The Child Is Father Of The Man How Humans Learn And Why:

The Unfinished Revolution John Abbott, Terry Ryan, 2001 If you believe it is possible for communities schools parents and businesses to come together around helping all children become lifelong learners then read this book In *The Unfinished Revolution* authors John Abbott and Terry Ryan argue that the so called crisis in education is really a crisis in childhood and that the unit of change is not the school but rather the larger community Drawing on their experiences of working with schools community leaders researchers parents and business leaders in the United States the United Kingdom and Canada the authors show how current models of education based on ideas about learning from the industrial age cannot by themselves bring out the full potential of all children They maintain that the schools we have inherited from the industrial age are structured to develop a mass of students who at best are equipped with basic skills and the ability to follow orders but only a small cadre of creative lifelong learners To create learning environments that help all children take control of their own learning the authors propose a constructivist and apprentice based approach that takes full account of our current understanding about how humans actually learn They urge going with the grain of the brain as a way of breaking down today's highly partitioned system of education Abbott and Ryan make the case that communities have the power to help education blend into a seamless web in which learning opportunities permeate the entire culture This form of dynamic learning will not be seen as a system but rather as a way of life Learning will be something that we all recognize encourage and actively support through formal education community participation and the power of the connected world of information communication and technology A utopian vision No The authors describe societies undergoing a revolution in thinking and working that despite disruptions offers ways to cope with ongoing social political and economic changes This revolution is unfinished as long as education systems lag behind these larger transformations In this book the authors address that lag by charting a course across disciplines to connect learning to what happens outside the classroom ultimately producing lifelong learners who can take full advantage of today's increasingly open and dynamic societies **The Child is Father of the**

Man John Abbott, 1999 [The Philosophy of Maria Montessori: What It Means to Be Human](#) Robert Buckenmeyer Ph.D., 2009-08-28 Dr Maria Montessori opened the first Casa dei Bambini Childrens House on 6 January 1907 in San Lorenzo Rome Through her observations and work with these children she discovered their astonishing almost effortless ability to learn Thus began a century of great work uncovering the true nature of childhood Times have changed and science has made great progress and so has our work but our principles have only been confirmed and along with them our conviction that mankind can hope for a solution to its problems among which the most urgent are those of peace and unity only by turning its attention and energies to the discovery of the child and to the development of the great potentialities of the human personality in the course of its formation Dr Montessori from the forward to *The Discovery of the Child* Poona 1948 **What and Where is God? A Human Answer to the Deep Religious Cry of the Modern Soul** Richard La Rue Swain, 2022-09-04

In the thought provoking treatise *What and Where is God A Human Answer to the Deep Religious Cry of the Modern Soul* Richard La Rue Swain delves into the profound existential questions that have perplexed humanity for eons Captivating in its literary style the work seamlessly weaves philosophical inquiry with theological exploration reflecting the author's adept engagement with the spiritual quandaries of his era Embedded within its meticulously reconstructed text by DigiCat Publishing the book remains an evocative piece that resonates with contemporary seekers of truth serving as a testament to the enduring nature of humankind's search for the divine Richard La Rue Swain emerges as a scholar deeply attuned to the spiritual tumult of his time channeling his insights into a narrative that grapples with the nature of God in the context of human experience His profound contemplation stems from an astute observation of the zeitgeist possibly influenced by the accelerating secularization and the consequent vacuum felt within the souls of modern individuals Swain's personal journey and scholarly pursuits likely provided the fertile ground from which this seminal work sprouted *What and Where is God* is highly recommended for readers drawn to the intersections of theology philosophy and the human condition It stands as an essential read for those aspiring to grasp the essence of spirituality through a humanistic lens Swain's intellectually rich prose invites reflection engaging one's own beliefs whilst providing a compassionate response to the existential dilemmas faced by many today This carefully resurrected classic by DigiCat Publishing warrants recognition and contemplation offering wisdom that transcends the temporal bounds of its original publication

The Message of the Son of Man Edwin A. Abbott,2023-12-23 The present treatise invites the general reader to take a brief and comprehensive view of the results of a long and detailed investigation into the meaning of Christ s self appellation in which the investigator starts from the hypothesis that Jesus was more likely to be influenced by the jewish scriptures than by the Jewish apocrypha The latter should certainly be called in to our aid but in the author s judgment not until the former have been fully utilized IF we had to select from the gospels two or three phrases that seemed fittest to give a clue to the meaning of Christ s deepest doctrine the Son of Man would seem to claim a place in the selection It is applied to Christ in all the four gospels and that frequently and near the end as well as near the beginning of His career It never proceeds from a friend never from an enemy never from an evangelist or neutral relator but practically always from our Lord Himself This self appellation is connected sometimes with a claim to authority sometimes with a recognition that the Claimant has been rejected sometimes with predictions that He is destined to suffer and to die and to be raised up sometimes with descriptions of a future Coming in glory If we could understand why He chose this unvarying title to describe Himself amid such various circumstances we might gain more insight into His conception of the nature of His mission The Sunday School Journal ,1906
