[Party Vs. State in Post-1949 China](#) Shiping Zheng, 1997-07-13 This book provides the most comprehensive analysis of one of the most important issues in China today the tensions between the Chinese Communist Party and the Chinese state legislative judicial administrative and military institutions Taking the neo institutionalist approach the author suggests that the Communist Party in post 1949 China faces an institutional dilemma the Party cannot live with the state and it cannot live without the state Zheng demonstrates that it is not only conceptually constructive but analytically imperative to distinguish the state from the Communist Party Secondly he integrates detailed study with broader generalizations about Chinese politics thus making efforts to overcome the tendency toward specialized scholarship at the expense of comparative and systemic understanding of China He also opens a new dimension of Chinese politics the uncertain and conflictual relationship between the Communist Party and the Chinese state [Mao's China and After](#)

[The Chinese Communist Party in Power, 1949-1976](#) Jacques Guillermaz, 1976 *Historical Dictionary of the People's Republic of China* Lawrence R. Sullivan, 2016-08-03 When the Chinese Communist Party CCP assumed power in October 1949 China was one of the poorest nations in the world and so weak it had been conquered in the late 1930s and early 1940s by its neighbor Japan a country one 10th its size More than five decades later the People's

Republic of China PRC is an emerging economic political and major military power with the world's fastest growing economy and largest population 1.35 billion in 2015. A member of the United Nations Security Council since the early 1970s and a nuclear power, China wields enormous influence in the world community while at home what was once a nation of largely poverty-stricken peasants and urban areas with little to no industry has been transformed into an increasingly urbanized society with a growing middle class and an industrial and service sector that leads the world in such industries as steel and textiles while becoming a major player in computers and telecommunications. All the while the country has remained under the tight political control of a one-party system dominated by the Chinese Communist Party that despite periods of intense political conflict and turmoil governs China with a membership in 2014 of 88 million people, the largest single organization on earth. This third edition of *Historical Dictionary of the People's Republic of China* contains a chronology, an introduction, appendixes, and an extensive bibliography. The dictionary section has over 700 cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture. The Writings of Mao Zedong, 1949-1976: January 1956-December 1957 Zedong Mao, 1986 *The Contemporary Chinese Historical Drama* Rudolf G. Wagner, 2022-08-19 China's Great Leap Forward of 1958-1961 was a time of official rejoicing over the achievements of Communism but it was also a time of immense suffering. Growing dissent among intellectuals stimulated creativity as writers sought to express both their hope for the success of the revolution and their dissatisfaction with the Party leadership and policies. But the uneasy political climate and the state's control over literature prevented writers from directly addressing the compelling problems of the time. Rather they resorted to a variety of sophisticated and time-honored forms for airing their grievances, including the historical drama. Rudolf Wagner examines three of these plays written and performed between 1958 and 1963 in an effort to decode their hidden political and cultural meanings. He also provides a broad survey of the politics of the historical drama in China, suggesting further avenues of inquiry into the relationship between literature and the state.
