family crisis In the short time since the crisis has only become more acute Arlie Russell Hochschild bestselling author of *The Second Shift* spent three summers at a Fortune 500 company interviewing top executives secretaries factory hands and others What she found was startling Though every mother and nearly every father said family comes first few of these working parents questioned their long hours or took the company up on chances for flextime paternity leave or other family friendly policies Why not It seems the roles of home and work had reversed work was offering stimulation guidance and a sense of belonging while home had become the place in which there was too much to do in too little time Today Hochschild's findings are more relevant than ever As she shows in her new introduction the borders between family and work have become even more permeable With the Internet extending working hours at home and offices offering domestic enticements free snacks soft music to keep employees later at their jobs *The Time Bind* stands as an increasingly important warning about the way we live and work

Enchanted Maidens James M. Taggart,2021-03-09 Spanish villagers tell many folktales that describe in metaphorical language the struggles of young men and women as they emerge from their parental families and join in love In this book James Taggart presents dozens of orally transmitted tales including Snow White Cinderella Beauty and the Beast Blancaflor and dragonslayer stories collected from seven villages in the region of CNBceres and analyzes the differences in male and female approaches to telling them His study shows how men and women use the tales to grapple with some of the contradictions found in gender relations in their culture which conditions men to be sexually assertive and to marry virgins and which teaches women to fear the men who court them Taggart interprets the male female dialogue voiced through storytelling by linking the content of specific tales to the life experiences and gender of the storyteller Men and women he finds carry out an exchange of ideas by retelling the same stories and altering the plots and characters to express their respective views of courtship This indirect narrative dialogue conveys an understanding of the opposite sex and establishes a common model of marriage that permits men and women to overcome their fear of each other and bond in heterosexual love
