The Cavalry Manual of Horse Management Frederick L. Devereux, 1979-01-01 *Cavalry Manual of Horse Management* Frederick Devereux, 1985-06-01 [The Medieval Horse and Its Equipment, C.1150 - C.1450](#) John Clark, 2004

A Way Across the Mountain Scott Stine, 2015-09-22 From July to November 1833 Joseph R Walker led a brigade of fifty eight fur trappers with two hundred horses and a year's provisions from the Rocky Mountains of Wyoming to the Pacific coast of central California. Toward the end of their journey the Walker brigade crossed the Sierra Nevada becoming the first non Native people to traverse the range from east to west. That crossing made long and brutal by bewildering terrain and deep snow is widely and rightly considered a milestone in the exploration of intermontane North America. Following Walker's death in 1876 an alluring tale arose concerning his trans Sierran route. In the course of the crossing goes the story Walker found himself on the northern rim of Yosemite Valley at the plungepoint of North America's tallest waterfall staring into the most awesome mountain chasm on the continent. Over the decades since then this time honored tale has hardened to folklore. Dozens of historical works have construed it as a towering moment in the opening of the West. But in fact this tale of Yosemite's discovery has no basis or support in firsthand accounts of the 1833 Sierran crossing. Moreover there is much in those accounts that contradicts Yosemite lore and much that points to a trans Sierran route well north of Yosemite Valley. In *A Way Across the Mountain* Scott Stine reconstructs Walker's 1833 route over the Sierra. Stine draws on his own intimate knowledge of the geomorphology hydrography biogeography and climate of the Sierra Nevada and Great Basin and employs the detailed travel narrative of the Walker brigade's field clerk Zenas Leonard. Stine documents the inception growth and persistence of the Yosemite Myth and explores the extent to which that lore has overshadowed Walker's greatest discovery that the huge swath of continent between the Wasatch Front and the Sierran crest is hydrographically closed draining not to an ocean but to salty lakes and desert sands. *Environmental management and organisations* The Open University, This 15 hour free course explored what is meant by environmental management how it applies to organisations and how it might be put into practice. **Professional Journal of the United States Army**, 1980 *Riders of a Certain Age* Fran

Glenn Bugh provides a comprehensive discussion of a subject that has not been treated in full since the last century the history of the Athenian cavalry Integrated into a narrative history of the cavalry from the Archaic period through the Hellenistic age is a detailed analysis of a military and social organization the members of which came predominantly from the upper classes of Athens Bugh demonstrates that this organization was not merely a military institution but an aristocratic social class with political expectations and fluctuating loyalties to the Athenian democracy The last major work devoted exclusively to the subject appeared in French in 1886 and predated the publication of Aristotle s Constitution of the Athenians which provides valuable information not only on the administration of the Athenian cavalry but also on the democracy that financed it Furthermore since the 1930s the American excavations of the Athenian marketplace and the German excavations of the ancient cemetery have yielded unparalleled epigraphical evidence pertaining to the Athenian cavalry particularly in the areas of personnel and administration Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting
