Mexican Labor and World War II Erasmo Gamboa, Kevin Leonard, 2015-09-01 Although Mexican migrant workers have toiled in the fields of the Pacific Northwest since the turn of the century and although they comprise the largest work force in

the region's agriculture today they have been virtually invisible in the region's written labor history Erasmo Gamboa's study of the bracero program during World War II is an important beginning describing and documenting the labor history of Mexican and Chicano workers in Oregon Washington and Idaho and contributing to our knowledge of farm labor Oregon Historical Quarterly *Seattle in Coalition* Diana K. Johnson, 2023-02-14 In the fall of 1999 the World Trade Organization WTO prepared to hold its biennial Ministerial Conference in Seattle The event culminated in five days of chaotic political protest that would later be known as the Battle in Seattle The convergence represented the pinnacle of decades of organizing among workers of color in the Pacific Northwest yet the images and memory of what happened centered around assertive black bloc protest tactics deployed by a largely white core of activists whose message and goals were painted by media coverage as disorganized and incoherent This insightful history takes readers beyond the Battle in Seattle and offers a wider view of the organizing campaigns that marked the last half of the twentieth century Narrating the rise of multiracial coalition building in the Pacific Northwest from the 1970s to the 1990s Diana K Johnson shows how activists from Seattle's Black Indigenous Chicano and Asian American communities traversed racial regional and national boundaries to counter racism economic inequality and perceptions of invisibility In a city where more than eighty five percent of the residents were white they linked far flung and historically segregated neighborhoods while also crafting urban rural multiregional and transnational links to other populations of color The activists at the center of this book challenged economic and racial inequality the globalization of capitalism and the white dominance of Seattle itself long before the WTO protest Latino America Mark Overmyer-Velázquez, 2008-10-30 A Hispanic and Latino presence in what is now the United States goes back to Spanish settlement in the sixteenth century in Florida and the progressive U S conquest of the Spanish controlled territory of California and the Southwest by 1853 and the Gadsden Purchase Mexicans in this newly American territory had to struggle to hold on to their land The overlooked history and the debates over new immigration from Mexico and Central America are illuminated by this first state by state history of people termed Latinos or Hispanics Much of this information is hard to find and has never been researched before Students and other readers will be able to trace the Latino presence through time per state through a chronology and historical overview and read about noteworthy Latinos in the state and the cultural contributions Latinos have made to communities in that state Taken together a more complete picture of Latinos emerges The information allows understanding of the current status where the Latino presence is now what types of work they are doing and how they are faring in places with only a small Latino presence All 50 states and the District of Columbia are covered in individual chapters A chronology starts the chapter giving the main dates of Latino presence and important events and population figures The historical overview is the core of the chapter The cast of Latino presence and how they have made their livelihood along with relations with non Latinos are discussed A Notable Latinos section then provides a number of short biographical profiles Cultural contributions are showcased in the final section followed by a bibliography A

selected bibliography and photos complement the chapters
