this book were designed to be brief concise and to the point expressed whenever possible in the words of the theorists themselves so that the central ideas can be presented in their original form In this sense this brief introductory theory book serves as an initial stepping stone to more in depth analysis of theorists usually covered in more advanced social theory texts **Social Theory** Berch Berberoglu, 2017-01-06 Social Theory provides a sophisticated yet highly accessible introduction to classical and contemporary social theories The author s concise presentation allows students and instructors to focus on central themes The text lets theorists speak for themselves presenting key passages from each theorist s corpus bringing theory to life The approach allows instructors the opportunity to help students learn to unpack sometimes complex prose just as it offers inroads to class discussion Chapters on Addams and early feminism on Habermas and the Frankfurt School on Foucault and on globalization and social movements round out contemporary coverage The book presents and explains key theories just as it provides an introduction to central debates about them Theories of Human Social Action Charles V. Willie, 1994 To find more information about Rowman Littlefield titles please visit us at www.rowmanlittlefield.com **Class and Class Conflict in the Age of Globalization** Berch Berberoglu, 2009-01-01 Dealing with a central issue of our time Class and Class Conflict in the Age of Globalization provides a critical analysis of the major theories of social class and inequality and an empirical examination of the development of social classes and class conflict on a global scale historically and today including an understanding of the process of social change and social transformation **Black Conservative Intellectuals in Modern America** Michael L. Ondaatje, 2011-11-29 In the last three decades a brand of black conservatism espoused by a controversial group of African American intellectuals has become a fixture in the nation s political landscape its proponents having shaped policy debates over some of the most pressing matters that confront contemporary American society Their ideas though have been neglected by scholars of the African American experience and much of the responsibility for explaining black conservatism s historical and contemporary significance has fallen to highly partisan journalists Typically those pundits have addressed black conservatives as an undifferentiated mass proclaiming them good or bad right or wrong color blind visionaries or Uncle Toms In Black Conservative Intellectuals in Modern America Michael L Ondaatje delves deeply into the historical archive to chronicle the origins of black conservatism in the United States from the early 1980s to

the present Focusing on three significant policy issues affirmative action welfare and education Ondaatje critically engages with the ideas of nine of the most influential black conservatives He further documents how their ideas were received both by white conservatives eager to capitalize on black support for their ideas and by activists on the left who too often sought to impugn the motives of black conservatives instead of challenging the merits of their claims While Ondaatje's investigation uncovers the themes and issues that link these voices together he debunks the myth of a monolithic black conservatism Figures such as Supreme Court Justice Clarence Thomas the Hoover Institution's Thomas Sowell and Shelby Steele and cultural theorist John McWhorter emerge as individuals with their own distinct understandings of and relationships to the conservative political tradition

Race and Morality Melvyn L. Fein,2001-06-30 After I had finished my presentation a colleague and I sat rocking on the hotel porch to discuss its merits It was a picture perfect fall day in Jekyll Island Georgia and he was a friend Yes he explained what I was saying seemed to be true And yes it probably needed to be said but why did I want to be the one to say it Wasn't I after all a tenured professor who didn't need to make a fuss in order to retain his job Didn't it make sense to just kick back and enjoy the easy life I had earned The topic of our tête à tête was my speculations about race relations and he was certain that too much honesty could only get me in trouble Given my lack of political correctness people were sure to assume that I was a racist and not give me a fair hearing This was a prospect I had previously contemplated Long before embarking on this volume I had often asked myself why I wanted to write it The ideological fervor that dominates our public dialogue on race guaranteed that some people would perceive me as a dangerous scoundrel who had to be put in his place

Class and Inequality in the United States Berch Berberoglu,2024-09-18 Highlighting the need to find solutions for current problems in American society moving forward Berch Berberoglu provides a captivating read for anyone interested in understanding how working people today can have a lasting impact on a better and more equitable society in the future

Race and Ethnicity: Debates and controversies Harry Goulbourne,2001

The Grammar of Caste Ashwini Deshpande,2011-08-03 Is the caste system disappearing Are traditional hierarchies being replaced by competing equalities Do globalization and liberalization automatically result in diminishing disparities Are modern labour markets intrinsically meritocratic and efficient Challenging the dominant discourse and demolishing various myths this book provides answers to these and other critical questions on caste in its contemporary avatar Linking the economics of caste with its politics sociology and history this innovative book provides a stimulating assessment of continuities and changes in caste disparities over the last two decades Deshpande uses rich empirical data to uncover how contemporary formal urban sector labour markets reflect a deep awareness of caste religious gender and class cleavages She convincingly argues that discrimination is neither a relic of the past nor is it confined to rural areas but is very much a modern formal sector phenomenon This insightful book is an important step

towards a multidisciplinary dialogue for understanding and mitigating inequalities based on birth and descent

The American Dream and the Power of Wealth Heather Beth Johnson, 2014-11-20 Despite the overwhelming evidence against them many people still believe they can overcome the economic and racial constraints placed upon them at birth In the first edition Heather Beth Johnson explored this belief in the American Dream with over 200 in depth interviews with black and white families highlighting the ever increasing racial wealth gap and the actual inequality in opportunities This second edition has been updated to make it fully relevant to today s reader with new data and illustrative examples including twenty new interviews Johnson asks not just what parents are thinking about inequality and the American Dream but to what extent children believe in the American Dream and how they explain justify and understand the stratification of American society This book is an ideal addition to courses on race and inequality

Why America Lost the War on Poverty--And How to Win It Frank Stricker, 2011-02-01 In a provocative assessment of American poverty and policy from 1950 to the present Frank Stricker examines an era that has seen serious discussion about the causes of poverty and unemployment Analyzing the War on Poverty theories of the culture of poverty and the underclass the effects of Reaganomics and the 1996 welfare reform Stricker demonstrates that most antipoverty approaches are futile without the presence or creation of good jobs Stricker notes that since the 1970s U S poverty levels have remained at or above 11% despite training programs and periods of economic growth The creation of jobs has continued to lag behind the need for them Stricker argues that a serious public debate is needed about the job situation social programs must be redesigned a national health care program must be developed and economic inequality must be addressed He urges all sides to be honest if we don t want to eliminate poverty then we should say so But if we do want to reduce poverty significantly he says we must expand decent jobs and government income programs redirecting national resources away from the rich and toward those with low incomes

Why America Lost the War on Poverty And How to Win It is sure to prompt much needed debate on how to move forward

Race, Ethnicity, and Socioeconomic Status Charles Vert Willie, 1983 Providing an adequate conceptual apparatus for the explanation and interpretation of behavior associated with race ethnicity and socioeconomic status is the goal of this book Empirical research findings and their theoretical analysis are linked E Franklin Frazier recognized minorities as mirrors of their society He hypothesized that study of their adaptations would provide a clearer understanding of the relation of human motivation to culture Race Ethnicity and Socioeconomic Status confirms the Frazier hypothesis and extracts from studies of blacks and other racial and ethnic minority populations propositions applicable to majority as well as minority groups Theses studies of intergroup relations were conducted during the past 25 years and provide a perspective on changing patterns of contact between cultural groups in the United States Adaptations associated with race ethnicity and socioeconomic status are analyzed from the perspective of sociology as a science of humanity Historical trends as well as contemporary situations are considered social psychological and geographical factors are researched as contextual variables in intergroup relations By

analyzing demographic data pertaining to mortality disease delinquency and poverty the varying contributions to the human condition of individual attributes group customs and institutional regulations are ascertained Institutional and community studies illuminate the prides fears and prejudices of dominant and subdominant groups particularly with reference to racial and ethnic relations in education Also identified in these studies are the rights and responsibilities of such groups toward each other in social interaction
