The Tragedy of Liberation Frank Dikötter, 2013-09-24 A groundbreaking chronicle of the violent early years of the People's Republic of China by the author of the BBC Samuel Johnson Prize winning Mao's Great Famine The Chinese Communist party refers to its victory in 1949 as a liberation In China the story of liberation and the revolution that followed is not one of peace liberty and justice It is first and foremost a story of calculated terror and systematic violence So begins Frank Dikötter's stunning and revelatory chronicle of Mao Zedong's ascension and campaign to transform the Chinese into what the party called New People Following the defeat of Chiang Kai-shek in 1949 after a bloody civil war Mao hoisted the red flag over Beijing's Forbidden City and the world watched as the Communist revolution began to wash away the old order Due to the secrecy surrounding the country's records little has been known before now about the eight years that followed preceding the massive famine and Great Leap Forward Drawing on hundreds of previously classified documents secret police reports unexpurgated versions of leadership speeches eyewitness accounts of those who survived and more The Tragedy of Liberation bears witness to a shocking largely untold history Interweaving stories of ordinary citizens with tales of the brutal politics of Mao's court Frank Dikötter illuminates those who shaped the liberation and the horrific policies they implemented in the name of progress People of all walks of life were caught up in the tragedy that unfolded and whether or not they supported the revolution all of them were asked to write confessions denounce their friends and answer queries about their political reliability One victim of thought reform called it a carefully cultivated Auschwitz of the mind Told with great narrative sweep The Tragedy of Liberation is a powerful and important document giving voice at last to the millions who were lost and casting new light on the foundations of one of the most powerful regimes of the twenty first century

The Routledge Companion to the French Revolution in World History Alan Forrest, Matthias Middell, 2015-09-16 The Routledge Companion to the French Revolution in World History engages with some of the most recent trends in French revolutionary scholarship by considering the Revolution in its global context Across seventeen chapters an international team of contributors examine the impact of the Revolution not only on its European neighbours but on Latin America North America and Africa assess how far events there impacted on the Revolution in France and suggest something of the Revolution's enduring legacy in the modern world The Companion views the French Revolution through a deliberately wide lens The first section deals with its global repercussions from the Mediterranean to the Caribbean and includes a discussion of major insurrections such as those in Haiti and Venezuela Three chapters then dissect the often complex and entangled relations with other revolutionary movements in seventeenth century Britain the American colonies and Meiji Japan The focus then switches to international involvement in the events of 1789 and the circulation of ideas people goods and capital In a final section contributors throw light on how the Revolution was and is still remembered across the globe with chapters on Russia China and Australasia An introduction by the editors places the Revolution in its political historical and historiographical context The Routledge Companion to the French Revolution in World History is a timely and important contribution to scholarship of the French Revolution

The Korean War in World History William Stueck, 2004-05-14 The Korean War in World History features the accomplishments of noted scholars over the last decade and lays the groundwork for the next generation of scholarship These essays present the latest thinking on the Korean War focusing on the relationship of one country to the war William Stueck's introduction and conclusion link each essay to the rich historiography of the event and suggest the war's place within the history of the twentieth century The Korean War had two very different faces On one level the conflict was local growing out of the internal conditions of Korea and fought almost entirely within the confines of a small Asian country located far from Europe The fighting pitted Korean against Korean in a struggle to determine the balance of political power within the country Yet the war had a huge impact on the international politics of the Cold War Combat threatened to extend well beyond the peninsula potentially igniting another global conflagration and leaving in its wake a much escalated arms race between the Western and Eastern blocs The dynamics of that division remain today threatening international peace and security in the twenty first century Contributors Lloyd Gardner Chen Jian Allan R Millett Michael Schaller and Kathryn Weathersby
