**Account of the History of Buddhism in China** Thomas Jülch, 2019-04-09 The *Fozu tongji* by Zhipan, ca. 1220-1275, is a key text of Chinese Buddhist historiography. In the present volume, Thomas Jülch presents his translation of the first five juan of the massive annalistic part. Rich annotations clarify the backgrounds to the historiographic contents presented by Zhipan in a highly essentialized style. For the historical traditions, the sources Zhipan refers to are meticulously identified. In those cases where the accounts presented are inaccurate or imprecise, Jülch points out how the relevant matter is depicted in the sources. Zhipan relies on. With this carefully annotated translation of *Fozu tongji*, juan 34-38, Thomas Jülch enables an in-depth understanding of a key text of Chinese Buddhist historiography. *Buddha: His Life, His Teachings, His Order* Manmatha

Nath Dutt, 1901 **Buddhist Historiography in China** John Kieschnick, 2022-07-29 Winner 2023 Toshihide Numata Book Award. Numata Center for Buddhist Studies at the University of California, Berkeley. Since the early days of Buddhism in China, monastics and laity alike have expressed a profound concern with the past. In voluminous historical works, they attempted to determine as precisely as possible the dates of events in the Buddha's life, seeking to iron out discrepancies in varying accounts and pinpoint when he delivered which sermons. Buddhist writers chronicled the history of the Dharma in China, as well as compiling biographies of eminent monks and nuns and detailing the rise and decline in the religion's fortunes under various rulers. They searched for evidence of karma in the historical record and drew on prophecy to explain the past. John Kieschnick provides an innovative, expansive account of how Chinese Buddhists have sought to understand their history through a Buddhist lens. Exploring a series of themes in mainstream Buddhist historiographical works from the fifth to the twentieth century, he looks not so much for what they reveal about the people and events they describe as for what they tell us about their compilers' understanding of history. Kieschnick examines how Buddhist doctrines influenced the search for the underlying principles driving history, the significance of genealogy in Buddhist writing, and the transformation of Buddhist historiography in the twentieth century. This book casts new light on the intellectual history of Chinese Buddhism and on Buddhists' understanding of the past. **The History of Chinese Buddhist Bibliography: Censorship and**

**Transformation of the Tripitaka** Tanya Storch, 2014-03-25 This clearly organized, well-researched book on the medieval catalogs of Buddhist writings in China illuminates the shaky foundations of modern Buddhist research. Storch exposes how the Chinese Buddhist corpus was shaped and even censored by generations of catalogers, the guardians of the canon. At the same time, Storch probes the catalogs for what they reveal about standards of authenticity, the assignment of value to some

scriptures over others and the history of books libraries and learning in pre modern China Moreover Storch argues convincingly that the history of Chinese Buddhist catalogs should be incorporated into comparative discussions of scripture and canon in world history As the first general study of Chinese Buddhist bibliography in English by an author who demonstrates a thorough command of the material this book is the first place scholars should turn to for information about the structure and formation of the Chinese Buddhist canon This book deserves a place on the bookshelf of every specialist in pre modern Chinese Korean and Japanese Buddhism John Kieschnick Stanford University This volume brings forward the importance of the cataloging of the many versions of the Chinese Buddhist canon Given that these compilations are the source for much of the written history of Buddhism in East Asia they deserve the careful study that has been given to them by Tanya Storch in this book Her research advances the understanding and provides much new data about this genre of literature and its impact on Chinese religion and culture Lewis Lancaster University of California Berkeley Offers insight into wide ranging issues of how religious ideas are transmitted between cultures Although the focus here is on the ways in which Buddhism in both oral and written forms was assimilated into Chinese literary society Storch s comparative approach will also be of interest to scholars specializing in the comparative analysis of sacred scriptures E Ann Matter University of Pennsylvania Cataloging is an essential step toward canon formation in East Asian Buddhism However current scholarship has not yet revealed the mysteries behind the collection of the enormous corpus of Buddhist texts which is called the Buddhist canon let alone the process of catalog making Dr Storch s work is pioneering in this direction and touches the core of the rich textual tradition in East Asian Buddhism In addition her meaningful contribution will be of interest to researchers of a global history of scriptural catalogs because she brings in a comparative perspective to the subject matter and puts the Chinese Buddhist catalogs on a par with the Confucian textual tradition and Western cataloging practices This book is highly recommended for scholars and students studying Buddhism history of the Chinese book and comparative religion Jiang Wu University of Arizona This highly accessible book is not only helpful to the nonspecialists in Buddhism but also to Buddhist scholars who are interested in how and why differing versions of the Buddhist canon came into existence Much Buddhist sectarianism stems from different assessments of what should be counted as a reliable Buddhist scripture This account of the long and complex history of Chinese Buddhist ideas about what should be included in a catalogue of authentic Buddhist scriptures sheds much light on the process of canon formation in Buddhism It also demonstrates that Chinese Buddhists played a leading role in dividing Buddhism into so called Hinayana and Mahayana which is at the root of much Buddhist sectarianism Rita M Gross University of Wisconsin Eau Claire
