**Commodifying Bodies** Nancy Scheper-Hughes, Loic Wacquant, 2002 Breaking with established approaches which prioritize the body as text the chapters in this book examine not only images of the body turned merchandise but actually existing organisms considered at once as material entities semi magical tokens symbolic vectors and founts of lived experience The topics covered range from the cultural disposal and media treatment of corpses the biopolitics of cells sperm banks and eugenics to the international trafficking of kidneys the development of transplant tourism to the idioms of corporeal exploitation among prizefighters as a limiting case of fleshly commodity BOOKJACKET

*The Israeli Defence Forces' Representation in Israeli Cinema* Fiammetta Martegani, 2017-06-23 Of all the Biblical heroes the character of King David is perhaps the most paradoxical and also the most difficult to grasp He is the Biblical Man for all seasons a warrior a lover a poet a killer and a restorer This elaborate and fascinating archetypal hero influenced and inspired the representation of the Israeli soldier in Israeli media art and cinema from the establishment of the State of Israel until the present day This book investigates whether Israeli art and film now place a focus on soldiers not as fighters but as victims and the relationship between David as an adult and the State of Israel half a century after its establishment As in gender studies it is only in the last twenty years that research on masculinities has become a prominent part of film studies Although studies of men and masculinity have gained momentum little has been published that focuses on the media and their relationship to men as men In carrying out a study on the representation of the Israeli Defense Force in Israeli cinema the matter of gender becomes fundamental especially in relation to the Motherland of Israel Eretz Israel which is feminine by definition Israeli films are also deeply concerned with territory and territoriality As such the book also carries out an ethnography of Israeli cinema with a focus on the significant relationship between gender and nation and body and space

Imagined Israel(s): Representations of the Jewish State in the Arts Rocco Giansante, Luna Goldberg, 2023-02-27 The return of Jews to their ancestral land can be seen as an act of imagination A new country citizenship language and institutions needed to be imagined in order to be created The arts too have contributed to this act of envisioning and shaping the Jewish state By examining artistic representations of Israel *Imagined Israel's Representations of the Jewish State in the Arts* explores the ways in which the Israel imagined abroad and the one conjured within the country intersect offering a

space for the co existence of sociopolitical cultural and ideological differences and tensions      **Israelis and Palestinians in the Shadows of the Wall** Stéphanie Latte Abdallah,Cédric Parizot,2016-03-09 Shedding light on the recent mutations of the Israeli separation policy whose institutional and spatial configurations are increasingly complex this book argues that this policy has actually reinforced the interconnectedness of Israelis and Palestinian lives and their spaces Instead of focusing on the over mediatized separation wall this book deals with what it hides its shadows Based on fieldwork studies carried out by French Italian Israeli Palestinian and Swiss researchers on the many sides of the Israeli Palestinian divide it highlights a new geography of occupation specific forms of interconnectedness and power relations between Israeli and Palestinian spaces It offers a better understanding of the transformation of people s interactions their experiences and the ongoing economy of exchanges created by the separation regime This heterogeneous regime increasingly involves the participation of Palestinian and international actors Grounded in refined decryptions of territorial realities and of experiences of social actors daily lives this book goes beyond usual political media and security representations and discourses on conflict to understand its contemporary stakes on the ground      **Settler-Indigeneity in the West Bank** Rachel Z. Feldman,Ian McGonigle,2023-10-15 Since Israel conquered the West Bank formerly held by Jordan in 1967 over 400 000 settlers have moved into the territory In recent years Israeli settler organizations and allied American Jewish lobbyists have responded to international condemnation of the occupation by mobilizing narratives of indigeneity claiming sovereign and divine rights to the land Settler Indigeneity in the West Bank asks what Israeli settlers mean when they say they are indigenous how settler indigeneity is felt performed and mediated and what the implications of indigeneity claims are on the international stage Building on foundational scholarship that has come out of post colonial and indigeneity studies the volume theorizes settler indigeneity as a cultural phenomenon and product of transnational settler colonial histories while also interrogating the dialectic of settler and indigenous to illustrate their co constitution Considering agriculture clothing food language and religious practices the chapters explore how feelings of indigeneity are fashioned and how these feelings continue to transform the landscape of the West Bank Offering a series of original ethnographic accounts of these cultures and communities Settler Indigeneity in the West Bank intimately documents and discusses the processes of settler nativization in conversation with a variety of related literature in anthropology cultural studies Israel studies religious studies and settler colonial studies      **Reconceiving the Second Sex** Marcia C. Inhorn,2009 Extensive social science research particularly by anthropologists has explored women s reproductive lives their use of reproductive technologies and their experiences as mothers and nurturers of children Meanwhile few if any volumes have explored men s reproductive concerns or contributions to women s reproductive health Men are clearly viewed as the second sex in reproduction This volume argues that the marginalization of men is an oversight of considerable proportions and thereby seeks to break the silence surrounding men s thoughts experiences and feelings about their reproductive lives It sheds new light on male reproduction from a cross

cultural global perspective focusing not only upon men in Europe and America but also those in the Middle East Asia and Latin America Both heterosexual and homosexual married and unmarried men are featured in this volume which assesses concerns ranging from masculinity and sexuality to childbirth and fatherhood Thus men are brought back into the equation as reproductive partners progenitors fathers nurturers and decision makers      **Quasi Person** Pnina

Lifshitz-Aviram,2024-02-09 This book delves into the controversial subject of late term abortions particularly those occurring after 24 weeks of gestation It emphasizes that the abortion debate is multifaceted involving ethical legal medical and philosophical aspects Different countries have diverse policies on abortion from strict prohibitions to more permissive approaches Recent legal developments in the United States exemplified by the Dobbs v Jackson Women s Health Organization case overturning Roe v Wade have stirred significant legal political and public upheaval surrounding abortion rights Advancements in medical technology have enabled early detection of fetal defects forcing expectant mothers to make complex decisions regarding continuing a pregnancy with potential health challenges for the child or opting for termination The book introduces the concept of viewing the fetus as a quasi person with the right to be born and enjoy good health especially after the 24th week of pregnancy It aims to strike a balance between women s autonomy and fetal rights considering advances in fetal therapy Employing a multidisciplinary approach drawing insights from law philosophy ethics medicine psychology and public policy the book seeks to reconcile the rights of women and fetuses It unequivocally supports protecting the right to life for viable fetuses justifying this stance through historical context advancements in fetal therapy and ethical considerations related to women s autonomy and fetal rights In summary this book provides a thorough examination of abortions performed after 24 weeks of gestation exploring the ethical legal medical and philosophical dimensions while advocating for the preservation of the right to life for viable fetuses      *Surrogate Motherhood* Rachel

Cook,Shelley Day Sclater,Felicity Kaganas,2003-06-30 This multi disciplinary book explores legal ethical social psychological and practical aspects of surrogate motherhood in Britain and abroad      **The Politics of Canonicity** Michael

Gluzman,2002-12-30 This book explores the complex relations among the hegemonic triad of territory nation and national literature that have characterized the modern European nation state In the case of Hebrew literature this triad was unattainable and its components fiercely contested hence the literary field itself was responsible for shaping the nation preceding the nation state itself      Tourism and Gender Annette Pritchard,2007-01-01 While contemporary popular discourses dismiss gender and feminism as pass patriarchy and sexism continue to limit human possibilities around the globe The tourism industry can be a force for empowerment but it can also shore up exploitative gendered practices At the same time tourism enquiry itself continues to be dominated by western masculinist approaches This collection of studies seeks to advance feminist and gender tourism studies with its focus on embodiment Broad themes include the construction of narratives how discourses of desire sensuality and sexuality pervade the tourism experience the use of the body to represent

femininity masculinity and sensuality and finally how travel and tourism allow for empowerment resistance and carnivalesque opportunities

In the Company of Others Orit Abuhav, 2015-06-01 Abuhav brings a firsthand perspective to the crises and the highs lows and upheavals of the discipline in Israeli anthropology which will be of interest to anthropologists historians of the discipline and scholars of Israeli studies Battering States Madelaine Adelman, 2021-04-30 Battering States explores the most personal part of people's lives as they intersect with a uniquely complex state system The book examines how statecraft shapes domestic violence how a state defines itself and determines what counts as a family how a state establishes sovereignty and defends its borders and how a state organizes its legal system and forges its economy The ethnography includes stories from people places and perspectives not commonly incorporated in domestic violence studies and in doing so reveals the transformation of intimate partner violence from a predictable form of marital trouble to a publicly recognized social problem The politics of domestic violence create novel entry points to understanding how although women may be vulnerable to gender based violence they do not necessarily share the same kind of belonging to the state This means that markers of identity and power such as gender nationality ethnicity religion and religiosity and socio economic and geographic location matter when it comes to safety and pathways to justice The study centers on Israel where a number of factors bring connections between the cultural politics of the state and domestic violence into stark relief the presence of a

contentious multinational and multiethnic population competing and overlapping sets of religious and civil laws a growing gap between the wealthy and the poor and the dominant presence of a security state in people s everyday lives The exact combination of these factors is unique to Israel but they are typical of states with a diverse population in a time of globalization In this way the example of Israel offers insights wherever the political and personal impinge on one another
