Explaining Chinese Democratization Shaohua Hu, 2000-01-30 Hu seeks to explain China's failure to establish a democratic system He demonstrates both continuity and change in China's democratization process Modern China regards power and wealth as primary goals and treats a strong state as a major means to these ends Such a preference puts democracy on a back burner Employing a theoretical framework which consists of five factors historical legacies local forces

the world system socialist values and economic development Hu shows that while all of these factors were at work in all eras each assumes a special significance in a particular period Traditional China before the 1911 Revolution attempted to adjust itself to a new Western dominated world In the Republican era the control of local forces topped the political agenda Nationalist China sought to survive and develop in the world system while Maoist China set for itself the task of building a socialist state And of course economic development has been the priority of the Deng era As Hu shows these five factors have had determining impacts on the long struggle for democracy in China *China and the Islamic World* Robert R.

Bianchi,2019-02-01 China is building a New Silk Road that runs through the heartland of the Muslim world promising it will create integrated economies and stronger ties across Eurasia and Africa Robert R Bianchi argues that while China has the financial and technical resources to accomplish its infrastructure goals it is woefully unprepared to deal with the social and political demands of its partner countries citizens China Steps Out Joshua Eisenman,Eric Heginbotham,2018-01-12 What are Beijing s objectives towards the developing world and how they have evolved and been pursued over time Featuring contributions by recognized experts China Steps Out analyzes and explains China s strategies in Southeast Asia Central Asia South Asia Africa Middle East and Latin America and evaluates their effectiveness This book explains how other countries perceive and respond to China s growing engagement and influence Each chapter is informed by the functionally organized academic literature and addresses a uniform set of questions about Beijing s strategy Using a regional approach the authors are able to make comparisons among regions based on their economic political military and social characteristics and consider the unique features of Chinese engagement in each region and the developing world as a whole China Steps Out will be of great interest to students and scholars of Chinese foreign policy comparative political economy and international relations **Chinese Perspectives on International Relations** G. Chan,2016-06-08 Based on primary sources and field

research this book is the first of its kind to probe into the Chinese mind set to see how they perceive international relations It analyses the factors of power Marxism culture and modernisation that shape the Chinese thinking on IR It explores the Chinese understanding of the state and interstate relations discusses the merits of an IR theory with Chinese characteristics and assesses the problems and prospects of the development of international studies in China Fortune and the Dao Jason P. Blahuta,2015-04-16 Times of prolonged conflict spur great minds to seek a lasting peace Thus was the case of Warring States China which saw the rise of the Hundred Schools of Thought including the Doadejing and the Han Feizi and Renaissance Italy which produced Niccol Machiavelli Witnessing their respective societies fall prey to internal corruption and external aggression all three thinkers sought ways to produce a strong stable state that would allow both the leader and the populace to endure Fortune and the Dao A Comparative Study of Machiavelli the Daodejing and the Han Feizi demonstrates where the shortcomings of each theory lie with emphasis on the similarities among Machiavelli Laozi and Han Feizi Jason P Blahuta ultimately argues that if Machiavelli s philosophy the most comprehensive of the three theories were supplemented

by aspects of the Daodejing the revision would potentially overcome the deficiencies of the original     The End of an Isolation: China After Mao Harish Kapur,2024-10-28     Machiavelliana Michael Jackson,Damian Grace,2018-06-05 In Machiavelliana Michael Jackson and Damian Grace offer a comprehensive study of the uses and abuses of Niccol Machiavelli's name in society generally and in academic fields distant from his intellectual origins It assesses the appropriation of Machiavelli in didactic works in management social psychology and primatology scholarly texts in leaderships studies as well as novels plays commercial enterprises television dramas operas rap music Mach IV scales children's books and more The book audits surveys examines and evaluates this Machiavelliana against wider claims about Machiavelli It explains the origins of Machiavelli's reputation and the spread of his fame as the foundation for the many uses and misuses of his name They conclude by redressing the most persistent distortions of Machiavelli     *China and the Developing World* Joshua Eisemann,Eric Heginbotham,Derek Mitchell,2015-08-20 China's relationship with the developing world is a fundamental part of its larger foreign policy strategy Sweeping changes both within and outside of China and the transformation of geopolitics since the end of the cold war have prompted Beijing to reevaluate its strategies and objectives in regard to emerging nations Featuring contributions by recognized experts this is the first full length treatment of China's relationship with the developing world in nearly two decades Section one provides a general overview and framework of analysis for this important aspect of Chinese policy The chapters in the second part of the book systematically examine China's relationships with Africa the Middle East Central Asia Latin America South Asia and Southeast Asia The book concludes with a look into the future of Chinese foreign policy     **World Military History Bibliography** Barton Hacker,2003-06-01 Preclassical and indigenous nonwestern military institutions and methods of warfare are the chief subjects of this annotated bibliography of work published 1967 1997 Classical antiquity post Roman Europe and the westernized armed forces of the 20th century although covered receive less systematic attention Emphasis is on historical studies of military organization and the relationships between military and other social institutions rather than wars and battles Especially rich in references to the periodical literature the bibliography is divided into eight parts 1 general and comparative topics 2 the ancient world 3 Eurasia since antiquity 4 sub Saharan Africa and Oceania 5 pre Columbian America 6 postcontact America 7 the contemporary nonwestern world and 8 philosophical social scientific natural scientific and other works not primarily historical     *East Asian Economic Ties with the Middle East* Shirzad Azad,2019-05-01 This book presents the documentation of all known recorded capital trials within the Tudor dynasty each encapsulating the drama and intrigue of real history as Tudor law evolved from following the monarch's will to following clearly established law While capital punishment was common several individuals accused of treason skillfully and successfully defended themselves The names of many of the subjects will be familiar to those who are interested in Tudor history as they were prominent enough to be mentioned in books about the rulers they served Biographies have been published about some of these individuals including the events that led up to their trials but all too

often the trials themselves have been left out or have been included only by way of a few excerpts so that this volume is the first to include as many as presented here Some books about the period include the word Trial of was in the title but still only short excerpts of the actual trial are included Other books on Tudor personalities are more about entertainment than factual history enhanced by embellishing a few facts and rather skillfully weaving them into a great story that totally excludes the trials The inducement to put together this book is two fold First it is my opinion that the trials are an integral part of the individual s biographical story and of history secondly some readers of my past publications have asked for a book just about the trials of those best known to readers interested in English Tudor history The trials included in this edition are accumulated from many sources Only a very few have been left out because actual trial records were not found only a conglomeration of notes from many sources that give the reader a basic account of the legal proceeding During the reign of Elizabeth I record keeping and trial transcripts became more frequent and regular

**China's Foreign Aid and Investment Diplomacy, Volume I** John F. Copper, 2016-04-29 Today by many accounts China is the world s foremost purveyor of foreign aid and foreign investment to developing countries This is the product of China s miracle economic growth over a period of more than three decades together with China s drive to become a major player in world affairs and accomplish this through economic rather than military means This three volume work is the first comprehensive study of China s aid and investment strategy to trace how it has evolved since Beijing launched its foreign aid diplomacy at the time of the founding of the People s Republic of China in 1949 Volume I examines the definitions origins nature and scope of foreign aid and investment by other countries Using that background John F Copper then traces China s financial assistance to developing countries from the Mao period when China gave meaningful foreign aid despite its own economic struggles through the beginning of China s post 1978 economic boom and during subsequent decades of rapid economic growth Copper shows that China has a more salient history in giving foreign assistance than any other country in the world while China s objectives in giving foreign assistance have changed markedly over time China has always been driven by efforts to realize its foreign policy objectives and expand China s external influence

**The Lucifer Principle** Howard Bloom, 2013-11-01 A philosophical look at the history of our species which alternated between fascinating and frightening like reading Dean Koontz or Stephen King Rocky Mountain News The Lucifer Principle is a revolutionary work that explores the intricate relationships among genetics human behavior and culture to put forth the thesis that evil is a by product of nature s strategies for creation and that it is woven into our most basic biological fabric In a sweeping narrative that moves lucidly among sophisticated scientific disciplines and covers the entire span of the earth s as well as mankind s history Howard Bloom challenges some of our most popular scientific assumptions Drawing on evidence from studies of the most primitive organisms to those on ants apes and humankind the author makes a persuasive case that it is the group or superorganism rather than the lone individual that really matters in the evolutionary struggle But biology is not destiny and human culture is

not always the buffer to our most primitive instincts we would like to think it is In these complex threads of thought lies the Lucifer Principle and only through understanding its mandates will we be able to avoid the nuclear crusades that await us in the twenty first century A revolutionary vision of the relationship between psychology and history The Lucifer Principle will have a profound impact on our concepts of human nature It is astonishing that a book of such importance could be such a pleasure to read Elizabeth F Loftus author of Memory
