Chinese People's Liberation Army at 75 , *China During the Cultural Revolution, 1966-1976* Tony H. Chang,1999-01-30 One of the most tumultuous periods in modern Chinese history the Cultural Revolution affected virtually all Chinese people and all aspects of Chinese life including art music and drama education factory management economic planning and medical care Studies of the Cultural Revolution in both Chinese and Western languages have burgeoned over the past three decades This comprehensive easy to use bibliography provides a guide to published English language sources on the Cultural Revolution With over a thousand entries it includes books monographs dissertations and audio visual materials on a broad range of topics from the military education religion and economics to foreign relations population art literature and drama Including titles published through the end of 1997 and a few in 1998 the book provides a general overview of the literature on the Chinese Cultural Revolution and its impact on China Its scope and coverage make it a useful resource for any library whose readers have an interest in modern Chinese history **Chinese Military Strategy in the Third Indochina War** Edward C. O'Dowd,2007-04-16 This well researched volume examines the Sino Vietnamese hostilities of the late 1970s and 1980s attempting to understand them as strategic operational and tactical events The Sino Vietnamese War was the third

Indochina war and contemporary Southeast Asia cannot be properly understood unless we acknowledge that the Vietnamese fought three not two wars to establish their current role in the region. The war was not about the Sino-Vietnamese border as frequently claimed but about China's support for its Cambodian ally the Khmer Rouge and the book addresses US and ASEAN involvement in the effort to support the regime. Although the Chinese completed their troop withdrawal in March 1979 they retained their strategic goal of driving Vietnam out of Cambodia at least until 1988 but it was evident by 1984-85 that the PLA held back by the drag of its Maoist organization doctrine equipment and personnel was not an effective instrument of coercion. Chinese Military Strategy in the Third Indochina War will be of great interest to all students of the Third Indochina War Asian political history Chinese security and strategic studies in general

The A to Z of the Chinese Cultural Revolution Jian Guo, Yongyi Song, Yuan Zhou, 2009 There has never been anything quite like the Cultural Revolution which disrupted life in the People's Republic of China from 1966 to 1976. It wreaked havoc in the world's most populous country often turning life upside down and undermining the party government and army weakening the economy society and culture. Tens of millions were hurt or killed during this period and relatively few benefited aside from Mao Zedong and temporarily the Gang of Four. The A to Z of the Chinese Cultural Revolution provides an extensive chronology that traces the events of the revolution and the introduction puts those events in context and explains them. The bulk of the information is provided in numerous dictionary entries on important persons places institutions and movements. The bibliography points to further resources and the glossary helps those researching in Chinese. Book Jacket

Historical Dictionary of the People's Republic of China Lawrence R. Sullivan, 2016-08-03 When the Chinese Communist Party (CCP) assumed power in October 1949 China was one of the poorest nations in the world and so weak it had been conquered in the late 1930s and early 1940s by its neighbor Japan a country one 10th its size. More than five decades later the People's Republic of China (PRC) is an emerging economic political and major military power with the world's fastest growing economy and largest population 1.35 billion in 2015. A member of the United Nations Security Council since the early 1970s and a nuclear power China wields enormous influence in the world community while at home what was once a nation of largely poverty-stricken peasants and urban areas with little to no industry has been transformed into an increasingly urbanized society with a growing middle class and an industrial and service sector that leads the world in such industries as steel and textiles while becoming a major player in computers and telecommunications. All the while the country has remained under the tight political control of a one-party system dominated by the Chinese Communist Party that despite periods of intense political conflict and turmoil governs China with a membership in 2014 of 88 million people the largest single organization on earth. This third edition of *Historical Dictionary of the People's Republic of China* contains a chronology an introduction appendixes and an extensive bibliography. The dictionary section has over 700 cross-referenced entries on important personalities politics economy foreign relations religion and culture. This book is an excellent access point for students

researchers and anyone wanting to know more about China **Chinese Politics and Society** Flemming Christiansen, Shirin Rai, 2014-02-04 An introduction to Chinese Politics which provides an accessible overview of the structures and dynamics of Chinese politics today Concentrating on the era since 1949 the text takes a look at politics in the widest sense analysing political institutions within the crucial broader context of Chinese history and the pressures of social economic and cultural changes **Communist Armies In Politics** Jonathan R. Adelman, 2019-03-13 This book analyzes the historical and contemporary political roles of armies in the majority of the world's Communist countries stressing the problems faced and overcome by Communist parties in the creation and development of legitimate and effective armies The authors all area specialists explore the sources of the dramatic differences between the highly visible and powerful political roles of the Chinese Vietnamese and Cuban armies the small but increasing political role of the Soviet army and the minimal political roles of most Eastern European armies Emphasized are such variables as the nature of revolution the role of civil war and the extent of external interference particularly from the Soviet Union The authors show how these variables are key factors in determining the path of army political development Critical Readings on the Communist Party of China (4 Vols. Set) Kjeld Erik Brodsgaard, 2016-12-12 The Chinese Communist Party CCP with nearly 90 million members is the largest ruling political party in the world Its power and influence reach into every corner of state society and economy in China Given the CCP's omnipresence in depth knowledge of how the CCP is organised and managed and how it will likely evolve is of paramount importance and is a basic prerequisite for understanding China's rise By bringing together the best scholarship on the CCP covering areas such as organisation cadre management recruitment and training ideology and propaganda factions and elites reform and adaptation corruption and law this collection provides a key to open the black box of Chinese politics **Women and the Military** Ruth Margolies Beitler, Sarah M. Gerstein, 2021-04-07 This addition to the Women and Society around the World series explores the roles challenges and accomplishments of women in the military in countries across the globe Around the world millions of men serve in their countries militaries be it on land on the seas or in the air But while many militaries have opened all positions to women even those on the front lines others remain closed Countries have cited a number of reasons for their policies including changing views of women and the military conscription and economic and demographic trends Written by a professor of comparative politics at the United States Military Academy at West Point and an active duty army major this book seeks to provide an understanding of women's roles in militaries around the world The book is organized by region exploring societal and cultural views of masculinity and war as well as factors influencing changing views of women and the military including conscription and economic and demographic trends Topics also include sexual harassment recruitment and views on women's physicality and strength High school students undergraduates and general readers will find this cross cultural study a fascinating and important resource **Nuclear Strategy in the Modern Era** Vipin Narang, 2014-05-25 The world is in a second nuclear age in which regional powers play an increasingly

prominent role These states have small nuclear arsenals often face multiple active conflicts and sometimes have weak institutions How do these nuclear states and potential future ones manage their nuclear forces and influence international conflict Examining the reasoning and deterrence consequences of regional power nuclear strategies this book demonstrates that these strategies matter greatly to international stability and it provides new insights into conflict dynamics across important areas of the world such as the Middle East East Asia and South Asia Vipin Narang identifies the diversity of regional power nuclear strategies and describes in detail the posture each regional power has adopted over time Developing a theory for the sources of regional power nuclear strategies he offers the first systematic explanation of why states choose the postures they do and under what conditions they might shift strategies Narang then analyzes the effects of these choices on a state's ability to deter conflict Using both quantitative and qualitative analysis he shows that contrary to a bedrock article of faith in the canon of nuclear deterrence the acquisition of nuclear weapons does not produce a uniform deterrent effect against opponents Rather some postures deter conflict more successfully than others **Nuclear Strategy in the Modern Era** considers the range of nuclear choices made by regional powers and the critical challenges they pose to modern international security *China at War* Xiaobing Li, 2012-01-10 This comprehensive volume traces the Chinese military and its experiences over the past 2 500 years describing clashes with other kingdoms and nations as well as internal rebellions and revolutions As the first book of its kind *China at War* An Encyclopedia expands far beyond the conventional military history book that is focused on describing key wars battles military leaders and influential events Author Xiaobing Li an expert writer in the subjects of Asian history and military affairs provides not only a broad chronological account of China's long military history but also addresses Chinese values concepts and attitudes regarding war As a result readers can better understand the wider sociopolitical history of the most populous and one of the largest countries in the world and grasp the complex security concerns and strategic calculations often behind China's decision making process This encyclopedia contains an introductory essay written to place the reference entries within a larger contextual framework allowing students to compare Chinese with Western and American views and approaches to war Topics among the hundreds of entries by experts in the field include Sunzi's classic *The Art of War* Mao Zedong's guerrilla warfare in the 20th century Chinese involvement in the Korean War and Vietnam War and China's nuclear program in the 21st century **From Muskets To Missiles** Harlan W. Jencks, 2019-03-01 This book examines the extent nature and political implications of professionalization in the Chinese People's Liberation Army (PLA) It provides a description and evaluation of the military political economic and social context within which PLA officers have functioned since the civil war **Special Bibliography Series**, 1957

The Chinese Defense Establishment

Paul H. B. Godwin, 2019-06-18 Complex issues of national security and defense modernization continue to be a major preoccupation of the PRC leadership. In the 1970s especially during the second half of that crucial decade critical decisions were made that led to Beijing's alignment with the West against the USSR and a revitalization of its armed forces. This book looks at China's From Swords To Plowshares? Paul Humes Folta, 2019-03-07 It is with great pleasure that I recognize those who helped make this book possible. I am indebted to A Doak Barnett, Paul H. B. Godwin, and Barry Naughton for their many extremely useful suggestions on the conceptual structure and details of the analysis. Others shared many of their resources and contacts among them are Wendy Frieman, Albert Kiedet, Commander Phil Midland, Jonathan Pollack, David Shambaugh, and Jeffrey Taylor. Sammie Choy provided invaluable production assistance with the tables and graphs. Barbara Bowersox gave essential administrative support in the initial research and writing stage. For funding that made travel to China possible, I am grateful to the Johns Hopkins University Paul H. Nitze School of Advanced International Studies SAIS Rome Grant and the Shell Oil Company Shell Fellowship. Most important of all, my wife Eleanore provided unfailing encouragement, critical insight, editorial suggestions, and wordprocessing skills.
