The Chinese Box:

The Chinese Box Christopher New, 2003-07 The fingers of pianists are broken for playing bourgeois music teachers are humiliated and worse the Cultural Revolution is in full fury on the mainland Hong Kong is rife with rumors and riots Nonetheless Dimitri Johnston feels an affinity for China that is not shared by his wife She is not so taken with him either When he meets a young Chinese dancer they become infatuated **The Chinese Exotic** Olivia Khoo, 2007-10-01 With great sensitivity and originality Olivia Khoo shows us how to read popular films female movie stars quotidian cultural artifacts novels and other Chinese exotic phenomena in contemporary global circulation Rey Chow Brown University Olivia Khoo is a lecturer in film studies at the University of New South Wales Australia **The Mystery of the Chinese Box** Alma Benecke Sasse, 1939 *The Chinese Box* Katherine Wigmore Eyre, 1959 Romantic story of a handsome San Francisco society couple in the 1880 s and the strange reappearance of a cousin from the Orient *The New Generation in Chinese Animation* Shaopeng Chen, 2021-09-23 In 1995 Chinese animated filmmaking ceased to be a state run enterprise and was plunged into the free market Using key animated films as his case studies Shaopeng Chen examines new generation Chinese animation in its aesthetic and industrial contexts He argues that unlike its predecessors this new generation does not have a distinctive national identity but represents an important stage of diversity and exploration in the history of Chinese animation Chen identifies distinct characteristics of new generation filmmaking including an orientation towards young audiences and the recurring figure of the immortal monkey like Sun Wukong He explores how films such as Lotus Lantern Baolian Deng 1999 responded to competition from American imports such as The Lion King 1994 retaining Chinese iconography while at the same time adopting Hollywood aesthetics and techniques Addressing the series Boonie Bears Xiong Chumo 2014 5 Chen focuses on the films adaptation from the original TV series and how the films were promoted across generations and by means of both online and offline channels Discussing the series Kuiba Kui Ba 2011 2013 2014 Chen examines Vasoon Animation Studio s ambitious attempt to create the first Chinese style high fantasy fictional universe and considers why the first film was a critical success but a failure at the box office He also explores the relationship between Japanese anime and new generation Chinese animation Finally Chen considers how word of mouth social media engagement lay behind the success of Monkey King Hero is Back 2015 **The Cold War in Asia** Yangwen Zheng, Hong Liu, Michael Szonyi, 2010 The Cold War stayed cold in Europe but it was hot in Asia Its legacy lives on in the region In none of the three dominant historiographical paradigms orthodox revisionist and post revisionist does Asia or the rest of the Third World figure with much significance What happens to these narratives if we put them to the test in Asia This volume argues that attention to what has been conventionally considered the periphery is essential to a full understanding of the global Cold War Foregrounding Asia necessarily leads to a re assessment of the dominant narratives This volume also argues for a shift in focus from diplomacy and high politics alone towards research into the culture of the Cold War era and its public diplomacy

As a whole the essays contribute to enriching our understanding of what was really happening in an era that is too often understood in the catch all framework of the Cold War Akira Iriye Harvard University

The Oxford Handbook of Chinese Cinemas Carlos Rojas,Eileen Chow,2013-04-25 What does it mean for a cinematic work to be Chinese Does it refer specifically to a work s subject or does it also reflect considerations of language ethnicity nationality ideology or political orientation Such questions make any single approach to a vast field like Chinese cinema difficult at best Accordingly The Oxford Handbook of Chinese Cinemas situates the term more broadly among various different phases genres and distinct national configurations while taking care to address the consequences of grouping together so many disparate histories under a single banner Offering both a platform for cross disciplinary dialogue and a mapping of Chinese cinema as an expanded field this Handbook presents thirty three essays by leading researchers and scholars intent on yielding new insights and new analyses using three different methodologies Chapters in Part I investigate the historical periodizations of the field through changing notions of national and political identity all the way from the industry s beginnings in the 1920s up to its current forms in contemporary Hong Kong Taiwan and the global diaspora Chapters in Part II feature studies centered on the field s taxonomical formalities including such topics as the role of the Chinese opera in technological innovation the political logic of the Maoist film and the psychoanalytic formula of the kung fu action film Finally in Part III focus is given to the structural elements that comprise a work s production distribution and reception to reveal the broader cinematic apparatuses within which these works are positioned Taken together the multipronged approach supports a wider platform beyond the geopolitical and linguistic limitations in existing scholarship Expertly edited to illustrate a representative set of up to date topics and approaches The Oxford Handbook of Chinese Cinemas provides a vital addition to a burgeoning field still in its formative stages

Imperial Beast Fables Kaori Nagai,2020-07-28 This book coins the term imperial beast fable to explore modern forms of human animal relationships and their origins in the British Empire Taking as a starting point the long nineteenth century fascination with non European beast fables it examines literary reworkings of these fables such as Rudyard Kipling s Jungle Books in relation to the global politics of race language and species The imperial beast fable figures variably as a key site where the nature and origins of mankind are hotly debated an emerging space of conservation in which humans enclose animals to manage and control them a cage in which an animal narrator talks to change its human jailors and a vision of animal cosmopolitanism in which a close kinship between humans and other animals is dreamt of Written at the intersection of animal studies and postcolonial studies this book proposes that the beast fable embodies the ideologies and values of the British Empire while also covertly critiquing them It therefore finds in the beast fable the possibility that the multitudinous animals it gives voice to might challenge the imperial networks which threaten their existence both in the nineteenth century and today

The Chinese Cinema Book Song Hwee Lim,Julian Ward,2020-04-30 This revised and updated new edition provides a comprehensive introduction to the history of cinema in mainland China Hong Kong and

Taiwan as well as to diasporic and transnational Chinese film making from the beginnings of cinema to the present day. Chapters by leading international scholars are grouped in thematic sections addressing key historical periods, film movements, genres, stars and auteurs, and the industrial and technological contexts of cinema in Greater China. **A Companion to Chinese Cinema** Yingjin Zhang, 2012-03-30 This outstanding anthology offers an encyclopedic coverage of Chinese cinema from multiple angles and will be the standard reference in Chinese cinema studies in the years to come. Sheldon Lu, University of California, Davis Like its editor, this Companion is reliable, encyclopedic, and friendly. Traveling from silent melodramas to the urban generation from Mainland China to Hong Kong and Taiwan, we now have the docent we need. Dudley Andrew, Yale University This stunning collection is a must read for anyone interested in the complicated dynamics of Chinese cinema past and present. Features state-of-the-art research by highly respected veteran scholars and brilliant newcomers. Paul G. Pickowicz, University of California, San Diego A Companion to Chinese Cinema features a collection of original readings that offer a comprehensive overview of the evolution and current state of Chinese cinema. Essays consider Chinese cinema from a variety of historical and geopolitical centers: Shanghai, Hong Kong, and Taiwan, and offer a critical examination of major accomplishments of Chinese film studies in various categories: film history and geography, industry and institution, media and arts, genre and representation, and issues and debates. This collaborative project brings together specialists across a range of disciplines to consider Chinese cinema from a variety of methodological approaches and theoretical frameworks. This interdisciplinary approach allows for an unprecedented breadth of innovative ideas that facilitate a better understanding of Chinese cinema as it relates to artistic projects, social practices, political institutions, and expanding international markets. A Companion to Chinese Cinema offers an important analysis of a growing force in international cinema. **Communications in Contemporary China** Nicole Talmac, Altman, Yuzhu Peng, 2023-09-01 Using the analogy of an orchestra, the book looks at the ways in which the Party state conducts communications in China. Rather than treating China's communications system as purely one of centralized top-down control, this book proffers that it is the combination of the government through its state policies, the propaganda bureau's campaigns, commercial consumer culture, digital and traditional media platforms, celebrities, entertainers, and journalists, educators, community interest groups, and family and friends who all contribute to the evolution of how ideas are perpetuated, enforced, and legitimised in China. Covering themes such as censorship, surveillance, national narratives onscreen and in everyday life, political agency, creative work, news production, and gender politics, this book gives an insight into the complex web of conditions, objectives, and challenges that the Chinese leadership and commercial interests face when orchestrating their visions for the nation's future. As such, this volume will be of great interest to students and scholars of media and communication studies, Chinese politics, and Chinese Studies. The Chinese Must Go Beth Lew-Williams, 2018-02-26 Beth Lew Williams shows how American immigration policies incited violence against Chinese workers and how that violence provoked new exclusionary policies.
