Perry, 2015-05-20 Social science theories of contentious politics have been based almost exclusively on evidence drawn from the European and American experience and classic texts in the field make no mention of either the Chinese Communist revolution or the Cultural Revolution surely two of the most momentous social movements of the twentieth century Moreover China's record of popular upheaval stretches back well beyond this century indeed all the way back to the third century B C This book by bringing together studies of protest that span the imperial Republican and Communist eras introduces Chinese patterns and provides a forum to consider ways in which contentious politics in China might serve to reinforce refine or reshape theories derived from Western cases **Health Care Transformation in Contemporary China** Jiong Tu, 2018-06-12 This multifaceted book examines the free market reform of the Chinese healthcare system in the 1980s and the more collectivist or socialist counter reforms that have been implemented since 2009 to remedy some of the problems introduced by marketization The book is based on an ethnographical study in a Chinese county from 2011 to 2012 which investigated local people's experience of healthcare reforms and the various ways in which they have adapted their own behavior to the constraints and opportunities introduced by these reforms It provides a vivid depiction of the morality and emotionality of people's experiences of the Chinese healthcare system and the myriad frustrations and sometimes desperation it induces not only among patients with significant health problems and their families but also healthcare practitioners caught between their desire to do right by their patients and the penalties they personally incur if they do not adhere to institutionalized cost saving measures The people's experiences within China's health sector presented reflect many similar experiences in the wider Chinese society The book is thus a valuable resource for researchers and graduate students interested in China's healthcare reforms and scholars concerned with issues of contemporary Chinese society **Modern Chinese Religion II: 1850 - 2015 (2 vols.)**, 2015-10-20 The last of four two volume sets on the key periods of paradigm shift in Chinese religious and cultural history this book examines the transformation of values in China since 1850 in the secular realms of economics science medicine aesthetics media and gender and in each of the major religions Confucianism Buddhism Daoism Christianity as well as in Marxist discourse The nation and science are the values invoked most frequently with the market and democracy a distant second As in previous periods of fundamental change in

Chinese history rationalization and secularization have played central roles but interiorization nearly disappears as a driving force. Also in continuity with the past the state insists on an exclusive right to define and adjudicate orthodoxy. Contributors include Daniel H. Bays, S. **China Under Mao** Andrew George Walder, 2015-04-06 China's Communist Party seized power in 1949 after a long period of guerrilla insurgency followed by full scale war but the Chinese revolution was just beginning. China Under Mao narrates the rise and fall of the Maoist revolutionary state from 1949 to 1976, an epoch of startling accomplishments and disastrous failures steered by many forces but dominated above all by Mao Zedong. Walder convincingly shows that the effect of Maoist inequalities still distorts China today. It will be a mind opening book for many and is a depressing reminder for others. Jonathan Mirsky, *The Spectator*. Andrew Walder's account of Mao's time in power is detailed, sophisticated and powerful. Walder takes on many pieces of conventional wisdom about Mao's China and pulls them apart. What was it that led so much of China's population to follow Mao's orders in effect to launch a civil war against his own party? There is still much more to understand about the bond between Mao and the wider population. As we try to understand that bond, there will be few better guides than Andrew Walder's book. Sober, measured, meticulous in every deadly detail, it is an essential assessment of one of the world's most important revolutions. Rana Mitter, *Times Literary Supplement*.

*The New Blackwell Companion to The City* Gary Bridge, Sophie Watson, 2011-02-23 This book considers the state of the city and contemporary urbanisation from a range of intellectual and international perspectives. The most interdisciplinary collection of its kind. Provides a contemporary update on urban thinking that builds on well established debates in the field. Uses the city to explore economic, social, cultural, environmental and political issues more broadly. Includes contributions from non-Western perspectives and cities.

Cultural Revolution and Revolutionary Culture Alessandro Russo, 2020-08-28 In *Cultural Revolution and Revolutionary Culture* Alessandro Russo presents a dramatic new reading of China's Cultural Revolution as a mass political experiment aimed at thoroughly reexamining the tenets of communism. Russo explores four critical phases of the Cultural Revolution, each with its own reworking of communist political subjectivity: the historical theatrical prologue of 1965, Mao's attempts to shape the Cultural Revolution in 1965 and 1966, the movements and organizing between 1966 and 1968, and the factional divides that ended them and the mass study campaigns from 1973 to 1976, and the unfinished attempt to evaluate the inadequacies of the political decade that brought the Revolution to a close. Among other topics, Russo shows how the dispute around the play *Hai Rui Dismissed from Office* was not the result of a Maoist conspiracy but rather a series of intense and unresolved political and intellectual controversies. He also examines the Shanghai January Storm and the problematic foundation of the short-lived Shanghai Commune. By exploring these and other political-cultural moments of Chinese

confrontations with communist principles Russo overturns conventional wisdom about the Cultural Revolution

**Re-Drawing Boundaries** Barbara Entwisle, Gail Henderson, 2000-11-07 The essays in this volume explore various aspects of work in China including the nature of work gender inequalities in work gender and work in the context of migration and the reciprocal influences of households and work organization
